# EMU e l'ambiente // EMU and the environment

## IT // L'IMPEGNO ECOSOSTENIBILE

La grande esperienza nella lavorazione del metallo viene rinnovata ogni giorno con l'applicazione di nuove tecniche e nuovi spunti senza perdere mai di vista l'importanza di trovare soluzioni produttive che siano attente all'ambiente e alla sua salvaguardia, riciclando e minimizzando gli scarti di lavorazione e utilizzando materiali con il minore impatto possibile.

Nella gamma EMU non è impiegata nessuna sostanza tossica nella fase di verniciatura, che avviene usando solamente vernici certificate senza metalli pesanti e sostanze inquinanti come TGIC o VOC.

L'azienda è inoltre impegnata nella riduzione costante dell'utilizzo della plastica negli imballi dei suoi prodotti.

**I nostri prodotti metallici (acciaio e alluminio privi di legno, plastica, tessuto e imbottiture) sono riciclabili al 100% e incombustibili all'origine.**

## EN // EMU'S ENVIRONMENTAL COMMITMENT

The great experience in metal production is renewed every day with the application of new techniques and ideas without every neglecting how important it is to find productive solutions that safeguard the surrounding area, recycling production waste and using material with low environmental impact.

EMU range does not use any toxic substances during varnishing. The process is done exclusively with products adhering to certified product standards which guarantee that no metal or polluting substances such as TGIC or VOC are present in the varnish.

The company is committed to reduce progressively the use of plastic in the package.

**Our metal products (steel and aluminum without wood, plastic, fabric and upholstery) are 100% recyclable and fireproof at the origin.**

# Come leggere il listino

## GENERALITÀ

Il presente listino è uno strumento informativo di facile consultazione che offre al cliente una conoscenza immediata ed esauriente delle caratteristiche tecniche dei prodotti dell'azienda. Il manuale è strutturato in schede-prodotto organizzate in senso verticale. Una lettura che procede dall'alto verso il basso e da sinistra a destra incontrerà in successione i seguenti dati informativi del prodotto.

## INFORMAZIONI PRODOTTO (vedi pagina seguente)

### Materiali / Riciclabilità

Indicazione del/i materiale/i di cui è costituito il prodotto. La descrizione dettagliata dei materiali impiegati è riportata a pag. 187

### Certificazioni

Codici dei test comunitari che certificano l'idoneità del prodotto. Il livello raggiunto, valido per tutti i prodotti valutati idonei, è il livello "Contract".

### Descrizione

Immagini e presentazione delle caratteristiche principali del prodotto, con attenzione a stile e design.

### Nome

Nome del prodotto e/o della famiglia di prodotti.

### Designer

Firma/e dell'autore/i del progetto.

### Codice / Tipologia

Sequenza alfanumerica con cui viene classificato ed identificato singolarmente ciascun prodotto. Tipologia di prodotto. I posti tavola menzionati sono da considerarsi indicativi, verificare sempre la compatibilità con le sedute che si intende abbinare.

### Disegno

Disegno bidimensionale che permette di leggere immediatamente le dimensioni per una valutazione esatta dello spazio occupato.

### Dimensioni

Misure di massimo ingombro del prodotto.

### Peso

Peso netto di ogni singolo pezzo.

### Colori

Elenco dei colori in cui è disponibile il prodotto. L'intera gamma colori è riportata a partire da pag. 172

### Quick Shipment (simbolo • )

La presenza del simbolo indica la possibilità di usufruire del servizio "Quick Shipment", ovvero di spedizione entro 3 settimane per i prodotti in acciaio ed entro 4-5 settimane per i prodotti in alluminio e cuscini dall'invio della conferma dell'ordine da parte di EMU. Saranno possibili variazioni di 3 giorni in funzione della programmazione logistica. L'azienda si riserva il diritto di confermare la data di consegna (rif. Art. 5 punto B delle "Condizioni di Vendita").

## INFORMAZIONI TECNICHE

| ICONA | DESCRIZIONE              | NOTE                                                                                                                                                                                                                                          |
|-------|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|       | Tattamento               | La lettera C accanto all'icona indica che l'acciaio ha ricevuto un trattamento superficiale protettivo di cataforesi.<br>La lettera Z accanto all'icona indica che l'acciaio ha ricevuto un trattamento superficiale protettivo di zincatura. |
|       | Carico statico (in Kg)   | Per le sedute si riferisce al carico statico esercitato sulla singola seduta, per i tavoli alla forza esercitata in punti prestabiliti del piano.<br>È previsto dai test comunitari inerenti ai requisiti meccanici dei prodotti.             |
|       | Resistente all'esterno   |                                                                                                                                                                                                                                               |
|       | Cuscino seduta+schienale | Indica che al prodotto può essere abbinato il cuscino seduta + schienale.                                                                                                                                                                     |
|       | Cuscino seduta           | Indica che al prodotto può essere abbinato il cuscino seduta.                                                                                                                                                                                 |
|       | Cuscino schienale        | Indica che al prodotto può essere abbinato il cuscino schienale.                                                                                                                                                                              |
|       | Piano in cristallo       | Indica che al prodotto può essere abbinato il piano in cristallo.                                                                                                                                                                             |
|       | Impilabile               | Il numero accanto all'icona indica il numero massimo di sedie impilabili.                                                                                                                                                                     |
|       | Pieghevole               |                                                                                                                                                                                                                                               |
|       | Reclinabile              |                                                                                                                                                                                                                                               |
|       | Allungabile              |                                                                                                                                                                                                                                               |
|       | Abbattibile              |                                                                                                                                                                                                                                               |
|       | Cover                    | Indica che al prodotto può essere abbinato il telo di protezione.                                                                                                                                                                             |
|       | Codice IP                | Il codice IP (International Protection) indica il grado di protezione degli involucri dei dispositivi elettrici ed elettronici contro la penetrazione di agenti esterni di natura solida o liquida.                                           |

## INFORMAZIONI IMBALLO

Le informazioni riportate si riferiscono sempre all'unità di imballo e specificano il numero di pezzi, le dimensioni, il volume e il peso dell'imballo. Il numero di pezzi per imballo è tassativo e quindi non modificabile, salvo dove diversamente indicato.

## PREZZO

I prezzi sono unitari RRP (consigliati al pubblico).

# How to read the price list

## GENERAL INFORMATION

This price list contains information that is easy to consult, telling the customer everything about the technical features of the company's products.

The manual is made up of product data sheets arranged vertically.

By reading it from the top downwards and from left to right, the following information about the products can be found.

## PRODUCT INFORMATION (see next page)

### Materials / Recyclability

Indication of the material of which the product is made. Detailed descriptions of the materials used is provided on page 187

### Certifications

The EN code number states that products are tested and approved for contract use in compliance with given European Norms.

### Description

Pictures and presentation of the main features of the product, paying attention to style and design.

### Name

Product name and/or product family name.

### Designer

Designer's signature.

### Code / Typology

Alphanumeric sequence used for classing and identifying univocally each product. Product typology. The number of places at table mentioned here is just an indication: always check compatibility with the seats which you intend to match.

### Drawing of article

Two-dimensional drawing showing the measurements clearly so as to evaluate the space required.

### Measurements

Maximum outline dimensions of the item.

### Weight

Net weight of each single item.

### Colours

List of colours in which the item is available. The full colour range is shown on page 172

### Quick Shipment (symbol • )

This symbol indicates the availability of the "Quick Shipment" service (shipment of steel items within 3 weeks from the order confirmation by EMU, 4-5 weeks for aluminum items and cushions). 3 days variations may be possible according to logistics schedule. The company reserves the right to confirm the dispatch date (please check Art.5 point B of "General Conditions of sale").

## TECHNICAL INFORMATION

| ICON                                                                                | DESCRIPTION                   | NOTE                                                                                                                                                                                                                                |
|-------------------------------------------------------------------------------------|-------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Treatment                     | The letter C next to the icon indicates that the steel has received a protective cataphoresis surface treatment.<br>The letter Z next to the icon indicates that the steel has received a protective galvanizing surface treatment. |
|  | Static load expressed in Kg   | For seating this refers to the static load applied to the single seat, and for tables to the force applied to pre-established points of the table-top.                                                                              |
|  | Resistant to outdoor exposure |                                                                                                                                                                                                                                     |
|  | Seat and back cushion         | Indicates that a seat-back cushion can be combined with the product.                                                                                                                                                                |
|  | Seat cushion                  | Indicates that a seat cushion can be combined with the product.                                                                                                                                                                     |
|  | Back cushion                  | Indicates that a back cushion can be combined with the product.                                                                                                                                                                     |
|  | Glass top                     | Indicates that a glass top can be combined with the product.                                                                                                                                                                        |
|  | Stackable                     | The number at the top gives the maximum number of chairs that can be stacked.                                                                                                                                                       |
|  | Foldable                      |                                                                                                                                                                                                                                     |
|  | Reclining                     |                                                                                                                                                                                                                                     |
|  | Extensible                    |                                                                                                                                                                                                                                     |
|  | Collapsible                   |                                                                                                                                                                                                                                     |
|  | Cover                         | Indicates that a matching protective cover can be combined with the product.                                                                                                                                                        |
|  | IP Code                       | The International Protection code (IP) indicates the degree of protection of electrical and electronic device casings against penetration of solid or liquid external agents.                                                       |

## PACKAGING INFORMATION

The information shown always refers to the packaging unit and gives the number of pieces, the volume and weight of the packaging.

There is a set number of pieces per pack; this number may not be changed, except when differently mentioned.

## PRICE

The prices are unit prices RRP (Retail Recommended Price).

## GENERALITÉS

Le présent catalogue est un instrument informatif de consultation facile qui offre au client une connaissance immédiate et exhaustive des caractéristiques techniques des produits de l'entreprise. Le manuel est divisé en fiches-produit organisées dans le sens vertical. Une lecture allant du haut vers le bas rencontrera successivement les informations suivantes sur les produits.

## INFORMATION SUR LE PRODUIT (voir page suivante)

### Matériaux / Recyclabilité

Indication du/des matériel/matériaux dont est constitué le produit. La description détaillée des matériaux employés est reportée page 187

### Certifications

Le numéro de code EN signifie que les produits sont testés conformément aux normes européennes spécifiées et approuvés pour leur usage en collectif.

### Description

Image et présentation des caractéristiques principales du produit, avec une attention particulière prêtée au style et au design.

### Nom

Nom du créateur du produit.

### Designer

Indication de la (ou des) griffe(s) du (ou des) auteur(s) du projet.

### Code / Typologie

Séquence alphanumérique par laquelle est classifié et identifié de manière individuelle chacun des produits. Typologie de produit. Les places de table indiquées figurent à titre purement indicatif. Veuillez toujours vérifier la compatibilité avec le type de sièges que vous entendez utiliser.

### Dessin

Un dessin bidimensionnel permet de lire immédiatement les dimensions pour une estimation précise de l'espace occupé.

### Dimensions

Ceci concerne les mesures de l'encombrement maximum du produit.

### Poids

Indication du poids net de chaque pièce.

### Couleur

Liste des couleurs disponibles pour le produit. La gamme entière des couleurs est reportée page 172

### Quick Shipment (symbole • )

La présence de ce symbole indique de profiter du service "Quick Shipment" (expédition des produits en acier en 3 semaines à partir de l'envoi de la confirmation de commande par EMU, 4-5 semaines pour les produits en aluminium et les coussins). Des variations de 3 jours seront possibles en fonction de la programmation logistique. La Société se réserve le droit de confirmer la date d'expédition (Article 5 point B des « Conditions Générales de vente »).

## INFORMATION TECHNIQUES

| ICÔNE                                                                               | DESCRIPTION             | NOTE                                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Traitement              | La lettre C à côté de l'icône indique que l'acier a reçu un traitement de surface de cataphorèse protecteur.<br>La lettre Z à côté de l'icône indique que l'acier a reçu un traitement de surface de galvanisation protecteur.               |
|  | Charge statique (en Kg) | Pour les sièges, on se réfère à la charge statique exercée sur ledit siège; pour les tables, à la force exercée à des points précis du plateau. Est prévu par les tests communautaires inhérents aux spécifications mécaniques des produits. |
|  | Résistant à l'extérieur |                                                                                                                                                                                                                                              |
|  | Coussin assise-dossier  | Indique qu'un coussin assise-dossier peut être combiné avec le produit.                                                                                                                                                                      |
|  | Coussin assise          | Indique qu'un coussin assise peut être combiné avec le produit.                                                                                                                                                                              |
|  | Coussin dossier         | Indique qu'un coussin dossier peut être combiné avec le produit.                                                                                                                                                                             |
|  | Plateau en verre        | Indique que le produit peut être assorti avec un plateau en verre.                                                                                                                                                                           |
|  | Empilable               | Le numéro au dessus indique le nombre maximum de sièges empilables.                                                                                                                                                                          |
|  | Pliable                 |                                                                                                                                                                                                                                              |
|  | Inclinable              |                                                                                                                                                                                                                                              |
|  | Extensible              |                                                                                                                                                                                                                                              |
|  | Rabattables             |                                                                                                                                                                                                                                              |
|  | Couverture              | Indique que le produit peut être équipé d'une couverture de protection.                                                                                                                                                                      |
|  | Code IP                 | Le code IP (International Protection) indique l'indice de protection des enveloppes des dispositifs électriques et électroniques contre la pénétration d'agents externes de nature solide ou liquide.                                        |

## INFORMATIONS SUR L'EMBALLAGE

Les informations reportées se réfèrent toujours à l'unité d'emballage et indiquent le nombre de pièces, le volume et le poids de l'emballage. Le nombre de pièces par colis est obligatoire et ne peut donc pas être modifié, sauf indication différente.

## PRIX

Les prix sont indiqués à l'unité RRP (Prix de vente recommandés).

# Hinweise zur Preisliste

## ALLGEMEINES

Die vorliegende Preisliste dient zur Information und ist leicht anzuwenden. Sie finden schnell umfassende Informationen zu den technischen Eigenschaften unserer Produkte. Im Katalog sind die einzelnen Produktinformationen vertikal angeordnet. Die Lektüre erfolgt von oben nach unten, nacheinander finden Sie die folgenden Produktinformationen.

## PRODUKTINFORMATIONEN (siehe nächste Seite)

### Materialien / Recyclingfähigkeit

Angaben zu verwendetem/n Material/en. Die detaillierte Beschreibung der verwendeten Materialien ist auf Seite 187 dargestellt.

### Zertifizierungen

Die EN-Codenummer besagt, dass Produkte gemäß den vorgegebenen europäischen Normen geprüft und für für den Objektbereich zugelassen sind.

### Produktbeschreibung

Angabe der wichtigsten Produkteigenschaften, mit Hinweisen zum Stil und Design.

### Produktname

Angabe des Produktnamen bzw. der Produktlinie.

### Designer

Name des Designers.

### Artikelnummer / Typologie

Alphanumerische Zeichenfolgen, mit der jedes einzelne Produkt klassifiziert und gekennzeichnet wird. Produkttypologie. Die erwähnten Tischplätze sind annähernd, stets die Vereinbarkeit mit den gewünschten Stühlen prüfen.

### Produktzeichnung

Zweidimensionale Zeichnung mit Abmessungen für eine exakte Einschätzung des Platzbedarfs.

### Größe

Angabe der Gesamtgröße des Produkts.

### Gewicht

Angabe des Nettogewicht jedes einzelnen Artikels.

### Farben

Zur Verfügung stehende Farbauswahl. Die gesamte Farbpalette ist auf Seite 172 angezeigt.

### Quick Shipment (Zeichen • )

Dieses Zeichen weist auf die Möglichkeit zur Nutzung des "Quick Shipment" Dienstes hin (Versand von Produkten aus Stahl innerhalb von 3 Wochen ab der Auftragsbestätigung durch EMU: Kissen und Produkten aus Aluminium innerhalb von 4-5 Wochen). Je nach logistischer Planung sind Friständerungen bis zu 3 Tagen möglich. Die Gesellschaft behält sich das Recht vor, das Versanddatum zu bestätigen (s.Artikel 5. Buchstabe B der „Allgemeinen Geschäftsbedingungen“).

## TECHNISCHE INFORMATIONEN

| SYMBOL                                                                              | BESCHREIBUNG                | ANMERKUNGEN                                                                                                                                                                                                                                        |
|-------------------------------------------------------------------------------------|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | Behandlung                  | Der Buchstabe C neben dem Symbol zeigt an, dass der Stahl eine schützende Kataphorese-Oberflächenbehandlung erhalten hat. Der Buchstabe Z neben dem Symbol zeigt an, dass der Stahl eine schützende VerzinkungsOberflächenbehandlung erhalten hat. |
|  | Statische Belastung (in kg) | Bei Sitzmöbeln bezieht sich der Wert auf die statische Belastung der Sitzfläche; bei Tischen bezieht sich der Wert auf die Kraft, die an bestimmten durch europäische Prüfanforderungen festgelegten Punkten wirkt.                                |
|  | Wetterfest                  |                                                                                                                                                                                                                                                    |
|  | Sitz- und Rückenkissen      | Hinweis auf verfügbare Kissen für das Produkt.                                                                                                                                                                                                     |
|  | Sitzkissen                  | Hinweis auf verfügbare Kissen für das Produkt.                                                                                                                                                                                                     |
|  | Rückenkissen                | Hinweis auf verfügbare Kissen für das Produkt.                                                                                                                                                                                                     |
|  | Sicherheitsglasplatte       | Hinweis auf verfügbare Sicherheitsglasplatte für das Produkt.                                                                                                                                                                                      |
|  | Stapelbar                   | Höchstzahl der Stühle, die übereinander gestapelt werden können.                                                                                                                                                                                   |
|  | Klappbar                    |                                                                                                                                                                                                                                                    |

|  | Schutzhülle                 | Schutzhülle für das Produkt verfügbar.                                                                                                                                                                                                             |
|  | Kode IP                     | Der Kode IP (International Protection) gibt die Schutzart der Gehäuse von elektrischen und elektronischen Betriebsmitteln gegen das Eindringen von Feststoffen und Flüssigkeiten an.                                                               |

## VERPACKUNGSHINWEISE

Die angegebenen Informationen beziehen sich stets auf die Verpackungseinheit und geben genau die Stückzahl, die Menge und das Verpackungsgewicht an. Die Verpackungseinheiten sind einzuhalten und können nicht geändert werden, sofern nicht anderweitig angegeben.

## PREIS

Es handelt sich um empfohlene Verkaufspreise pro Stück.

# Cómo leer el catálogo

### GENERALIDADES

Este catálogo es una herramienta de información de fácil consulta, que ofrece al cliente un conocimiento inmediato y exhaustivo de las características técnicas de los productos de la empresa. El manual está organizado para fichas de productos ordenadas en sentido vertical. La lectura del mismo desde arriba hacia abajo y de izquierda a derecha encontrará la sucesión de los siguientes datos del producto.

### INFORMACIÓN SOBRE EL PRODUCTO (ver página siguiente)

#### Materiales / Reciclabilidad

Indica los materiales que componen el producto. La descripción detallada de los materiales empleados se encuentra en la página 187

#### Certificaciones

El número de código EN significa que los productos se han sometidos a pruebas de conformidad con las normas europeas especificadas y que se aprueban para el uso público.

#### Descripción

Imágenes y presentación de las características principales del producto, con atención al estilo y al diseño.

#### Nombre

Nombre del producto y/o de la familia de productos.

#### Diseñador

Firma del diseñador del producto.

#### Código / Tipo

Secuencia alfanumérica con la que se identifica y clasifica individualmente cada producto. Tipo de producto. Los asientos de mesa mencionados deben considerarse indicativos, compruebe siempre la compatibilidad con los asientos que se van a combinar.

#### Dibujo

Dibujo bidimensional que permite leer inmediatamente las medidas para poder valorar exactamente el espacio a ocupar.

#### Medidas

Medidas máximas del producto.

#### Peso

Peso neto de cada pieza.

#### Colores

Lista de los colores en los que se encuentra disponible el producto. La gama completa de colores se encuentra en la pág. 172

#### Quick Shipment (símbolo • )

La presencia del símbolo indica la posibilidad de gozar del servicio “Quick Shipment”, (expedición dentro de 3 semanas de los productos de acero desde el envío de la confirmación del pedido por parte de EMU Y dentro de 4-5 semanas de los productos de aluminio y de los almohadones. Serán posibles variaciones de 3 días dependiendo de la planificación logística. La Empresa se reserva el derecho de confirmar la fecha de expedición (v. la letra B del artículo 5 en las “Condiciones de venta”).

### INFORMACIÓN TÉCNICA

| ICONO | DESCRIPCIÓN              | NOTAS                                                                                                                                                                                                                                                                                      |
|-------|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|       | Tratamiento              | La letra C al lado del icono indica que el acero ha recibido un tratamiento de protección de superficie de cataforesis.<br>La letra Z al lado del icono indica que el acero ha recibido un tratamiento protector de la superficie de galvanizado.                                          |
|       | Carga estática (en kg)   | En el caso de los asientos se refiere a la carga estática ejercida sobre un sólo asiento, mientras que en las mesas se refiere a la fuerza ejercida en puntos preestablecidos del sobre. Está prevista para los tests comunitarios inherentes a los requisitos mecánicos de los productos. |
|       | Resistente al exterior   |                                                                                                                                                                                                                                                                                            |
|       | Cojín asiento + respaldo | Indica que al producto se le puede combinar el cojín asiento + respaldo.                                                                                                                                                                                                                   |
|       | Cojín asiento            | Indica que al producto se le puede combinar el cojín asiento.                                                                                                                                                                                                                              |
|       | Cojín respaldo           | Indica que al producto se le puede combinar el cojín respaldo.                                                                                                                                                                                                                             |
|       | Sobre de cristal         | Indica que al producto se le puede combinar el sobre de cristal.                                                                                                                                                                                                                           |
|       | Apilable                 | El número al lado del icono indica el número máximo de sillas apilables.                                                                                                                                                                                                                   |
|       | Plegable                 |                                                                                                                                                                                                                                                                                            |
|       | Reclinable               |                                                                                                                                                                                                                                                                                            |
|       | Extensible               |                                                                                                                                                                                                                                                                                            |
|       | Abatibles                |                                                                                                                                                                                                                                                                                            |
|       | Funda                    | Indica que se puede conjuntar con el producto la tela de protección.                                                                                                                                                                                                                       |
|       | Código IP                | El código IP (International Protection) indica el grado de protección de los revestimientos de los dispositivos eléctricos y electrónicos contra la penetración de agentes externos de naturaleza sólida o líquida.                                                                        |

### INFORMACIÓN DEL EMBALAJE

La información suministrada se refiere siempre a la unidad de embalaje y se especifica el número de piezas, las medidas, el volumen y el peso del embalaje. El número de piezas por embalaje es taxativo y por lo tanto no se puede modificar, salvo donde esté indicado diversamente.

### PRECIO

Los precios són unitarios RRP (precios públicos aconsejados).

|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A</b> Riciclabilità     | Símbolo y código de reciclaje para el material que conforma la estructura de los productos. Indicación de la sección de productos de <a href="http://www.emu.it">www.emu.it</a> para descargar la hoja de datos de reciclaje de cada artículo.        | <b>H</b> Dibujo                   | Dibujo bidimensional que permite leer inmediatamente las medidas para poder valorar exactamente el espacio a ocupar.                                                                      |
| <b>B</b> Materiales        | Se resalta si la estructura de los artículos está hecha de acero o aluminio o teka o si son accesorios o soluciones de sombreado. Luego se especifican los materiales adicionales de los diversos códigos y cómo leer la sección "Colores" (letra M). | <b>I</b> Medidas                  | Medidas máximas del producto.                                                                                                                                                             |
| <b>C</b> Certificaciones   | Certificado de acuerdo con las normas europeas indicadas. Su símbolo también está marcado en la sección "Código / Tipología" (letra G) de cada artículo.                                                                                              | <b>L</b> Peso                     | Peso neto de cada pieza.                                                                                                                                                                  |
| <b>D</b> Nuevo             | Indica que la colección/producto/color es una novedad.                                                                                                                                                                                                | <b>M</b> Colores / Q.S.           | Lista de los colores en los que se encuentra disponible el producto.<br>La presencia del símbolo • indica la posibilidad de gozar del servicio "Quick Shipment" (ver página el anterior). |
| <b>E</b> Nombre / Designer | Nombre del producto o línea de productos.<br>Nombre del diseñador.                                                                                                                                                                                    | <b>N</b> Información técnica      | Ver tabla en la página anterior.                                                                                                                                                          |
| <b>F</b> FSC®              | Lista de artículos que contienen materiales certificados FSC®. Este símbolo también está marcado en "Color / q.s." sección (ver letra M) de estos artículos.                                                                                          | <b>O</b> Información del embalaje | Además de la información de la página anterior, también mostramos el número de la página donde puede encontrar detalles en caso de solicitudes especiales de paletización y transporte.   |
| <b>G</b> Código / Tipo     | Secuencia alfanumérica con la que se identifica y clasifica individualmente cada producto.<br>Tipo de producto.                                                                                                                                       | <b>P</b> Precio                   | Los precios són unitarios RRP (precios públicos aconsejados).                                                                                                                             |

STRUTTURA: ACCIAIO VERNICIATO // FRAME: PAINTED STEEL  
PIANO TAVOLI: LAMIERA PRE ZINCATA A CALDO VERNICIATA // TABLES TOP: PRE HOT-DIP ZINCED PAINTED STEEL SHEET

COD. 857, 857i2, 858, 858i2  
**TEST: EN581-1 / EN581-3**

**cod. 857, 857i2, 858, 858i2**

Grazie alla loro struttura monoscocca in acciaio i tavoli risultano autolivellanti e riescono quindi a compensare eventuali dislivelli della superficie d'appoggio.  
Thanks to their steel monocoque frame, the tables are self-levelling and therefore compensate for any differences in the height of the support surface.

\* L'eco-cuoio è un materiale che nel tempo può arricchirsi di piccoli segni che ne testimoniano l'uso e caratterizzano il fascino e l'aspetto estetico del prodotto nel suo normale utilizzo.  
Over time, eco-leather will acquire delicate signs of use that increase its beauty and give it greater depth and allure.

**cod. 479, 480**

I tavoli che in estensione superano i 250 cm possono presentare una leggera flessione del piano, dovuta alle piccole tolleranze necessarie per lo scorrimento degli elementi. Tale flessione non è da considerarsi una carenza in termini di prestazioni.  
Tables that measure over 250 cm when extended might have a slightly bent surface, due to the small tolerances required for the sliding elements. This may not be considered a limitation to performance.

**cod. 480**

I top in HPL sono soggetti a lievi deformazioni con il variare delle condizioni climatiche. È quindi possibile che si creino delle differenze di allineamento tra i vari componenti del tavolo, senza nessuna alterazione delle performance in uso.  
HPL tops are subject to slight warping as climate conditions vary. For this reason, differences in alignment may occur between the various components of the table. This has no effect on performance.

## Composizioni consigliate // Recommended combinations

### POLTRONA // LOUNGE CHAIR\*

(versione con doghe in bambù // bamboo slats version)

1 x cod. 763 + 2 x cod. 761 + 1 x cod. 762 + 1 x cod. C/770 + 1 x cod. C/771  
+ 2 x cod. C/772

TESSUTI STANDARD // STANDARD FABRICS

€ 3.746,00

### DIVANO 2 POSTI // 2-SEATER SOFA\*

(versione con doghe in bambù // bamboo slats version)

1 x cod. 764 + 2 x cod. 761 + 2 x cod. 762 + 2 x cod. C/770 + 2 x cod. C/771  
+ 2 x cod. C/772

TESSUTI STANDARD // STANDARD FABRICS

€ 5.514,00

### DIVANO 3 POSTI // 3-SEATER SOFA\*

(versione con doghe in bambù // bamboo slats version)

1 x cod. 765 + 2 x cod. 761 + 3 x cod. 762 + 3 x cod. C/770 + 3 x cod. C/771  
+ 2 x cod. C/772

TESSUTI STANDARD // STANDARD FABRICS

€ 7.282,00

### DIVANO ANGOLARE 4 POSTI // 4-SEATER CORNER SOFA\*

(versione con doghe in bambù // bamboo slats version)

1 x cod. 763 + 1 x cod. 764 + 1 x cod. 769 + 2 x cod. 761 + 4 x cod. 762 + 4 x cod. C/770  
+ 4 x cod. C/771 + 2 x cod. C/772

TESSUTI STANDARD // STANDARD FABRICS

€ 11.803,00

\* L'eco-cuoio è un materiale che nel tempo può arricchirsi di piccoli segni che ne testimoniano l'uso e caratterizzano il fascino e l'aspetto estetico del prodotto nel suo normale utilizzo.  
Over time, eco-leather will acquire delicate signs of use that increase its beauty and give it greater depth and allure.

\* L'eco-cuoio è un materiale che nel tempo può arricchirsi di piccoli segni che ne testimoniano l'uso e caratterizzano il fascino e l'aspetto estetico del prodotto nel suo normale utilizzo.  
 Over time, eco-leather will acquire delicate signs of use that increase its beauty and give it greater depth and allure.

## Composizioni consigliate // Recommended combinations

# Terramare

design: Chiaramonte / Marin

### POLTRONA // LOUNGE CHAIR

1 x cod. 729 + 1 x cod. C/729

|                                                 |            |
|-------------------------------------------------|------------|
| TESSUTI BASIC // BASIC FABRICS                  | € 1.919,00 |
| TESSUTI STANDARD // STANDARD FABRICS            | € 2.115,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. E | € 2.521,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. D | € 2.829,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. C | € 3.028,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. B | € 3.340,00 |

### DIVANO 2 POSTI // 2-SEATER SOFA

1 x cod. 730 + 2 x cod. C/729

|                                                 |            |
|-------------------------------------------------|------------|
| TESSUTI BASIC // BASIC FABRICS                  | € 2.926,00 |
| TESSUTI STANDARD // STANDARD FABRICS            | € 3.318,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. E | € 4.139,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. D | € 4.746,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. C | € 5.144,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. B | € 5.768,00 |

### DIVANO 3 POSTI // 3-SEATER SOFA

1 x cod. 731 + 3 x cod. C/729

|                                                 |            |
|-------------------------------------------------|------------|
| TESSUTI BASIC // BASIC FABRICS                  | € 4.092,00 |
| TESSUTI STANDARD // STANDARD FABRICS            | € 4.680,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. E | € 5.917,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. D | € 6.822,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. C | € 7.419,00 |
| TESSUTI EXCLUSIVE // EXCLUSIVE FABRICS - CAT. B | € 8.355,00 |

# Materiali e manutenzione

I prodotti EMU, realizzati con materiali dai più alti standard qualitativi e con processi produttivi rispettosi dell'ambiente, sono concepiti per durare a lungo nel tempo e sono ideali per l'utilizzo in verande e terrazzi coperti e semi-coperti. **Per visionare le schede di manutenzione dei materiali, consultare il sito [www.emu.it](http://www.emu.it)**

## ABS

L'ABS è un tecnopolimero termoplastico che, una volta stabilizzato, resiste bene alle radiazioni UV e quindi è impiegabile all'esterno. Presenta buone caratteristiche meccaniche anche a basse temperature e possiede un'elevata durezza, resistenza all'urto e alla scalfittura. Tali caratteristiche lo rendono ideale per impieghi in vari settori, fra cui quello dell'arredamento.

**Manutenzione:** pulire il prodotto con un panno morbido e umido. Utilizzare detergenti neutri, meglio se diluiti in acqua. Non utilizzare detersivi contenenti, anche in piccole quantità, alcool, trielina, ammoniaca e solventi in generale.

## ACCIAIO

Lega di ferro e carbonio con percentuale di carbonio inferiore al 2% trattata per resistere agli agenti atmosferici con l'esclusivo processo anticorrosione EMU-Coat.

**Manutenzione:** per mantenere a lungo il prodotto in buone condizioni, consigliamo di conservarlo durante l'inverno in luoghi chiusi e asciutti in modo da evitare le formazioni di condensa. Prima della stagione invernale e con cadenza trimestrale, se i prodotti sono conservati in prossimità del mare, si raccomanda di pulire le superfici di metallo con un panno morbido utilizzando acqua o detergenti e proteggerle con olio di vaselina o cera per auto. Pulire periodicamente la finitura con una spugna o una spazzola a setole morbide usando una soluzione detergente con sapone liquido biodegradabile neutro/delicato (20 ml) in un litro di acqua tiepida (38° C). Risciacquare abbondantemente. Evitare di utilizzare detergenti e spazzole abrasive. Per le finiture verniciate, si consiglia la ceratura periodica del telaio con cera liquida per automobili di alta qualità o un commerciale protettore disponibile per aiutare a mantenere e/o ripristinare la lucentezza della finitura. I protettivi possono essere acquistati presso ferramenta o negozi simili.

Attenzione al mare: durante l'uso in mare, il sale può accumularsi nelle "fessure" del prodotto, portando al rapido deterioramento della verniciatura.

Nelle aree con piscina, il cloro può accumularsi sulla finitura, causando un rapido deterioramento della stessa. In entrambi gli ambienti, cicli ripetuti di condensazione seguiti da evaporazione possono causare l'accumulo di questi prodotti corrosivi e aggressivi specialmente nelle fessure del prodotto. La pulizia regolare con sapone delicato liquido biodegradabile e acqua rimuoveranno i depositi concentrati e aiutano a proteggere la finitura del mobile secondo le istruzioni sopra.

Intervallo di manutenzione:

- ambienti aggressivi (zone marine, aree industriali, piscine): ogni 3 mesi;
- ambienti mediamente aggressivi (aree urbane): ogni 6 mesi;
- ambienti con bassa aggressione (aree naturali): ogni 12 mesi.

Nel caso di tavoli, si consiglia di non riporre i tavoli ponendo i piani a contatto diretto tra di loro e riporre i prodotti in luoghi asciutti e areati per evitare la formazione di condensa.

## ALLUMINIO

Leghe di alluminio, particolarmente idonee per la lavorazione a freddo e per la pressofusione, trattate opportunamente per resistere agli agenti atmosferici e verniciate a polvere.

**Manutenzione:** per mantenere a lungo il prodotto in buone condizioni, consigliamo una corretta pulizia periodica, particolarmente frequente in località caratterizzate da forte umidità e clima marino. Si raccomanda di pulire le superfici con un panno morbido utilizzando acqua o detergenti neutri. Prolungate ed ininterrotte esposizioni a intense radiazioni UV o a temperature molto rigide possono incidere sulle

caratteristiche iniziali del rivestimento estetico colorato costituito da poliestere. Consigliamo di pulire e conservare in luoghi riparati i prodotti durante periodi d'inutilizzo prolungato e invernali.

## CINGHIA ELASTICA

Ottenuta mediante la tessitura di materiali sintetici quali fibre di propilene (71%) e fili di gomma sintetica (29%), permette di essere usata all'esterno.

**Manutenzione:** evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. Non usare solventi o detergenti a base di solventi (evitare l'acetone). Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione.

## BAMBU

Il bambù è un materiale dalla rapida crescita che viene raccolto senza causare deforestazione. Dopo la raccolta lo strato più esterno viene rimosso e le lamelle di bambù vengono modificate con uno speciale processo di termo-trattamento a 200°, che aumenta la stabilità del materiale, assicura la protezione del materiale contro i funghi e garantisce la più alta classe di durabilità possibile. Dopo il processo di compressione al calore le fibre di bambù sono più forti e più dure di qualsiasi specie di legno esistente. Con questo particolare processo si ottiene una tavola massiccia ad alta densità resistente agli agenti atmosferici.

**Manutenzione:** trattandosi di un materiale naturale non trattato risulta essere macchiabile ed esposto all'esterno è ossidabile e quindi tendente al colore grigio. Per ridurre i 2 effetti menzionati si consiglia l'applicazione di olio almeno una volta all'anno. Proprio in funzione del fatto che si tratta di un prodotto naturale la rimozione delle macchie una volta penetrate non è fattibile; il trattamento della superficie prima dell'utilizzo dei materiali aumenterebbe un minimo la possibilità di intervento per la rimozione prima dell'assorbimento. Mentre per quanto riguarda la pulizia ordinaria e l'igienizzazione superficiale è sufficiente utilizzare acque e detergenti neutri.

## CORDA SINTETICA

Doppia treccia costruita con anima in poliestere o Nylon e copertura in propilene multifilamento. La fibra esterna di cui è composta è impermeabile e resistente ai raggi UV.

**Manutenzione:** si raccomanda di pulire con prodotto neutro e panno non abrasivo. Nel caso sul prodotto selezionato la corda sia caratterizzata in un intreccio, pulire l'intreccio con sapone neutro e idropulitrice.

## CRISTALLO TEMPERATO

Cristallo temperato in conformità con le normative internazionali BS 6206 e prodotto nel rispetto della normativa BS 7376.

**Manutenzione:** i piani in vetro si puliscono con facilità e non necessitano di particolari interventi di manutenzione. Consigliamo l'utilizzo di un panno inumidito con acqua e detergente neutro, in seguito risciacquare ed asciugare con panno asciutto. Fare attenzione a non produrre abrasioni nelle superfici verniciate del piano ove presenti. Se l'acqua utilizzata ha una quantità eccessiva di calcare o altri sali minerali che lasciano aloni o striature resistenti alla fase di asciugatura, possono essere utilizzati prodotti commerciali specifici per la pulizia del vetro al posto del detergente neutro fatta eccezione per le superfici verniciate.

## ECO-CUOIO

L'eco-cuoio è realizzato con microfibra di Nylon compattata in bagno di poliuretano. Successivamente viene spalmata con poliuretano in tinta.

**Manutenzione:** per una corretta pulizia si raccomanda di utilizzare un panno morbido imbevuto d'acqua. All'occorrenza, depositare prodotti neutri su di un

panno morbido e procedere alla pulizia; ad operazione terminata rimuovere gli eventuali residui sempre con panno morbido imbevuto di acqua. Si raccomanda inoltre di non depositare prodotti detergenti direttamente sul rivestimento e di non asciugare con fonti di calore artificiale (phon, stufe etc.). L'eco-cuoio è un materiale che nel tempo può arricchirsi di piccoli segni che ne testimoniano l'uso e caratterizzano il fascino e l'aspetto estetico del prodotto nel suo normale utilizzo.

## EMU MAGLIA SINTETICA

Materiale composito costituito da PVC (45%), PP (40%) e PES (5%), e costruito tramite una maglia doppia in "Jacquard" a due fili, GG05, con caratteristiche adatte per uso esterno ed interno. L'unione dei due filati crea una "maglia sintetica" morbida al tatto, con alte qualità tecniche contro i microrganismi.

**Manutenzione:** lavare il prodotto a mano ad temperatura compresa fra i 30 e 40°C con detergente neutro. Dopo il lavaggio si raccomanda di far asciugare il tessuto all'aria aperta, non in asciugatrice.

## EMU-TEX

È un tessuto tecnico per esterni realizzato con filo in polivinilcloruro. Ha caratteristiche di eccezionale robustezza a garanzia di una durata nel tempo: massima resistenza ai raggi ultravioletti, agli agenti atmosferici, all'umidità e agli sbalzi di temperatura.

**Manutenzione:** evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. Lavaggi frequenti: utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolori. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Lavaggi periodici e/o straordinari: utilizzare uno smacchiatore rigenerante per PVC, secondo la procedura seguente.

Operazioni da eseguire:

- applicare lo smacchiatore al telo sporco;
- far agire il prodotto per 15-30 minuti;
- strofinare le zone macchiate con comune spazzola da bucato a setole dure (fase è necessaria poiché lo sporco è all'interno della tessitura);
- risciacquare con acqua corrente (se possibile risciacquare con pulitrice a pressione mantenendo una distanza di circa 60 cm per non danneggiare il telo con l'alta pressione);
- se necessario ripetere le operazioni.

Note: durante l'applicazione del prodotto fate attenzione a non applicarlo nella parti verniciate del prodotto.

## GRES PORCELLANATO

Il gres porcellanato, grazie alle sue eccellenti proprietà fisiche e meccaniche, è ideale per uso esterno, essendo inattaccabile dagli agenti atmosferici e inalterabile ai raggi UV. Le sue qualità gli permettono di essere idrorepellente ed oleorepellente. Il gres porcellanato è ottenuto tramite il processo di sintetizzazione di argille ceramiche, feldspati, caolini e sabbia. Queste materie prime vengono macinate ed atomizzate fino ad ottenere una granulometria omogenea adatta alla pressatura. La cottura avviene a 1150-1250 °C per circa 25-30 minuti allo scopo di determinare la ceramizzazione dell'impasto attribuendone così le tipiche caratteristiche di resistenza alle abrasioni.

**Manutenzione:** i piani in gres si puliscono con facilità e non necessitano di particolari interventi di manutenzione. Consigliamo per pulire il prodotto l'utilizzo di un panno inumidito con acqua e detergente neutro, in seguito risciacquare ed asciugare con un panno asciutto. Fare particolare attenzione alla fase di risciacquo per evitare l'accumularsi di calcare e sporco.

## HPL

Materiale autoportante adatto all'esposizione all'ambiente esterno. È costituito da strati di carta Kraft impregnati con resine fenoliche e da uno strato superficiale decorativo impregnato con resine

termoindurenti. Questi strati sono pressati a 9 Mp e ad una temperatura di 150 gradi centigradi.

**Manutenzione:** il laminato HPL è facile da pulire e non necessita di alcuna particolare manutenzione. La maggior parte delle macchie è lavabile con sola acqua e asciugabile con panni morbidi e puliti. Per macchie persistenti, usare una spugna ed un detergente specifico per laminati, oppure detergenti per vetri. Rimuovere quindi le tracce di questi prodotti con un panno asciutto per evitare striature od opacizzazioni. Si consiglia sempre di provare qualsiasi prodotto in un angolo poco visibile. Evitare di usare pagliette in acciaio, i prodotti contenenti creme abrasive, i detersivi in polvere e l'acetone.

## INOX

Acciaio INOX aisi 316 lucido.

**Manutenzione:** Attenzione!

a) NON USARE i seguenti prodotti su parti in acciaio inox:

- candeggina o detersivi contenenti candeggina (possono corrodere l'acciaio inox);

- acido cloridrico o prodotti contenenti cloruro (possono corrodere l'acciaio inox).

b) sale, calcare o acido (da caffè, vino, succo d'arancia, succo di pomodoro, limone, etc.) possono scolorare le parti in acciaio inox non prontamente pulite.

c) prodotti o parti in acciaio inox usati in riva al mare o nell'arredo interno di piscine richiedono più frequenti pulizie per rimuovere i depositi di cloruro e prevenire la corrosione e l'attacco chimico della superficie esterna.

d) macchie o ruggine che si presentano sulla superficie di acciaio inox devono essere prontamente pulite.

e) macchie lasciate a lungo possono divenire permanenti.

f) la ruggine può attaccare chimicamente o scavare l'acciaio inox.

Rimozione di macchie o ruggine:

- applicare un detersivo/polish non abrasivo specifico per l'acciaio inox;

- test su una poco appariscente macchia per assicurarsi che l'originale finitura superficiale non sia alterata;

- ricordarsi di strofinare in senso lineare (non in maniera circolare);

- non usare tamponi abrasivi;

- sciacquare abbondantemente con acqua pulita;

- alla fine asciugare bene per prevenire striature, strofinare nel senso delle fibre.

## MICROFIBRA

Multifilamento 100% PES particolarmente resistente all'uso quotidiano, in aspetto nubuk, per una componentistica di alta qualità e durata, caratterizzata dalla tessitura di fibre di poliestere aventi titolo uguale o minore di 1 dtex.

**Manutenzione:** lavare il prodotto a mano ad temperatura compresa fra i 30 e 40°C con detergente neutro. Dopo il lavaggio si raccomanda di far asciugare il tessuto all'aria aperta, non in asciugatrice.

## TEAK

Tradizionale legno impiegato nell'arredo da esterni dal fascino esotico intramontabile, il teak è un legno duro ad alto contenuto di olio adatto all'uso esterno senza necessità di trattamento di verniciatura. Se non riceve alcun trattamento protettivo, la superficie prenderà una patina grigio argento, naturale protezione della parte interna del legno, considerata un elemento essenziale del fascino del teak. Il teak utilizzato per i prodotti EMU è certificato FSC®.

**Manutenzione:** trattandosi di un materiale naturale, si potrebbero osservare variazioni di colore tra un prodotto e l'altro o tra i componenti di uno stesso prodotto. In caso in bruschi cambiamenti di temperatura e di umidità, inoltre, potrebbero verificarsi anche delle crepe. Se non riceve alcun trattamento di manutenzione tramite l'applicazione periodica di comuni e specifici protettivi a base olio, la superficie prenderà una patina grigio argento che può essere eliminata anche con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Piccole macchie superficiali dovute a olio, caffè, spremute, bevande e altri prodotti alimentari

devono essere rimosse tempestivamente con acqua e un panno morbido, prima che il legno possa assorbirle in profondità. In caso di macchie residue, si raccomanda di procedere con il carteggiare la superficie interessata e lucidare con un panno di iuta. Quando il legno si bagna per la prima volta è normale che la superficie diventi un poco ruvida quando si asciuga e la levigatura iniziale può essere ripristinata con una leggera carteggiatura superficiale e successiva lucidatura con panno di iuta. Il teak è un materiale naturale che assorbe l'acqua ed è ricco di olii. Con il passare del tempo, questi olii, per un processo naturale, risalgono in superficie e possono macchiare eventuali cuscini che sono stati utilizzati. Le macchie sui cuscini possono essere rimosse utilizzando acqua e sapone.

## TERRACOTTA

Trattasi di una ceramica a pasta porosa con rivestimento bianco o colorato che dopo il processo di cottura assume caratteristiche di stabilità, di resistenza all'invecchiamento e di leggerezza.

**Manutenzione:** la terracotta si pulisce con facilità e non necessita di particolari interventi di manutenzione. Consigliamo per pulire il prodotto l'utilizzo di un panno inumidito con acqua e detergente neutro, in seguito risciacquare ed asciugare con un panno asciutto. Fare particolare attenzione alla fase di risciacquo per evitare l'accumularsi di calcare e sporco.

## TESSUTI SINTETICI

**Tessuto acrilico:** per tessuto acrilico si intende una fibra il cui elemento di base è una catena di polimeri composta all'85% da acrilonitrile. La fibra acrilica unisce alle qualità estetiche di un tessuto lussuoso, dalla corposità e dal touch assimilabili a quelli della lana, le qualità funzionali di resistenza agli agenti atmosferici: resiste ai raggi UV, non si macchia e non imputrisce all'acqua grazie alla velocità di asciugatura.

**Tessuto olefina:** è una fibra che deriva da materiali sintetici detti poliolefine. L'olefina ha una trama morbida e leggera ma allo stesso tempo risulta resiliente, durevole e adatto ad un'ampia varietà di utilizzi, principalmente outdoor. I tessuti sono tinti in massa quindi la colorazione risulta molto resistente al lavaggio. I trattamenti di idrorepellenza garantiscono inoltre un basso assorbimento dei liquidi.

**Tessuto poliestere:** è una fibra formata da macromolecole lineari costituite prevalentemente da polietilentereftalato. Ha elevate caratteristiche meccaniche: resiste alla rottura, alla luce, all'abrasione, non si deforma in modo permanente, ha un ottimo recupero elastico ed è idrorepellente.

**Tessuto polipropilene:** si tratta di fibre generalmente molto fini con un'elevata tensione superficiale grazie alla quale l'acqua riesce a passare attraverso e defluire rapidamente. Resistenza e durezza figurano fra i principali vantaggi offerti da questo materiale che garantisce anche un buon isolamento termico.

**Tessuto 88% acrilico, 12% poliestere:** tessuto misto delle due fibre citate.

**Tessuti Exclusive:** per informazioni circa la composizione dei tessuti compresi in tale fascia e la specifica manutenzione si prega di far riferimento al sito web [www.emu.it](http://www.emu.it) o di rivolgersi a [info@emu.it](mailto:info@emu.it) oppure all'ufficio commerciale di competenza.

**Manutenzione:** tutti i tessuti possono mostrare delle tonalità leggermente differenti in quanto provengono da lotti di produzione diversi o hanno diversa esposizione alla luce. Questo aspetto non va considerato un difetto ma una caratteristica del prodotto. EMU utilizza le tecnologie più avanzate nel settore tessile per creare arredi per l'esterno. I nostri materiali sono resistenti agli spruzzi d'acqua, ai raggi UV, alla salsedine, al sudore, senza perdere le loro caratteristiche strutturali e di confort. È opportuno, dopo la pioggia, far asciugare gli arredi con tessuti in modo da prevenire la formazione di macchie di umidità e muffe. Per migliorare la longevità dei prodotti, EMU consiglia di riporli, in caso di periodi prolungati di inutilizzo (es. autunno/inverno) o di piogge incessanti, in un luogo chiuso, aerato e asciutto coprendoli con dei teli per mantenerli al

meglio e proteggerli da polvere e sporcizia. Prima di riporli, assicurarsi che siano perfettamente asciutti. Le cover/fodere di copertura sono consigliate per l'utilizzo all'esterno ma per periodi non prolungati. Le cover non sono da considerarsi alternativa al rimessaggio invernale dei prodotti. In caso di pioggia verificare sempre che non si crei umidità tra la fodera ed i prodotti al fine di prevenire eventuali muffe in quanto, essendo i tessuti manufatti tessili, la presenza di umidità residua è possibile e può causare muffe. Tutti i materiali rispondono ai più rigorosi standard di qualità per l'uso outdoor ed i tessuti sono a rapida asciugatura e di facile manutenzione.

Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detergenti liquidi non abrasivi con PH neutro e incolore. Eventualmente lasciare agire il detergente alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.

## WPC

Il WPC è un materiale composito costituito da fibre di legno e HDPE. I semilavorati sono ottenuti tramite estrusione del composito. È un materiale resistente ai raggi UV, agli agenti atmosferici e all'umidità. Il WPC non si scolorisce e non viene danneggiato da batteri o insetti. Si tratta di un materiale dalla facile manutenzione. Non deve essere protetto da verniciature.

**Manutenzione:** per un mantenimento ottimale in ambiente esterno si consiglia di pulire periodicamente il prodotto:

- per polvere e detriti: usare un'aspirapolvere per rimuovere sporco e detriti;

- per macchie di sporco: pulire con una spazzola per bucato usando sapone neutro e acqua calda;

- per macchie di olio: tamponare tempestivamente con carta assorbente e pulire la zona con acqua calda e sapone neutro.

Si raccomanda di non usare idropultrici che potrebbero danneggiare il prodotto. Si raccomanda di non usare la candeggina o detergenti a base di cloro. Non usare detergenti fortemente acidi o fortemente alcalini. Utilizzare detergenti neutri, meglio se diluiti in acqua.

## EVITARE USI IMPROPRI

Di seguito alcuni esempi a solo titolo esemplificativo:

- non usare le sedute come sgabello, scala, cavalletto, attrezzo ginnico o simile;

- non dondolarsi sulle gambe. Non sedersi nello schienale. Non sedersi nei braccioli. Non caricare le sedute con un peso superiore a 120 kg;

- sorvegliare i bambini quando usano le sedute. Interrompere l'uso delle sedute quando si constatano danni, per evitare lesioni e contusioni dell'utilizzatore. Le sedute non devono essere trasformate o modificate. Questo può pregiudicarne la funzionalità e fa decadere i diritti di garanzia;

- non usare i tavoli come scala, cavalletto. Non salire sopra ai tavoli. Non caricare i tavoli con un peso superiore a 40 Kg;

- non coprire i prodotti con teli non traspiranti (es: teli e tovaglie in PVC, nylon, etc) La mancanza di traspirabilità provoca un danno irreparabile alla finitura del prodotto.

## AVVERTENZE

L'utilizzo di oggetti in vetro, ceramica, metalli o materiali duri a diretto contatto della verniciatura possono danneggiarla/graffiarla irreparabilmente. Si consiglia di proteggere nell'uso quotidiano i piani con un panno in cotone o altro materiale. Alla fine del suo utilizzo non disperdere il mobile nell'ambiente, ma chiamare le aziende preposte allo smaltimento di rifiuti solidi e urbani

per il suo trasporto in discarica o recupero.

Per mantenere a lungo il prodotto in buone condizioni, consigliamo di conservarlo durante l'inverno in luoghi chiusi e asciutti in modo da evitare le formazioni di condensa. Nella fase di rimessaggio e di impilamento, non superare il numero di unità impilabili indicati dai materiali ufficiali EMU. Altezze eccessive possono essere un rischio per la sicurezza e possono aumentare il potenziale di sfregamento e conseguente usura delle finiture del telaio. Per chiarimenti riguardo al numero massimo di unità impilabili, visitare il sito [www.emu.it](http://www.emu.it)

Per evitare il ristagno dell'acqua in caso di pioggia, su tutte le tipologie di tavoli con piano in superficie piena si consiglia di rimuovere tempestivamente l'accumulo asciugandolo o inclinando il tavolo per favorire il deflusso.

#### **Sedute**

In caso si presentino sulle sedute eventuali fuoripiani dati da utilizzo su superfici irregolari, per ripristinare il piano/la planarità è sufficiente battere la gamba più lunga.

#### **Piani tavoli lamiera - ferro**

I top sono realizzati con un leggero scostamento di planarità verso il basso per evitare che durante l'utilizzo si crei un "effetto molla". Tale caratteristica è da ritenersi un valore aggiunto del prodotto. La superficie del top risulta essere concava.

#### **Piani tavoli in legno e HPL**

I top che utilizzano questi materiali sono soggetti a deformarsi con il variare delle condizioni climatiche, è quindi possibile che si creino delle differenze di allineamento tra i vari componenti che formano il prodotto.

#### **PARTICOLARI/PEZZI DI RICAMBIO**

Nel caso di sottopiedi o altri componenti in plastica che siano soggetti ad usura che si intenda sostituire, si prega di far riferimento al rivenditore EMU di fiducia.

## Normativa di riferimento

I nostri mobili per esterno sono progettati e testati con riferimento ai requisiti meccanici e generali di sicurezza e ai metodi di prova previsti dalle normative europee vigenti per il settore.

Il livello di prestazione adottato è il "Contract" cioè il più alto previsto dalle attuali normative che abilita i nostri mobili ad un uso non solo privato ma anche a quello propriamente professionale in posti con pubblico accesso come bar, ristoranti, hotel e piscine.

L'omologazione ai test effettuata sui nostri prodotti avviene presso l'istituto CATAS.

#### **NORME UNI EN 581-2**

#### **REQUISITI MECCANICI DI SICUREZZA E METODI DI PROVA PER SEDUTE**

##### **Carico statico seduta-schienale**

Seduta: viene applicata una forza di 2000 N sulla seduta per nr 10 cicli mantenuta per 10 sec e per nr 1 ciclo mantenuta per 30 minuti.

Schienale: viene applicata una forza di 560 N sullo schienale per nr 10 cicli mantenuta per 10 sec e per nr 1 ciclo mantenuta per 30 minuti.

##### **Resistenza a fatica seduta-schienale**

Viene applicata una forza sul seduta di 1000 N ed alternativamente una forza di ribaltamento sullo schienale di max 100 N per un totale di 50000 cicli.

##### **Carico statico sul bordo frontale della seduta**

Viene applicata una forza di 130 N sul bordo frontale per nr 10 cicli mantenuta per 10 sec e per nr 1 ciclo mantenuta per 30 minuti.

##### **Resistenza all'urto della seduta**

Uno speciale seat impactor viene fatto cadere per 10 volte da una altezza di 180 mm.

##### **Carico statico verticale sui braccioli**

Viene applicata sul bracciolo una forza verticale di 900 N.

##### **Resistenza a fatica dei braccioli**

Viene applicata sui braccioli una forza di 400 N per un totale di 30000 cicli.

##### **Carico statico sulle gambe anteriori**

Applicando una massa di bilanciamento di 100 KG viene applicata una forza orizzontale anteriore di 400 N.

##### **Carico statico sulle gambe laterali**

Applicando una massa di bilanciamento di 100 KG viene applicata una forza orizzontale anteriore di 300 N.

##### **Resistenza alla fatica alternata per sedie pieghevoli e/o reclinabili**

Viene applicata sulla seduta una massa di 100 KG, sulle due estremità superiori dello schienale una forza alternata di 250 N ed alternativamente un momento di ribaltamento al centro dello schienale di 100 Nm per un totale di 20000 cicli.

#### **NORME UNI EN 581-3**

#### **REQUISITI MECCANICI DI SICUREZZA E METODI DI PROVA PER TAVOLI**

##### **Stabilità**

Vengono applicate delle forze in punti prestabiliti e con valori dipendenti delle dimensioni del piano e dal livello di requisiti meccanici previsto.

##### **Carico statico verticale sul tavolo e sulle prolunghe**

Sono applicate delle forze in punti prestabiliti del piano e delle prolunghe, ove esistenti, rispettivamente di 1000 N e 350 N per nr 10 cicli mantenute per 10 sec e per nr 1 ciclo mantenute per 30 minuti.

##### **Fatica orizzontale**

Sono applicate nr 4 forze alternate di 150 N per 20000 cicli in punti sul bordo del piano prestabiliti in funzione della tipologia geometrica.

I nostri tavoli che permettono l'inserimento di un ombrellone non sono in grado di sostenerlo per cui questo deve essere usato con una propria base separata.

# Materials and maintenance

The products of the EMU range, made with materials featuring the highest quality standards and using environmentally friendly production processes, are designed to be long-lasting. **To view the maintenance data sheets, please refer to the website [www.emu.it](http://www.emu.it)**

## ABS

ABS is a thermoplastic techno-polymer that, once stabilised, resists well even against UV radiation and can therefore be used outside. It has strong mechanical features even at low temperatures and has high strength, impact and scratch resistance. These features make it ideal for use in a range of sectors, including furnishing.

**Maintenance:** clean the product with a soft, damp cloth. Use neutral detergents, if possible diluted in water. Do not use detergents containing alcohol, trichloroethylene, ammonia or other solvents, even in small quantities.

## ALUMINIUM

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

**Maintenance:** to keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

## BAMBOO

Bamboo is a rapidly growing material which is collected without causing deforestation. After harvesting, the outermost layer is removed and the bamboo strips are modified using a special thermo-treatment process at 200°, which increases the stability of the material, ensures protection of the materials against fungi and guarantees the highest durability class possible. After the heat compression process the bamboo fibres become stronger and harder than any existing type of wood. With this specific process you can have a high density hardwood table which is resistant to all weather conditions.

**Maintenance:** this is a natural untreated material, therefore it is subject to staining; if it is placed outdoors it is subject to oxidizing and therefore tends to become grey. In order to reduce the two effects mentioned above, it is advisable to apply some oil at least once a year. Because it is a natural product, removing stains once they have penetrated is not possible; a surface treatment before using the materials would minimally increase the possibility of a removal action before absorption. For the routine cleaning and hygienizing work on surfaces, it is sufficient to use water and neutral detergents.

## ECO-LEATHER

The eco-leather is made of compacted Nylon micro-fibre in polyurethane bath. It is then coated with polyurethane of the same colour.

**Maintenance:** for proper cleaning it is recommended to use a soft cloth soaked in water. If necessary, deposit neutral products on a soft cloth and proceed with cleaning; once the cleaning is completed, always remove any residues with a soft cloth soaked in water. We recommend avoiding depositing cleaning products directly on the coating and drying with artificial heat sources (hair dryers, stoves, etc.). Eco-leather is a material that, over time, can be enriched with small signs that testify to its use and characterise its charm and aesthetic appearance in its normal use.

## ELASTIC BELT

Obtained by weaving synthetic materials such as propylene fibres (71%) and synthetic rubber thread (29%), enabling it to be used outside.

**Maintenance:** avoid prolonged contact with greasy substances and/or dyes, which may be absorbed by the coating material causing permanent staining and deterioration of the yarn structure. Do not use solvents or solvent-based detergents (avoid using acetone). Use water and non-abrasive colourless liquid detergents with neutral PH. Leave the detergent to react on for a few minutes, if required. Rinse thoroughly with water at a temperature not exceeding 30°C. If pressurised devices are used, keep the diffuser tip at least 60 / 70 cm away from the surface of the item. Repeat the operation if necessary.

## EMU SYNTHETIC MESH

Composite material consisting of PVC (45%), PP (40%) and PES (5%), and constructed using a "Jacquard" double yarn in GG05 two-yarn, fit for out- and indoor use. The two united yarns create a "synthetic mesh" which is soft to the touch, with high technical qualities against microorganisms.

**Maintenance:** hand wash the product at a temperature between 30 and 40 ° C with neutral detergent. After washing it is recommended to dry the fabric in the open air, not in the dryer.

## EMU-TEX

It is a technical fabric for outdoor use made with polyvinyl chloride thread. It features exceptional strength to ensure durability: maximum resistance to UV rays, the elements, humidity and sudden changes in temperature.

**Maintenance:** avoid prolonged contact with greasy substances and/or dyes, which may be absorbed by the coating material, causing permanent staining and deterioration of the yarn structure. Frequent washing: use water and non-abrasive, colourless liquid detergents with neutral PH. Leave the detergent to react for a few minutes, if required Rinse thoroughly with water at a temperature not exceeding 30°C. If pressurised devices are used, keep the diffuser tip at least 60/70 cm away from the surface of the item. Repeat the operation if necessary. Periodic and/or extraordinary washing: use a regenerating stain remover for PVC, following the procedure below. Operations to be performed:

- apply the stain remover to the dirty fabric;
- allow the product to act for 15-30 minutes;
- rub the stained area using a common hard-bristle laundry brush (phase is necessary since the dirt is inside the weaving);
- rinse with running water (if possible rinse using a high-pressure cleaner, remaining at a distance of approx. 60 cm so as not to damage the fabric with the high pressure);
- repeat the operations if necessary.

Note: when applying the product, pay attention not to apply it to the painted parts of the product.

## HPL

Self-supporting material suitable for outdoor exposure. It consists of layers of kraft paper impregnated with phenolic resins and of a decorative surface layer impregnated with thermosetting resins. These layers are pressed at 9 Mp and at a temperature of 150 degrees centigrade.

**Maintenance:** HPL laminate is easy to clean and does not require special maintenance. Most stains can be washed with just clean water and dried with soft and clean cloths. For stubborn stains, use a sponge and a specific detergent for laminates or detergents for glass surfaces. Remove all traces of detergents using a dry cloth to prevent streaks or dulling. We recommend trying all products in hidden corner. Avoid using steel wool pads, products containing abrasive creams, powder detergents and acetone.

## MICROFIBER

100% PES multifilament particularly resistant to daily use, in nubuck aspect, for high quality and long-lasting components, characterized by the weaving of polyester fibers having a titre equal to or less than 1 dtex.

**Maintenance:** hand wash the product at a temperature

between 30 and 40 ° C with neutral detergent. After washing it is recommended to dry the fabric in the open air, not in the dryer

## PORCELAIN STONEWARE

Thanks to its excellent physical and mechanical properties, porcelain stoneware is ideal for outdoor use, since it is resistant to atmospheric corrosion and unaffected by UV exposure. Its qualities allow it to be water and oil repellent. Porcelain stoneware is obtained via the synthesizing process of ceramic clay, feldspar, kaolin and sand. These raw materials undergo grinding and atomization until a homogeneous particle size, suitable for pressing, is obtained. Firing takes place at 1150-1250°C for approx. 25-30 minutes in order to determine the ceramization of the mixture, ensuring the typical resistance to abrasion.

**Maintenance:** the stoneware surfaces can be cleaned easily and do not require particular maintenance interventions. To clean the product we recommend use of a cloth dampened with water and mild detergent. Successively, rinse and dry with a dry cloth. Pay particular attention to the rinsing phase to prevent the accumulation of lime scale and dirt.

## STAINLESS STEEL

Polished AISI 316 stainless steel.

**Maintenance:** Caution!

a) DO NOT USE the following products on stainless steel parts:

- bleach or detergents containing bleach (which can corrode stainless steel);
- hydrochloric acid or products containing chloride (which can corrode stainless steel).

b) salt, limescale or acid (from coffee, wine, orange juice, tomato and lemon juice, etc.) may discolour stainless steel parts that are not cleaned immediately.

c) stainless steel products or parts used by the sea or for internal swimming pool furnishings require more frequent cleaning to remove deposits of chloride and to prevent the chemical corrosion of the external surface.

d) stains or rust marks on the stainless steel surface should be removed immediately.

e) stains left for a long time can become permanent

f) rust can chemically attack or corrode stainless steel.

Removing stains or rust:

- apply a specific non-abrasive detergent/polish for stainless steel;
- test on a hidden stain to make sure that the original surface finish is not altered;
- remember to rub lengthwise (not in a circle);
- do not use abrasive pads;
- rinse thoroughly with clean water;
- finally dry thoroughly to prevent streaks, rub in the direction of the fibres.

## STEEL

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosion process.

**Maintenance:** to keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.

Rinse carefully. Do not use detergents or abrasive brushes. For painted finishing, we recommend waxing the frame on with liquid wax for cars or a proactive agents available for sale, to help keep and/or restore the shine of the finish. Protective agents can be bought from hardware or similar stores.

Use at sea: during use at sea, salt may accumulate in the fissures of the product, leading to rapid deterioration of the paint. In areas where there are swimming pools, chlorine may accumulate on the finish, leading to rapid deterioration of the latter. In both types of environment, repeated cycles of condensation followed by evaporation can cause accumulation of these corrosive and aggressive materials, especially

in product fissures. Regular cleaning with delicate biodegradable liquid soap and water can help remove the concentrated deposits and protect the finishing of the furniture following the instructions above.

Maintenance intervals:

- aggressive environments (sea areas, industrial areas, swimming pools): every 3 months;
- medium aggressiveness environments (urban areas): every 6 months;
- low aggressiveness environments (natural areas): every 12 months.

In the case of tables, we recommend not to put away the tables with their tops in direct contact with another, and to store the products in dry and aerated places to prevent condensation from forming.

## SYNTHETIC FABRICS

**Acrylic fabric:** a fibre whose base element is a polymer chain consisting of 85% acrylonitrile. Acrylic fibre combines the aesthetic qualities of a luxurious fabric with the texture and feel of wool with the functional qualities of resistance to the elements: UV resistant, it does not stain and does not rot upon contact with water as it is fast-drying.

**Olefin fabric:** is a synthetic fiber made from polyolefin. Olefin has a soft and light texture but at the same time it's resilient, long-lasting and suitable for many uses, especially outdoor use. The fabrics are solution-dyed, making the color very resistant to the washing. The water-repellent treatments also guarantee low liquid absorption.

**Polyester fabric:** a fibre composed of linear macromolecules consisting mainly of polyethylene terephthalate. It has excellent mechanical properties: it withstands breakage, light and abrasion. It does not deform permanently, it has an excellent elastic recovery and is waterproof.

**Polypropylene fabric:** these are fibers that are generally very fine, with a high surface tension, thanks to which water can pass through and flow out quickly. Strength and durability are among the main advantages offered by this material, which also provides good thermal insulation.

**Fabric 88% acrylic, 12% polyester:** mixed fabric with the two fibres mentioned above.

**Exclusive fabrics:** for information regarding the composition of fabrics in this range and their specific maintenance, please refer to the website [www.emu.it](http://www.emu.it), write to [info@emu.it](mailto:info@emu.it) or contact the respective sales office.

**Maintenance:** all fabrics can show hues which are slightly different because they come from different production batches or have a different exposure to light. This feature should not be considered a defect but a characteristic of the product. EMU uses the most advanced technologies in the textile industry to produce outdoor furniture. Our materials are resistant to water splashing, UV rays, salt deposits, and perspiration, all of which does not cause them to lose their structural and comfort features. After it has rained we recommend you dry the furniture with fabrics in order to prevent the formation of damp stains and moulds. To make the products last longer, EMU recommends to store them, if they are not used for a long time (e.g. autumn/winter) or if it rains persistently, in a closed, aerated and dry space, covering them with canvasses to preserve their condition and protect them from dust and dirt. Before you put them away, make sure that they are completely dry. It is advisable to use covers/linings outdoors, but just for short periods. Covers are not an alternative to winter storage of the products. If it rains always make sure that there is no humidity between the lining and the products in order to prevent the formation of moulds; these are textile manufacturing products, therefore the presence of residual humidity is possible and may cause mould formation. All materials meet the most stringent quality standards for outdoor use; these fabrics are fast-drying and low-maintenance.

Avoid prolonged contact with greasy substances and/or dyes or colorants that could be absorbed by the

covering material and cause permanent stains, as well as deteriorating the yarn structure. In the case of use near the sea or swimming pools, periodic washing is recommended. Frequent washing: follow the specific instructions given on the label for each material. Use water and non-abrasive, colorless, neutral PH liquid detergents. If necessary, allow the detergent to act for a few minutes. Rinse thoroughly with water at a temperature not higher than 30°C (86°F). If pressure cleaning devices are used, keep the tip of the nozzle at a distance of at least 60-70 cm from the surface of the product. If necessary, repeat the operation. Do not use abrasive sponges to remove stains and do not treat with bleach or chlorine.

## SYNTHETIC ROPE

Double braid with polyester or Nylon core and multifilament propylene covering. The external fibre is waterproof and resistant to UV rays.

**Maintenance:** clean using a mild detergent product and soft cloth. If the rope on the product selected is interlaced, you should clean the plaiting with neutral soap and a high-pressure water cleaner.

## TEAK

Traditional wood used for outdoor furniture with an exotic and timeless appeal. Teak is a hard wood with a high oil content suitable for outdoor use, without the need for painting. If it does not receive any protective treatment, the surface will weather into a silvery-grey finish, the natural protection of the internal part of the wood, considered an essential part of teak's charm. The teak used for EMU products is FSC® certified.

**Maintenance:** since it is a natural material, colour variations may be observed between one product and another or between the components of the same product. In case of sudden changes in temperature and humidity, cracks may also occur. If it does not receive any maintenance treatment through the periodic application of common and specific oil-based protective products, the surface will take on a silver grey patina that can also be removed with a light surface sanding and subsequent polishing with a jute cloth. Small surface stains due to oil, coffee, juices, drinks, and other food products must be removed promptly with water and a soft cloth, before the wood can absorb them deeply. In case of residual stains, we recommend sanding the affected surface and polishing it with a jute cloth. When the wood gets wet for the first time, it is normal for the surface to become a little rough when it dries, and the initial sanding can be restored with a light surface sanding and subsequent polishing with a jute cloth. Teak is a natural material that absorbs water and is rich in oils. These oils, by a natural process, tend to rise to the surface over time and can stain any cushions that have been used. Stains on pillows can be removed using soap and water.

## TEMPERED GLASS

Tempered glass in compliance with international standards BS 6206 and produced in compliance with standard BS 7376.

**Maintenance:** the glass surfaces are easy to clean and do not require special maintenance. We recommend using a cloth dampened with water and a mild detergent, then rinse and rub with a dry cloth. Be careful not to scratch any painted surfaces. If the water used has an excessive amount of limescale or other mineral salts which leave stubborn marks or streaks when the surface dries, specific commercial products can be used for cleaning the glass instead of the mild detergent, except for painted surfaces.

## TERRACOTTA

This is a porous ceramic paste with white or coloured coating which, after the firing process, becomes stable, resistant to aging and light.

**Maintenance:** terracotta can be cleaned easily and does not require particular maintenance interventions. To clean the product we recommend use of a cloth dampened with water and mild detergent. Successively, rinse and dry with a dry cloth. Pay particular attention

to the rinsing phase to prevent the accumulation of lime scale and dirt.

## WPC

WPC is a composite material made from wood fibers and HDPE. Semi-finished products are obtained by extruding the composite. This material is resistant to UV rays, atmospheric agents and humidity. WPC does not chip and is not damaged by bacteria or insects. It is a material that requires little maintenance. It does not need to be painted for protection.

**Maintenance:** for best care in an outdoor environment, it is recommended that the product be cleaned periodically:

- for dust and debris: use a vacuum cleaner to remove dirt and debris;
  - for dirt stains: clean with a laundry brush using neutral soap and lukewarm water;
  - for oily stains: pat promptly with absorbent paper and clean the area with lukewarm water and neutral soap.
- Do not use pressure washing devices, which can damage the product. Do not use bleach or chlorine-based detergents. Do not use highly acidic or highly alkaline detergents. Use neutral detergents, best if diluted in water.

## AVOID IMPROPER USE

Such as:

- do not use the seats as stool, step, trestle, gym equipment or for similar purposes;
  - do not swing on the legs. Do not sit on the backrest. Do not sit on the armrests. Do not load any weight greater than 120 kg on the seats;
  - keep an eye on children when they are using the seats. Refrain from using the seats if you notice that they are damaged in order to prevent injuries and bruising to the user.
- The seats should not be altered or changed in any way. This might prejudice their functionality and lead to forfeiting the warranty;
- do not use the tables as step or trestle. Do not stand on the tables. Do not load any weight greater than 40 Kg on the tables;
  - do not cover the products with non-transpiring canvasses (e.g.: canvasses and tablecloths made of PVC, nylon, etc.) Lack of transpiration causes irreparable damage to the product finishing.

## WARNINGS

Glass, ceramic, metal and any other hard materials in direct contact with the coating can damage / scratch it irreparably. We recommend to protect the tops with a cotton cloth or other material in daily use. At the end of its use, do not dump the furniture in the environment but contact the companies responsible for the disposal of solid and municipal waste, for its transfer to the Tip or its eventual recovery.

If you live in an area where freezing is likely, store the product in a clean and dry place.

To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. During the storage and stacking phase, do not exceed the number of stackable units stated in EMU official materials. Excessive heights could pose risks to safety and might increase the potential for rubbing and subsequent wearing of the frame finishing. For any clarifications regarding the maximum number of stackable units, please refer to the website [www.emu.it](http://www.emu.it). To avoid rain water stagnation on all tables having a full top (steel, aluminium, HPL and stoneware), we recommend removing the water accumulation promptly or tilting the table to facilitate the water downflow.

## Seats

If the seats tend to wobble when they are used on irregular surfaces, in order to redress the level/planarity it is sufficient to hammer the longer leg.

## Steel sheet tables top

Tables tops are made with a slight down planarity deviation to avoid "spring effect" when used. Surface tables tops seem to be concave.

### Wood and HPL tables top

Tables tops made in these materials are subject to slight warping as climate conditions vary. For this reason, differences in alignment may occur between the various components of the table. This has no effect on performance.

### SPARE COMPONENTS

In case you need to replace worn feet cap covers or any other plastic components please contact an EMU dealer.

## Reference standards

Our outdoor furniture has been designed and tested with reference to the mechanical and general safety requirements prescribed by European standards and currently applicable to this sector.

All tested items have achieved the Contract standard, which is the highest standard under the current regulation. As a result, they can be applied not only for private use (lower-grade Camping and Domestic standards), but also for professional use (collective use in public places such as restaurants, hotels, open swimming pools...).

The tests completed on our products are approved by the CATAS institute.

### EUROPEAN STANDARD EN 581-2 MECHANICAL SAFETY REQUIREMENTS AND TEST METHODS OF SEATING

#### Seat and back static load test

Seat: a force of 2000 N is applied to the seat for 10 cycles maintained for 10 seconds and for 1 cycle maintained for 30 minutes.

Back: a force of 560 N is applied to the back for 10 cycles maintained for 10 seconds and for 1 cycle maintained for 30 minutes.

#### Seat and back fatigue test

A force of 1000 N is applied to the seat alternating with a tilting force of max 100 N applied to the back, for a total of 50000 cycles.

#### Seat front edge static load test

A force of 130 N is applied to the front edge for 10 cycles maintained for 10 seconds and for 1 cycle maintained for 30 minutes.

#### Seat impact test

A special seat impactor is made to drop 10 times from a height of 180 mm.

#### Arm downwards static load test

A vertical force of 900 N is applied to the arm.

#### Arm fatigue test

A force of 400 N is applied to the arms for a total of 30000 cycles.

#### Leg forwards static load test

Applying a balance weight of 100 KG, a front horizontal force of 400 N is applied.

#### Leg sideways static load test

Applying a balance weight of 100 KG, a front horizontal force of 300 N is applied.

#### Alternating fatigue test for folding and/or reclining chairs

A mass of 100 KG is applied to the seat, and an alternating force of 250 N is applied to the two upper ends of the rest alternating with a tilting moment of 100 Nm applied to the centre of the back for a total of 20000 cycles.

### EUROPEAN STANDARD EN 581-3 MECHANICAL SAFETY REQUIREMENTS AND TEST METHODS OF TABLES

#### Stability

Forces are applied to pre-established points and with values depending on the size of the top and on the level of mechanical requirements called for.

#### Vertical static load on the table and on its extensions

Forces are applied to pre-established points of the top and of the extensions, if any, of 1000 N and 350 N respectively for 10 cycles maintained for 10 seconds and for 1 cycle maintained for 30 minutes.

#### Horizontal fatigue

For alternating forces of 150 N are applied for 20000 cycles to points on the edge of the top, pre-established on the basis of the geometrical typology.

Our tables that allow an umbrella to be inserted are unable to support the umbrella, which must therefore be used with its own separate base.

# Matériaux et entretien

Les produits de la gamme EMU sont conçus pour durer dans le temps. Ils sont fabriqués avec des matériaux répondant aux normes de qualité les plus élevées et selon des processus de production respectueux de l'environnement. Les produits EMU sont une solution idéale pour meubler vérandas et terrasses couvertes et semi-couvertes. **Pour consulter les fiche d'entretien des matériaux, consultez le site [www.emu.it](http://www.emu.it)**

## ABS

L'ABS est un technopolymère thermoplastique qui, une fois stabilisé, résiste bien aux radiations UV et peut donc être utilisé à l'extérieur. Il présente de bonnes caractéristiques mécaniques même aux basses températures et possède une grande dureté, une résistance au choc et à l'éraflure. Ces caractéristiques le rendent idéal pour des utilisations dans différents secteurs, parmi lequel l'ameublement.

**Entretien :** Nettoyer le produit avec un chiffon souple et humide. Utiliser des détergents neutres, de préférence dilués dans l'eau. Ne pas utiliser de détersifs contenant, même en petites quantités, de l'alcool, trichloréthylène, ammoniac et des solvants en général.

## ACIER

Alliage de fer et de carbone, avec un pourcentage de carbone inférieur à 2% traité pour résister aux agents atmosphériques avec le processus exclusif anticorrosion EMU-Coat.

**Entretien :** Pour maintenir longtemps le produit en bon état, nous conseillons de le conserver dans des lieux fermés et secs pendant le hiver, de façon à éviter les formations de condensation. Avant l'hiver et avec une cadence trimestrielle, si les produits sont conservés à proximité de la mer, il est recommandé de nettoyer les surfaces en métal avec un chiffon souple en utilisant de l'eau ou des détergents, et les protéger avec de l'huile de vaseline ou de la cire pour auto. Rincer abondamment. Ne jamais utiliser des produits agressifs et des brosses abrasives. Pour les finitions peintes, il est conseillé de cirer périodiquement le châssis avec de la cire liquide de haute qualité pour voitures ou tout autre produit protecteur disponible sur le marché, afin de maintenir et/ou redonner de la brillance aux finitions. Vous pouvez acheter les produits protecteurs en quincaillerie ou dans un magasin similaire.

Attention à la mer : si vous utilisez le mobilier en bord de mer, le sel peu s'accumuler dans les « pores » du produit et causer la détérioration de la peinture. Si vous utilisez le mobilier en bord de piscine, le chlore peu s'accumuler sur les finitions et causer leur détérioration. En bord de mer comme en bord de piscine, des cycles répétés de condensation suivis par des cycles d'évaporation peuvent causer l'accumulation, en particulier dans les « pores » du produit, de sel ou de chlore qui sont très corrosifs et agressifs. Le nettoyage régulier avec de l'eau et un détergent délicat liquide biodégradable permet d'éliminer les dépôts concentrés et aide à protéger les finitions du meuble selon les conseils d'entretien indiqués ci-dessus.

Intervalles d'entretien :

- milieux agressifs (mer, piscine, zone industrielle) : tous les 3 mois;
- milieux moyennement agressifs : (zones urbaines) : tous les 6 mois;
- milieux peu agressifs : (zones naturelles) : tous les 12 mois.

En ce qui concerne les tables, il est conseillé de les ranger avec les plateaux en contact l'un sur l'autre et dans un endroit sec et aéré de façon à éviter les formations de condensation.

## ACIER INOX

Acier INOX aisi 316 brillant

**Entretien :** Attention !

- a) NE PAS UTILISER les produits suivants sur des parties en acier inox :
  - eau de Javel ou détergents contenant de l'eau de Javel (ils peuvent ronger l'acier inox) ;
  - acide chlorhydrique ou produits contenant du chlorure (ils peuvent ronger l'acier inox).
- b) le sel, le calcaire ou de l'acide (café, vin, jus d'orange, jus de tomate, citron, etc.) peuvent décolorer les pièces en acier inoxydable ne sont pas rapidement propre.

c) les produits ou parties en acier inox utilisés au bord de la mer ou dans la décoration intérieur de piscines requièrent plus de nettoyages fréquents pour ôter les dépôts de chlorure et prévenir la corrosion et l'attaque chimique de la surface extérieure.

d) les taches ou la rouille qui se présentent sur la surface en acier inox doivent être rapidement nettoyées.

e) les taches laissées longtemps peuvent devenir permanentes.

f) la rouille peut attaquer chimiquement ou creuser l'acier inox. Retrait de taches ou de rouille :

- appliquer un détergent/polish non abrasif spécifique pour l'acier inox ;
- tester sur une tache peu voyante pour s'assurer que la finition superficielle originale ne soit pas altérée ;
- se rappeler de frotter dans le sens linéaire (et non circulairement) ;
- ne pas utiliser de tampons abrasifs ;
- rincer abondamment avec de l'eau propre ;
- à la fin, essuyer bien pour prévenir des stries, frotter dans le sens des fibres.

## ALUMINIUM

Des alliages d'aluminium, particulièrement adaptés au traitement à froid et à la fusion sous pression, spécifiquement traités pour résister aux agents atmosphériques et peints à la poudre

**Entretien :** Pour maintenir le produit en bon état dans le temps, nous recommandons de procéder à un nettoyage régulier adapté, à fréquence plus soutenue dans les lieux présentant une forte humidité et en climat marin. Il est recommandé de nettoyer les surfaces avec un chiffon doux, de l'eau ou un détergent neutre. Une exposition prolongée et continue à un rayonnement UV intense ou à des températures très froides peuvent affecter les caractéristiques initiales du revêtement esthétique coloré en polyester. Nous recommandons le nettoyage et la conservation des produits dans des lieux abrités durant les périodes de stockage prolongé et l'hiver.

## BAMBOU

Le bambou est un matériau qui pousse rapidement et peut être récolté sans causer la déforestation. Une fois récolté, la couche la plus externe est éliminée et les lamelles de bambou sont façonnées grâce à un traitement thermique spécial à 200°C qui augmente la stabilité de ce matériau, en assure la protection contre les champignons et garantit une durabilité correspondant à la classe la plus élevée. Après le processus de compression à la chaleur, les fibres de bambou sont plus fortes et plus dures que n'importe quelle autre espèce de bois. Ce traitement thermique spécial permet d'obtenir une table solide et à haute densité, résistante aux agents atmosphériques.

**Entretien :** En tant que matériau naturel non traité, il peut se tacher facilement et s'il est exposé à l'air peut s'oxyder et sa couleur peut virer au gris. Afin de réduire ces deux effets, il est conseillé d'appliquer de l'huile au moins une fois par an.

S'agissant d'un matériau naturel, il n'est pas possible d'éliminer les taches une fois qu'elles ont pénétré ; le traitement de la surface avant l'utilisation des matériaux augmenterait un minimum la possibilité d'intervenir pour éliminer la tache avant l'absorption. En ce qui concerne son nettoyage ordinaire et son hygiénisation, il suffit d'utiliser de l'eau et des détergents neutres.

## CORDE SYNTHÉTIQUE

Double tresse construite avec un noyau en polyester ou Nylon et couverture en polypropylène multifilament. La fibre externe dont elle est composée est étanche et résistante aux rayons UV.

**Entretien :** Il est recommandé de la nettoyer avec un produit neutre et un chiffon non-abrasif. Si sur le produit choisi la corde est tressée, il est conseillé de nettoyer la tresse avec un détergent neutre et un nettoyeur haute-pression.

## CRISTAL TREMPÉ

Cristal trempé en conformité avec les normes internationales BS 6206 et produit dans le respect de la norme BS 7376.

**Entretien :** Les plans en verre se nettoient avec facilité et ne nécessitent pas d'interventions d'entretien particulières.

Nous conseillons d'utiliser un chiffon humidifié avec de l'eau et un détergent neutre, puis de rincer et d'essuyer avec un chiffon sec. Faire attention de ne pas produire d'abrasions dans les surfaces vernies du plan, s'il y en a. Si l'eau utilisée a une quantité excessive de calcaire ou d'autres sels minéraux qui laissent des auréoles ou des stries résistantes à la phase de séchage, on peut utiliser des produits commerciaux spécifiques pour le nettoyage du verre à la place du détergent neutre, sauf pour les surfaces vernies.

## ÉCO-CUIR

L'éco-cuir est réalisé en microfibres de Nylon compactée en bain de polyuréthane. Il est ensuite revêtu de polyuréthane coloré.

**Entretien :** Pour un bon nettoyage, il est recommandé d'utiliser un chiffon doux imbibé d'eau. Si nécessaire, utiliser des produits neutres sur un chiffon doux et procéder au nettoyage ; à la fin de l'opération, éliminer les résidus toujours avec un chiffon doux imbibé d'eau. Il est également recommandé de ne pas utiliser de produits de nettoyage directement sur le revêtement et de ne pas sécher avec des sources de chaleur artificielles (sèche-cheveux, radiateurs, etc.). L'éco-cuir est un matériau qui, au fil du temps, peut s'enrichir de petits signes qui témoignent de son utilisation et caractérisent le charme et l'aspect esthétique du produit dans son utilisation normale.

## EMU-TEX

Il s'agit d'un tissu technique pour utilisation en extérieur réalisé en fil de chlorure de polyvinyle. Il présente une robustesse exceptionnelle permettant de garantir une longue durée de vie : une résistance maximum aux rayons ultraviolets, aux intempéries, à l'humidité et aux changements de température.

**Entretien :** Éviter tout contact prolongé avec de la graisse et/ou des colorants susceptibles d'être absorbés par le matériau de revêtement avec pour résultat des taches permanentes, outre détériorer la structure du fil. Lavages fréquents : utiliser de l'eau et des détergents liquides non abrasifs avec PH neutre et incolores. Le cas échéant, laisser agir le produit pendant quelques minutes. Rincer abondamment avec de l'eau à température ne dépassant pas 30°C. En cas d'utilisation de dispositifs sous pression, maintenir la pointe du diffuseur à une distance d'au moins 60/70 cm de la surface du produit. Répéter l'opération si nécessaire. Lavages périodiques et/ou extraordinaires : utiliser un détachant régénérant pour PVC en suivant la procédure suivante. Procédure à suivre :

- appliquer le détachant sur la toile sale;
- laisser agir le produit pendant 15-30 minutes;
- frotter les zones tachées avec une brosse de lavage à poils durs commune (cette étape est nécessaire car la saleté se trouve à l'intérieur du tissu);
- rincer à l'eau claire (si possible, rincer en utilisant une nettoyeuse haute pression en maintenant une distance d'environ 60 cm pour éviter que la pression appliquée n'endommage le tissu);
- répéter l'opération si nécessaire.

Remarques : durant l'application du produit, veiller à ne pas l'appliquer sur les parties peintes de ce dernier.

## EMU MAILLE SYNTHÉTIQUE

Matériau composite constitué de PVC (45%), PP (40%) et PES (5%), et construit en utilisant un double tissage "Jacquard" en deux fils GG05, aptes à son emploi à l'extérieur et à l'intérieur. L'union des deux fils crée une "maille synthétique" douce au toucher, avec de hautes qualités techniques résistantes aux microorganismes.

**Entretien :** Lavez le produit à la main à une température comprise entre 30 et 40 ° C avec un détergent neutre. Après le lavage, il est recommandé de sécher le tissu à l'air libre et non dans le sèche-linge.

## GRÈS PORCELAINÉ

Le grès porcelainé, grâce à ses excellentes propriétés physiques et mécaniques, est idéal pour une utilisation en extérieur en raison de sa résistance inaltérable aux intempéries et aux UV. Ses qualités lui permettent d'être imperméable à l'eau et à l'huile. Le grès porcelainé est obtenu par un procédé de synthèse des argiles céramiques, le feldspath, le kaolin et le sable. Ces matières

premières sont broyées et séchées par pulvérisation jusqu'à obtenir une granulométrie homogène adaptée au pressage. La cuisson est effectuée à une température de 1150-1250°C pendant environ 25-30 minutes afin de permettre la céramisation de la pâte et de pouvoir lui attribuer les caractéristiques de résistance à l'abrasion types.

**Entretien :** Les sols en grès sont faciles à nettoyer et ne nécessitent pas d'interventions d'entretien particulières. Nous recommandons de nettoyer le produit à l'aide d'un chiffon imbibé d'eau et de détergent doux, puis de le rincer et de le sécher avec un chiffon sec. Faire particulièrement attention lors de la phase de rinçage afin d'éviter l'accumulation de tartre et de saleté.

## HPL

Matériau autoportant adapté à l'exposition à l'environnement extérieur. Il est constitué de couches de papier Kraft imprégnées de résines phénoliques et d'une couche superficielle décorative imprégnée de résines thermo-durcissantes. Ces couches sont pressées à 9 Mp et à une température de 150 degrés centigrades.

**Entretien :** Le laminé HPL est facile à nettoyer et ne demande aucun entretien particulier. La plupart des taches sont lavables à l'eau seule et peuvent être séchées avec des chiffons doux et propres. Pour les taches persistantes, utiliser soit une éponge et un détergent spécifique pour les laminés, soit un détergent pour vitres. Ôter ensuite les traces de ces produits à l'aide d'un chiffon sec pour éviter les rayures ou les opacifications. Il est toujours recommandé d'essayer tout nouveau produit dans un endroit peu visible. Éviter d'utiliser les éponges en acier, les produits contenant des crèmes abrasives, les détergents en poussière et l'acétone.

## MICROFIBRE

100% PES multifilament particulièrement résistant à l'usage quotidien, sous aspect nubuck, pour des composants de haute qualité et durables, caractérisé par le tissage de fibres de polyester ayant un titre égal ou inférieur à 1 dtex.

**Entretien :** Lavez le produit à la main à une température comprise entre 30 et 40 ° C avec un détergent neutre. Après le lavage, il est recommandé de sécher le tissu à l'air libre et non dans le sèche-linge.

## SANGLE ÉLASTIQUE

Obtenu par le tissage de matériaux synthétiques comme les fibres de propylène (71%) et fils de caoutchouc synthétique (29%), elle peut être utilisée à l'extérieur.

**Entretien :** Éviter le contact prolongé avec des substances grasses et/ou colorants qui pourraient être absorbées par le matériau de revêtement et donner lieu à des taches permanentes, et détériorer la structure du tissage. Ne pas employer de solvants ni de détergents à base de solvants (éviter l'acétone). Employer de l'eau et des détergents liquides non abrasifs à PH neutre et incolores. Laisser éventuellement agir le détergent pendant quelques minutes. Rincer abondamment avec de l'eau d'une température non supérieure à 30°. En cas d'utilisation de dispositif à pression, tenir la pointe du diffuseur à une distance d'au moins 60/70 cm de la superficie de l'élément. Répéter l'opération si nécessaire.

## TECK

Bois traditionnel utilisé dans l'ameublement d'extérieur au charme exotique intemporel, le teck est un bois dur à forte teneur en huile pour usage externe ne nécessitant pas de traitement de peinture. En absence de traitement de protection, la surface prendra une patine gris argenté, protection naturelle de la partie interne au bois, considérée comme un élément essentiel du charme du teck. Le teck utilisé pour les produits EMU est certifié FSC®.

**Entretien :** S'agissant d'un matériau naturel, il est possible de noter des variations de couleurs d'un produit à l'autre ou entre les composants d'un même produit. De plus, en cas de changements brusques de température et d'humidité, des fissures peuvent également se produire. Si la surface ne reçoit aucun traitement d'entretien par l'application périodique de produits courants et spécifiques de protection à base d'huile, elle prendra une patine gris-argent qui peut également être éliminée par un léger

ponçage de surface suivi d'un polissage avec un chiffon de jute. Les petites taches de surface dues à l'huile, au café, aux boissons et autres produits alimentaires doivent être éliminées rapidement avec de l'eau et un chiffon doux, avant que le bois ne les absorbe en profondeur. En cas de taches résiduelles, il est recommandé de procéder au ponçage de la surface concernée et au polissage avec un chiffon de jute. Lorsque le bois est mouillé pour la première fois, il est normal que la surface devienne un peu rugueuse lorsqu'il sèche, un léger ponçage suivi d'un polissage avec une toile de jute restaureront la douceur d'origine. Le teck est un matériau naturel qui absorbe l'eau et est riche en huiles. Au fil du temps, ces huiles, par un processus naturel, remontent à la surface et peuvent tacher les coussins qui ont été utilisés. Les taches sur les coussins peuvent être enlevées avec de l'eau et du savon.

## TERRACOTTA

Il s'agit d'une pâte céramique poreuse avec revêtement blanc ou coloré qui, après un processus de cuisson, présente des caractéristiques de stabilité, de résistance au vieillissement et de légèreté.

**Entretien :** La terracotta est facile à nettoyer et ne nécessite pas d'interventions particulières d'entretien. Nous recommandons de nettoyer le produit à l'aide d'un chiffon imbibé d'eau et de détergent doux, puis de le rincer et de le sécher avec un chiffon sec. Faire particulièrement attention lors de la phase de rinçage afin d'éviter l'accumulation de tartre et de saleté.

## TISSUS SYNTHÉTIQUES

**Tissu acrylique :** Par tissu acrylique, on entend une fibre dont l'élément de base est une chaîne de polymères constituée de 85% d'acrylonitrile. La fibre acrylique unie les qualités esthétiques d'un tissu luxueux, dont la texture et le toucher sont similaires à ceux de la laine, et dont les qualités fonctionnelles de résistance aux agents atmosphériques sont les suivantes : résistant aux UV, ne tache pas et ne pourrit pas au contact de l'eau grâce à sa grande vitesse de séchage.

**Tissu oléfine :** est une fibre synthétique fabriquée à partir de polyoléfine. L'oléfine se caractérise par une texture douce et légère, mais en même temps, elle est résistante, durable et adaptée à de nombreuses utilisations, notamment à l'extérieur. Les tissus sont teints en solution, ce qui rend la couleur très résistante au lavage. Les traitements hydro-répulsifs garantissent également une faible absorption des liquides.

**Tissu polyester :** il s'agit d'une fibre formée de macromolécules linéaires principalement constituées de polyéthylène téréphtalate. Il présente des propriétés mécaniques élevées : il résiste à la pourriture, à la lumière, à l'abrasion, il ne se déforme pas de façon permanente, il présente une excellente reprise élastique et est hydrofuge.

**Tissu polypropylène :** il s'agit de fibres généralement très fines, ayant une tension superficielle élevée grâce à laquelle l'eau réussit à passer et à s'écouler rapidement. La résistance et la durée sont deux des principales qualités de cette matière, qui garantit également une bonne isolation thermique.

**Tissu 88% acrylique, 12% polyester :** Tissu mixte de ces deux fibres.

**Tissu Exclusive :** Pour tous renseignements sur la composition des tissus de cette gamme et pour leur entretien spécifique, veuillez consulter le site web [www.emu.it](http://www.emu.it), ou écrire à [info@emu.it](mailto:info@emu.it) ou bien au service commercial compétent.

**Entretien :** tous les tissus peuvent présenter des tonalités légèrement différentes puisqu'ils appartiennent à des lots différents ou ont une exposition différente à la lumière. Cet aspect ne doit pas être considéré un défaut, mais plutôt une caractéristique du produit. EMU utilise les technologies les plus avancées dans le domaine du textile pour créer son mobilier d'extérieur. Nos matériaux sont résistants à l'eau, aux rayons ultraviolets, au sel, à la sueur, sans perdre leurs caractéristiques structurelles et de confort. Après la pluie, il est nécessaire de faire sécher les éléments d'ameublement en tissu afin de prévenir la formation de taches d'humidité ou de moisissure. Pour améliorer la résistance dans le temps de ces produits, EMU conseille, pendant les périodes prolongées de non-

utilisation (automne/hiver), ou de pluies continues, de les ranger dans un endroit fermé, aéré et sec, en les couvrant avec des bâches pour les protéger des salissures et de l'humidité. Assurez-vous qu'ils soient parfaitement secs avant de les ranger. Les housses de couvertures sont conseillées pour l'utilisation en extérieur, mais pour des périodes non prolongées. Elles ne sont donc pas alternatives au stockage des produits pendant l'hiver. En cas de pluie, étant donné que sur les éléments en tissu la présence d'humidité résiduelle est possible et peut causer de la pourriture, assurez-vous qu'il n'y ait pas d'humidité entre la housse et les produits, afin d'éviter la formation de moisissure. Tous les matériaux respectent les normes de qualité les plus rigides pour l'utilisation en extérieur et les tissus sèchent rapidement et sont faciles à entretenir. Éviter le contact prolongé avec des substances grasses et/ou des colorants, qui pourraient être absorbés par le matériau de revêtement et provoquer la formation de taches permanentes, mais aussi détériorer la structure du fil. En cas d'utilisation près de la mer ou d'une piscine, un lavage périodique est recommandé. Lavages fréquents : suivre les instructions spécifiques pour chaque matériau reportées sur l'étiquette. Utiliser de l'eau et des détergents liquides non abrasifs, à pH neutre et incolores. En cas de besoin, laisser agir le détergent pendant quelques minutes, rincer abondamment à l'eau, à une température de 30°C au maximum. En cas d'utilisation de dispositifs sous pression, tenir la pointe du diffuseur à une distance d'au moins 60/70 cm de la surface du tissu. Le cas échéant, répéter l'opération. Pour enlever les taches, ne pas utiliser d'éponges abrasives et ne pas traiter le tissu avec de l'eau de javel ou du chlore.

## WPC

Le WPC est un matériau composite constitué de fibres de bois et de PEHD. Les produits semi-finis sont obtenus par extrusion du composite. C'est un matériau résistant aux rayons UV, aux agents atmosphériques et à l'humidité. Le WPC ne forme pas d'éclats et ne subit pas les attaques des bactéries ou des insectes. Il s'agit d'un matériau facile à entretenir. Il n'a pas besoin de peintures de protection.

**Entretien :** Pour une conservation optimale en extérieur, il est conseillé de nettoyer périodiquement le produit :

- pour poussière et débris : utiliser un aspirateur ;
- pour les taches de saleté : nettoyer avec une brosse à lessive en utilisant du savon neutre et de l'eau tiède ;
- pour les taches d'huiles : éponger immédiatement avec de l'essuie-tout, puis nettoyer la zone intéressée avec de l'eau tiède et du savon neutre.

Il est recommandé de ne pas utiliser de nettoyeurs à vapeur, qui pourraient endommager le produit. Il est recommandé de ne pas utiliser d'eau de javel ou de détergents à base de chlore. Ne pas utiliser de détergents fortement acides ou fortement alcalins. Utiliser des détergents neutres, de préférence dilués dans de l'eau.

## EVITER L'UTILISATION IMPROPRE

Par exemple :

- ne pas utiliser les sièges comme des tabourets, des échelles, des tréteaux ou des articles de sport ;
- ne pas se balancer sur les jambes des chaises. Ne pas s'asseoir ni sur le dossier, ni sur les accoudoirs. Ne pas charger les sièges avec un poids supérieur à 120 kg ;
- veiller sur les enfants quand ils sont assis. Afin d'éviter tout incident et blessure, cesser l'utilisation des sièges quand des dommages sont constatés ;
- les sièges ne doivent pas être ni transformés ni modifiés, car cela peut affecter leur fonctionnalité et la validité de la garantie ;
- ne pas utiliser les tables comme des échelles ou des tréteaux. Ne pas monter sur les tables. Ne pas charger les tables avec un poids supérieur à 40 kg ;
- ne pas couvrir les produits avec des bâches non respirantes (par exemple : bâches et nappes en PVC, nylon, etc.). Le manque de respirabilité peut endommager la finition du produit.

## AVERTISSEMENTS

L'emploi de verre, de céramique, de métal ou de matériaux durs en contact direct avec la peinture peut l'endommager/rayer irrémédiablement. Dans l'usage quotidien, nous recommandons de protéger les plateaux

avec un chiffon en coton ou un autre matériau. En fin d'utilisation, ne pas abandonner le meuble dans la nature et s'adresser aux entreprises préposées à l'élimination des déchets solides et urbains, pour qu'il soit transporté dans une déchèterie ou au recyclage.

Pour maintenir longtemps le produit en bon état, nous conseillons de le conserver dans des lieux fermés et secs pendant le hiver, de façon à éviter les formations de condensation. Pendant la phase de stockage et d'empilement, assurez-vous de ne pas dépasser le nombre d'éléments empilables indiqués dans les informations sur les matériaux. Une hauteur excessive d'empilement peut représenter un risque pour la sécurité et augmenter le frottement potentiel et l'usure des finitions du châssis. Pour tous renseignements concernant le nombre maximum d'éléments empilables, consultez le site [www.emu.it](http://www.emu.it)

Pour éviter la stagnation de l'eau en cas de pluie, sur tous les types de tables avec plateau en tôle pleine, il

est conseillé d'éliminer rapidement l'accumulation de l'eau en la séchant ou en inclinant la table pour faciliter l'écoulement.

#### Sièges

En cas de défaut de planéité des sièges causés par leur utilisation sur des surfaces irrégulières, pour rétablir la planéité il suffit de taper sur la jambe la plus longue.

#### Plateaux de tables en tôle - fer

Les plateaux sont réalisés avec un léger écart de planéité vers le bas pour éviter que ne se crée un "effet ressort" pendant l'utilisation. Cette caractéristique doit être considérée comme une valeur ajoutée du produit. La surface du plateau est donc concave.

#### Plateaux de tables en bois et laminé HPL

Les plateaux réalisés avec ces matériaux subissent une déformation lorsque les conditions atmosphériques changent, il est donc possible que l'on observe des différences d'alignement entre les différents éléments qui

constituent le produit.

#### PIÈCES DÉTACHÉES

Si vous devez remplacer les capuchons de pieds usés ou tout autre composant en plastique, veuillez contacter un revendeur EMU.

## Réglémentation de référence

Nos meubles pour l'extérieur sont projetés et testés sur la base des conditions mécaniques et générales de sécurité prévues par les réglementations européennes actuellement en vigueur pour le secteur. Tous les produits testés ont obtenu le niveau Contract, c'est-à-dire le niveau le plus haut prévu par les réglementations actuelles. Par conséquent, ils sont qualifiés non seulement pour un usage privé (niveaux inférieurs du Camping et du Domestic), mais aussi pour celui à proprement parler professionnel du Contract (utilisation collective dans des endroits ouverts au public, tels que restaurants, hôtels, piscines en plein air, etc.). La conformité aux tests sur nos produits est assurée par l'institut CATAS.

#### NORMES UNI EN 581-2

#### EXIGENCES MÉCANIQUES EN MATIÈRE DE SÉCURITÉ ET MÉTHODES D'ESSAI POUR SIÈGES

##### Charge statique assise/dossier

Assise: on applique sur l'assise une force de 2.000 N, maintenue pendant 10 sec pendant 10 cycles et pendant 30 minutes pendant 1 cycle.

Dossier: on applique sur le dossier une force de 560 N, maintenue pendant 10 sec pendant 10 cycles et pendant 30 minutes pendant 1 cycle.

##### Résistance à la sollicitation assise-dossier

On applique une force de 1.000 N sur l'assise et alternativement, sur le dossier, une force de basculement de 100 N max, pendant un total de 50.000 cycles.

##### Charge statique sur le bord frontal de l'assise

On applique une force de 130 N sur le bord frontal, maintenue pendant 10 sec pendant 10 cycles et pendant 30 minutes pendant 1 cycle.

##### Résistance aux chocs de l'assise

L'essai consiste à laisser tomber 10 fois, d'une hauteur de 180 mm, un dispositif d'impact (seat impactor) spécial.

##### Charge statique verticale sur les accoudoirs

On applique sur l'accoudoir une force verticale de 900 N.

##### Résistance à la sollicitation des accoudoirs

On applique sur les accoudoirs une force de 400 N pendant un total de 30.000 cycles.

##### Charge statique sur les pieds avant

En appliquant une masse d'équilibrage de 100 kg, on applique une force horizontale avant de 400 N.

##### Charge statique sur les pieds latéraux

En appliquant une masse d'équilibrage de 100 kg, on applique une force horizontale avant de 300 N.

##### Résistance à la sollicitation alternée pour chaises pliantes et/ou inclinables

On applique une masse de 100 KG sur l'assise, une force alternée de 250 N sur les deux extrémités supérieures du dossier et, alternativement, un moment de basculement de 100 Nm au centre du dossier, pendant un total de 20.000 cycles.

#### NORMES UNI EN 581-3

#### EXIGENCES MÉCANIQUES EN MATIÈRE DE SÉCURITÉ ET MÉTHODES D'ESSAI POUR TABLES

##### Stabilité

On applique des forces en certains points préétablis, avec des valeurs variant selon les dimensions du plateau et le niveau prévu d'exigences mécaniques.

##### Charge statique verticale sur la table et sur les rallonges

On applique des forces en certains points préétablis du plateau et, le cas échéant, des rallonges, respectivement de 1.000 N et 350 N, maintenues pendant 10 sec pendant 10 cycles et pendant 30 minutes pendant 1 cycle.

##### Sollicitation horizontale

On applique 4 forces alternées de 150 N pendant 20.000 cycles en certains points préétablis du bord du plateau, en fonction de la typologie géométrique de celui-ci.

Les tables que prévoient l'insertion du parasol ne sont pas en mesure de le soutenir; les parasols doivent donc être utilisés avec leur propre base séparée.

# Materialien und Wartung

Die Produkte von EMU werden aus Materialien mit hohen Qualitätsstandards und mit umweltverträglichen Produktionsprozessen hergestellt und sind für eine lange Haltbarkeit konzipiert. Die Produkte von EMU sind ideal für Veranden bzw. überdachte oder halb überdachte Terrassen.**Zur Einsichtnahme der Datenblätter zur Materialpflege die Website [www.emu.it](http://www.emu.it) heranziehen.**

## ABS

Bei ABS handelt es sich um ein thermoplastisches Technopolymer, das stabilisiert eine gute UV-Beständigkeit aufweist und somit für den Gebrauch im Freien geeignet ist. Es weist auch bei niedrigen Temperaturen gute mechanische Eigenschaften auf, ist hart, stoß- und kratzfest. Dank dieser Merkmale eignet es sich zur Nutzung in verschiedenen Bereichen, darunter in der Einrichtungsbranche.

**Wartung:** Das Produkt mit einem weichen, feuchten Lappen reinigen. Neutralreiniger verwenden, am besten mit Wasser verdünnt. Keine Reiniger verwenden, die Alkohol, Trichlorethylen, Ammoniak und Lösungsmittel im Allgemeinen, selbst in kleinsten Mengen, enthalten.

## ALUMINIUM

Aluminiumlegierungen, besonders geeignet für Kaltbearbeitung und Druckguss, mit entsprechender Behandlung zum Schutz gegen Witterungseinflüsse und mit Pulverbeschichtung.

**Wartung:** Um das Produkt lange in gutem Zustand zu erhalten, raten wir, eine regelmäßige, korrekte Reinigung vorzunehmen, die an Orten mit hoher Luftfeuchtigkeit und Meeresklima besonders häufig erfolgen sollte. Wir empfehlen, die Oberflächen mit Wasser oder neutralen Reinigern und einem weichen Tuch zu säubern. Längere, ununterbrochene Aussetzung der Produkte aus Aluminium gegenüber starker UV-Strahlung oder sehr niedrigen Temperaturen kann sich auf die ursprünglichen Eigenschaften der Farbbeschichtung aus Polyester nachteilig auswirken. Wir raten, die Produkte bei längerer Nichtbenutzung und im Winter zu reinigen und an geschützten Orten aufzubewahren.

## BAMBUS

Bambus ist ein rasch nachwachsender Rohstoff, dessen Ernte keine Entwaldung verursacht. Nach der Ernte wird die äußerste Schicht entfernt und die Bambuslamellen werden anhand eines speziellen Hitzebehandlungsverfahrens bei 200°C modifiziert, wodurch die Stabilität des Materials erhöht, dessen Schutz gegen Pilzbefall verbessert und die höchstmögliche Dauerhaftigkeitsklasse erreicht wird. Nach der Druck- und Hitzebehandlung sind die Bambusfasern robuster und härter als jede beliebige Holzsorte. Mit diesem besonderen Verfahren wird ein massiver, witterungsfester Tisch mit hoher Dichte erzielt.

**Wartung:** Das Material ist unbeschichtet und naturbelassen, weshalb es anfällig für Flecken ist und, wenn es im Freien steht, zum Oxidieren und infolgedessen zur Graufärbung neigt. Um diesen beiden Problemen entgegenzuwirken, empfiehlt es sich, das Produkt mindestens einmal pro Jahr mit Öl zu behandeln. Gerade weil es sich um ein Naturprodukt handelt, ist eine Entfernung von Flecken, die einmal ins Material eingedrungen sind, nicht mehr möglich. Eine Oberflächenbehandlung vor dem Gebrauch der Materialien verbessert die Möglichkeit, Flecken vor dem Aufsaugen zu entfernen, in einem gewissen Maße. Was hingegen die normale Reinigung und Hygiene der Oberfläche betrifft, genügt es, Wasser und neutrale Reinigungsmittel zu verwenden.

## EDELSTAHL

Edelstahl AISI 316 glänzend.

**Wartung:** Achtung!

a) Für Teile aus Edelstahl folgende Produkte NICHT VERWENDEN:

- Chlorbleiche oder solche enthaltende Reinigungsmittel (können eine Korrosion des Edelstahls verursachen);
- Salzsäure oder Chlorid enthaltende Produkte (können eine Korrosion des Edelstahls verursachen);
- b) Salz, Kalk oder Säure (Kaffee, Wein, Orangensaft, Tomatensaft, Zitrone usw.) können die Teile aus Edelstahl ausbleichen, wenn sie nicht sofort gereinigt werden.
- c) Wenn Produkte oder Teile aus Edelstahl in Meeresnähe oder bei der Inneneinrichtung von Schwimmbädern

verwendet werden, müssen sie häufiger gereinigt werden, um Chloridablagerungen zu entfernen und die Korrosion und Verätzung der Außenfläche zu verhüten.

d) Flecken oder Rost an der Oberfläche des Edelstahl müssen sofort entfernt werden.

e) Nicht entfernte Flecken können mit der Zeit bleibend werden.

f) Rost kann den Edelstahl angreifen oder tief eindringen. Entfernung von Flecken oder Rost:

- Einen nicht abreibenden Edelstahlreiniger/Edelstahlpolitur verwenden;
- An einem unauffälligen Fleck testen, um sicherzustellen, dass das ursprüngliche Oberflächenfinish nicht beschädigt wird;
- Daran denken, in gerader Linie (nicht kreisförmig) zu reiben;
- Keine Scheuerpads verwenden;
- Mit reichlich sauberem Wasser nachspülen;
- Am Ende gut trocknen, um Streifen zu verhüten, immer in Faserrichtung reiben.

## ELASTISCHE GURTE

Durch Weben synthetischer Stoffe wie Propylenfasern (71%) und Fäden aus synthetischem Gummi (29%) erzielt, zur Verwendung im Freien geeignet.

**Wartung:** Den verlängerten Kontakt mit Fett- und/oder Farbstoffen vermeiden, die vom Material des Bezugs aufgenommen und nicht nur die Struktur des Garns beschädigen, sondern auch bleibende Flecken verursachen können. Keine Lösungsmittel oder lösungsmittelhaltige Reinigungsmittel verwenden (Aceton ist zu vermeiden). Wasser und flüssige, nicht scheuernde sowie farblose Reinigungsmittel mit einem neutralen PH-Wert verwenden. Das Reinigungsmittel eventuell einige Minuten einwirken lassen. Mit reichlich Wasser bei maximal 30 °C ausspülen. Bei der Verwendung von Druckgeräten muss die Spitze des Verteilers mindestens 60-70 cm von der Oberfläche des Produkts entfernt sein. Vorgang bei Bedarf wiederholen.

## EMU SYNTHETISCHE NETZ

Verbundwerkstoff bestehend aus PVC (45%), PP (40%) und PES (5%), hergestellt aus einem Doppelgarn aus Zwei-Garn "Jacquard", GG05, mit Eigenschaften, die für den Außen- und Innenbereich geeignet sind. Durch die Vereinigung der beiden Garne entsteht ein "synthetisches Netz", das sich weich anfühlt und hohe technische Eigenschaften gegen Mikroorganismen aufweist.

**Wartung:** Waschen Sie das Produkt von Hand bei einer Temperatur zwischen 30 und 40 °C mit einem neutralen Reinigungsmittel. Nach dem Waschen wird empfohlen, den Stoff an der frischen Luft und nicht im Trockner zu trocknen.

## EMU-TEX

Technisches Gewebe für den Außenbereich aus PVC-Garn (Polyvinylchlorid). Es ist außerordentlich robust und garantiert lange Haltbarkeit: maximale Beständigkeit gegenüber UV-Strahlen, Witterungseinflüssen, Feuchtigkeit und Temperaturschwankungen.

**Wartung:** Den verlängerten Kontakt mit Fett- und/oder Farbstoffen vermeiden, die vom Beschichtungsmaterial aufgenommen und nicht nur die Struktur des Garns beschädigen, sondern auch bleibende Flecken verursachen können. Häufige Reinigung: Wasser und flüssige, nicht scheuernde sowie farblose Reinigungsmittel mit einem neutralen PH-Wert verwenden. Das Reinigungsmittel eventuell einige Minuten einwirken lassen. Mit reichlich, maximal 30 °C warmem Wasser reinigen. Bei der Verwendung von Druckgeräten muss die Spitze des Verteilers mindestens 60-70 cm von der Oberfläche des Produkts entfernt sein. Vorgang bei Bedarf wiederholen. Regelmäßige und/oder außerordentliche Reinigung: Regenerierendes Fleckenmittel für PVC folgendermaßen verwenden: Vorgehensweise:

- As Fleckenmittel auf das verschnitzte Gewebe auftragen;
- 15-30 Minuten einwirken lassen;
- Die Flecken mit einer gewöhnlichen Wäschebürste mit Seidenborsten gründlich bürsten (das ist erforderlich, das der Schmutz ins Gewebe eingedrungen ist);
- Mit Leitungswasser abspülen (nach Möglichkeit mit einem Hochdruckreiniger; das Geräte mit ca. 60 cm vom Gewebe fernhalten, um es durch den hohen Druck nicht

zu beschädigen);

- Vorgang bei Bedarf wiederholen.

Hinweis: Das Produkt nicht auf den lackierten Teilen auftragen.

## FEINSTEINZEUG

Dank seiner hervorragenden physikalischen und mechanischen Eigenschaften ist Feinsteinzeug besonders zum Verlegen im Freien geeignet, ist es doch besonders witterungs- und UV-beständig. Es ist des Weiteren wasser- und ölabweisend. Feinsteinzeug wird durch einen Syntheseprozess aus keramischem Ton, Feldspat, Kaolin und Sand hergestellt. Diese Rohstoffe werden gemahlen und atomisiert, bis man eine gleichmäßige, zum Pressen geeignete Körnung erhält. Das Material wird bei 1150-1250 °C ca. 25-30 Minuten lang gebrannt, um die Keramisierung zu erhalten und das Material somit abriebfest zu machen.

**Wartung:** Feinsteinzeug lässt sich problemlos reinigen und bedarf keiner besonderen Pflege und Instandhaltung. Wir empfehlen die Reinigung mit einem feuchten Lappen mit Wasser und Neutralreiniger, anschließend nachspülen und mit einem trockenen Tuch trocknen. Beim Nachspülen darauf achten, dass es zu keinen Kalk- oder Schmutzablagerungen kommt.

## GEHÄRTETES KRISTALLGLAS

Gehärtetes Kristallglas gemäß der internationalen Norm BS 6206, unter Beachtung der Norm BS 7376 hergestellt.

**Wartung:** Die Glasplatten sind einfach zu reinigen und erfordern keine besondere Pflege. Wir empfehlen, ein mit Wasser befeuchtetes Tuch und ein neutrales Reinigungsmittel zu verwenden, anschließend spülen und mit einem trockenen Tuch abtrocknen. Darauf achten, an der beschichteten Oberfläche der Platte (falls vorhanden) keinen Abrieb zu erzeugen. Wenn das verwendete Wasser übermäßig viel Kalk oder andere Mineralsalze enthält, die beim Trocknen hartnäckige Ränder oder Streifen hinterlassen, können anstelle eines neutralen Reinigungsmittels handelsübliche Glasreiniger verwendet werden, jedoch nicht für lackierte oder beschichtete Oberflächen.

## HPL

Selbsttragendes Material, für Außenbereiche geeignet. Es besteht aus Kraftpapierschichten, die mit Phenolharzen imprägniert sind, und einer dekorativen oberflächenschicht, die mit wärmehärtenden Harzen imprägniert ist. Diese Schichten werden mit 9 Mp bei einer Temperatur von 150 °C gepresst.

**Wartung:** Das HPL Laminat ist leicht zu reinigen und erfordert keine besondere Pflege. Die meisten Flecken können mit Wasser ausgewaschen und mit einem sauberen, weichen Tuch getrocknet werden. Für hartnäckige Flecken einen Schwamm und einen Spezialreiniger für Lamine oder einen Glasreiniger verwenden. Die Rückstände dieser Produkte mit einem trockenen Tuch entfernen, um Streifen und stumpfe Stellen zu vermeiden. Wir raten, die Produkte an einer unauffälligen Stelle zu testen. Stahlwolle, Scheuercreme, Pulverreiniger oder Aceton sollten nicht verwendet werden.

## KUNSTLEDER

Das Kunstleder wird aus im Polyurethanbad kompakterter Nylon-Mikrofaser hergestellt. Anschließend wird es mit gleichfarbigem Polyurethan bestrichen.

**Wartung:** Für die korrekte Reinigung wird ein weiches, mit Wasser getränktes Tuch empfohlen. Falls erforderlich, neutrale Produkte für die Reinigung auf ein weiches Tuch geben. Anschließend alle Rückstände mit einem weichen, mit Wasser getränkten Tuch entfernen. Es wird außerdem empfohlen, keine Reinigungsmittel direkt auf die Verkleidung aufzutragen und sie nicht mit künstlichen Wärmequellen (Haartrockner, Heizgeräte usw.) zu trocknen. Kunstleder ist ein Material, das sich im Laufe der Zeit mit kleinen Spuren anreichern kann, die von seiner Verwendung zeugen und den Charme und das Aussehen des Produkts bei normalem Gebrauch auszeichnen.

## MIKROFASER

100% PES-Multifilament, besonders beständig gegen den täglichen Gebrauch im Nubuk-Aspekt für hochwertige und langlebige Komponenten, gekennzeichnet durch das Weben von Polyesterfasern mit einem Titer von 1 dtex oder weniger.

**Wartung:** Waschen Sie das Produkt von Hand bei einer Temperatur zwischen 30 und 40 ° C mit einem neutralen Reinigungsmittel. Nach dem Waschen wird empfohlen, den Stoff an der frischen Luft und nicht im Trockner zu trocknen.

## STAHL

Eisen-Kohlenstoff-Legierung mit Kohlenstoffgehalt unter 2%, exklusiver Korrosionsschutz EMU-Coat zur Beständigkeit gegenüber Witterungseinflüssen.

**Wartung:** Um das Produkt lange in gutem Zustand zu erhalten, raten wir, es im Winter in geschlossenen, trockenen Räumen aufzubewahren, damit Kondenswasserbildung vermieden wird. Falls die Produkte in Meeresnähe aufbewahrt werden, empfehlen wir, vor Beginn des Winters die Oberflächen aus Metall alle drei Monate mit Wasser oder Reinigungsmittel und einem weichen Tuch zu säubern und mit Vaselineöl oder Autowachs zu schützen. Mit reichlich Wasser abspülen. Die Verwendung von scheuernden Reinigungsmitteln und Bürsten ist zu vermeiden. An lackierten Oberflächen empfiehlt sich regelmäßiges Wachsen des Rahmens mit hochwertigem Autoliessigwachs oder einem im Handel erhältlichen Schutzprodukt, um zur Beibehaltung bzw. Wiederherstellung des Oberflächenglanzes der Lackierung beizutragen. Schutzprodukte sind im Eisenwarenhandel oder ähnlichen Geschäften erhältlich. Vorsicht am Meer: Bei der Verwendung in mariner Umgebung kann sich Salz in „Spalten“ am Produkt ansammeln und von dort aus rasch die Lackierung angreifen. In Schwimmbadumgebung kann sich hingegen Chlor auf der Lackschicht ansammeln und diese beschädigen. In beiden Umgebungen können wiederholte Kondensations- und Verdunstungsvorgänge zur Ansammlung dieser korrosiven und aggressiven Substanzen vor allem in Spalten am Produkt führen. Die regelmäßige Reinigung mit milder, biologisch abbaubarer Flüssigseife und Wasser sorgt dafür, dass diese konzentrierten Ablagerungen entfernt und die Oberflächenbeschichtung des Möbelstücks entsprechend obigen Anweisungen geschützt wird. Instandhaltungsintervall:

- Aggressive Umgebung (Meer, Industriegebiete, Schwimmbäder): alle 3 Monate;
- Durchschnittliche Umgebung (städtischer Raum): alle 6 Monate;
- Belastungsarme Umgebung (ländliche Gebiete): alle 12 Monate.

Bei Tischen empfiehlt es sich, diese nicht mit direkt aneinander anliegenden Tischplatten wegzustellen und sie an trockenen, gut belüfteten Orten einzulagern, um die Entstehung von Kondensat zu vermeiden.

## SYNTHETISCHES SEIL

Doppelgeflecht mit Polyesterkerne oder Nylon und Verkleidung aus Polypropylen-Multifilament. Die äußere Faserschicht ist wasserabweisend und UV-beständig.

**Wartung:** Zur korrekten Pflege verwenden Sie Neutralreiniger und einen nicht scheuernden Lappen. Falls das Seil am gewählten Produkt als Geflecht vorliegt, ist dieses mit neutraler Seife und Druckwasserstrahl zu reinigen.

## SYNTHETISCHE STOFFE

**Acryl:** Unter Acrylgewebe versteht man eine Faser, deren Grundelement eine zu 85% aus Acrylnitril bestehende Polymerkette ist. Die Acrylfaser vereint die ästhetischen Eigenschaften eines luxuriösen Gewebes, dessen Körper und Tastgefühl der Wolle ähnlich sind, mit funktionellen Eigenschaften wie Beständigkeit gegenüber Witterungseinflüssen: Sie ist UV-beständig, wird nicht fleckig und modert nicht, wenn sie nass wird, da sie schnell wieder trocknet.

**Olefin:** ist eine Faser, die aus Polyolefinen stammt. Olefin hat eine weiche und leichte Textur aber ist es gleichzeitig elastisch, langlebig und eignet sich für verschiedene Anwendungen, hauptsächlich Außenbereich. Die lösungsgefärbte Stoffe machen die Färbung sehr widerstandsfähig gegen Waschen. Die wasserabweisenden Behandlungen garantieren zudem eine geringe Flüssigkeitsaufnahme.

**Polyester:** Eine Faser aus linearen Makromolekülen, die vorwiegend aus Polyethylenterephthalat bestehen. Sie besitzt hohe mechanische Eigenschaften: bruch-

und abriebfest, lichtbeständig, wasserabweisend, keine dauerhafte Verformung, sehr gute elastische Erholung.

**Polypropylengewebe:** Dabei handelt es sich um in der Regel sehr feine Faser mit hoher Oberflächenspannung, dank derer das Wasser durchlaufen und schnell abfließen kann. Resistenz und Dauerhaftigkeit gehören zu den wichtigsten Vorteilen dieses Materials, das auch eine gute Wärmedämmung gewährleistet.

**Gewebe 88% Acryl und 12% Polyester:** Mischgewebe der beiden genannten Fasern.

**Exclusive-Gewebe:** Informationen zur Zusammensetzung der Stoffe dieser Preisklasse sowie zu deren spezieller Instandhaltung werden auf der Website [www.emu.it](http://www.emu.it) gegeben oder können bei [info@emu.it](mailto:info@emu.it) oder beim zuständigen Vertriebsbüro erfragt werden.

**Wartung:** Alle Stoffe können leicht unterschiedliche Farbtöne aufweisen, da sie aus unterschiedlichen Produktionslosen stammen oder anderen Lichtverhältnissen ausgesetzt sind. Dies darf nicht als Mangel gelten, sondern ist ein typisches Merkmal dieses Produkts. EMU verwendet die fortschrittlichsten, in der Textilbranche verfügbaren Technologien für die Schaffung von Außenmöbeln. Unsere Materialien sind beständig gegenüber Spritzwasser, UV-Strahlen, Salz und Schweiß, ohne ihre strukturellen Merkmale und den gebotenen Komfort zu verlieren. Nach Regen empfiehlt es sich, die Möbel mit einem Tuch zu trocknen, um der Entstehung von Feuchtigkeitflecken und Schimmel vorzubeugen. Zur Verlängerung des Lebensdauers der Produkte empfiehlt EMU, diese bei längerer Nichtverwendung (z.B. über Herbst und Winter) oder Dauerregen in einem geschlossenen, gut belüfteten Ort zu lagern und zum Schutz vor Staub und Schmutz mit Tüchern abzudecken. Dabei ist sicherzustellen, dass sie trocken ins Lager gebracht werden. Die Abdeckungen/Überzüge werden für die Verwendung im Freien empfohlen, jedoch nicht über längere Zeiträume, und sie dürfen nicht als Alternative für die Überwinterung der Produkte in einem geeigneten Lagerraum angesehen werden. Bei Regen ist stets zu prüfen, dass keine Feuchtigkeit zwischen Überzug und Produkt entsteht, um Schimmelbildung zu vermeiden. Da es sich bei den Überzugstoffen um Textilprodukte handelt, ist das Vorhandensein von Restfeuchtigkeit möglich, was zu Schimmel führen kann. Alle Materialien entsprechen den strengsten Qualitätsstandards für die Verwendung im Freien und die Stoffe sind rasch trocknend und pflegeleicht. Eine längere Berührung dieses Gewebes mit Fett- und Farbstoffen, die vom Verkleidungsmaterial aufgesaugt werden und dadurch dauerhafte Flecken sowie die Abnutzung der Garnstruktur verursachen könnten, ist zu vermeiden. Bei Nutzung am Meer oder in der Nähe von Schwimmbädern wird ein regelmäßiges Waschen empfohlen. Häufiges Waschen: Für jedes Material den auf dem Etikett aufgeführten spezifischen Anweisungen folgen. Mit Wasser und nicht scheuernden, farblosen und pH-neutralen Flüssigwaschmitteln waschen. Gegebenenfalls das Waschmittel einige Minuten wirken lassen. Mit reichlich Wasser bei einer Temperatur von höchstens 30°C ausspülen. Bei Verwendung von Druckgeräten, die Spitze des Diffusors in einer Entfernung von mindestens 60-70 cm von der Produktoberfläche halten. Bei Bedarf den Vorgang wiederholen. Keine Kratzschwämme für das Entfernen von Flecken verwenden. Nicht bleichen. Nicht mit Chlor behandeln.

## TEAK

Traditionell bei Möbeln für den Außenbereich verwendetes Holz mit unvergänglichem, exotischem Reiz. Teak ist ein hartes Holz mit hohem Ölgehalt und zur Verwendung im Freien geeignet, ohne lackiert oder beschichtet werden zu müssen. Wenn es keiner Schutzbehandlung unterzogen wird, bildet sich auf der Oberfläche eine silbergraue Patina, die einen natürlichen Schutz des inneren Teils des Holzes darstellt und als wesentliches Element für den Reiz von Teakholz gilt. Das zur Herstellung von EMU Produkten verwendete Teak ist FSC® zertifiziert.

**Wartung:** Da es sich um ein natürliches Material handelt, können Farbabweichungen zwischen den einzelnen Produkten oder zwischen den Bestandteilen desselben Produkts auftreten. Bei plötzlichen Temperatur- und Feuchtigkeitsschwankungen können auch Risse auftreten.

Ohne Pflege durch regelmäßiges Auftragen üblicher und spezieller Schutzmittel auf Ölbasis, bildet sich auf der Oberfläche eine silbergraue Patina, die auch durch leichtes Abschleifen und anschließendes Polieren mit einem Jutetuch entfernt werden kann. Kleine oberflächliche Flecken von Öl, Kaffee, Säften, Getränken und anderen Lebensmitteln müssen umgehend mit Wasser und einem weichen Tuch entfernt werden, bevor sie tief in das Holz dringen. Bei Restflecken empfiehlt es sich, die Oberfläche abzuschleifen und mit einem Jutetuch zu polieren. Wenn das Holz zum ersten Mal nass wird, ist es normal, dass die Oberfläche beim Trocknen etwas rau wird. Die anfängliche Glätte kann durch leichtes Abschleifen der Oberfläche und anschließendes Polieren mit einem Jutetuch wiederhergestellt werden. Teakholz ist ein natürliches Material, das Wasser absorbiert und reich an Ölen ist. Im Laufe der Zeit steigen diese Öle durch einen natürlichen Prozess an die Oberfläche und können die eventuell benutzten Kissen verschmutzen. Flecken auf Kissen können mit Wasser und Seife entfernt werden.

## TERRACOTTA

Es handelt sich um eine poröse, weiß oder farbig beschichtete Tonmasse, die sich nach dem Brennen durch ihre Stabilität, Alterungsbeständigkeit und Leichtigkeit auszeichnet.

**Wartung:** Terracotta lässt sich problemlos reinigen und bedarf keiner besonderen Pflege und Instandhaltung. Wir empfehlen die Reinigung mit einem feuchten Lappen mit Wasser und Neutralreiniger, anschließend nachspülen und mit einem trockenen Tuch trocknen. Beim Nachspülen darauf achten, dass es zu keinen Kalk- oder Schmutzablagerungen kommt.

## WPC

WPC ist ein Verbundwerkstoff, der aus Holzfasern und HDPE besteht. Halbfabrikate aus WPC werden mittels Extrudieren des Verbundwerkstoffs hergestellt. Es ist ein gegen UV-Strahlen, Witterung und Feuchte beständiges Material. WPC splittert nicht ab und kann weder von Bakterien noch von Insekten beschädigt werden. Es ist ein leicht instand zuhaltendes Material. Eine Schutzlackierung ist nicht nötig.

**Wartung:** Für die optimale Erhaltung im Freien wird empfohlen, das Produkt regelmäßig zu reinigen:

- Staub und Schutt: Einen Staubsauger benutzen, um Schmutz und Schutt zu entfernen;
- Dreckflecken: Mit einer Waschbürste, neutraler Seife und lauwarmem Wasser reinigen;
- Ölflecken: Mit einem Papiertuch umgehend betupfen und den Fleckenbereich mit lauwarmem Wasser und neutraler Seife reinigen. Von der Verwendung von Hochdruckreinigern wird abgeraten, da diese das Produkt beschädigen könnten. Von der Verwendung von Bleichmitteln oder Chlorreinigern wird ebenfalls abgeraten. Keine stark sauren oder alkalischen Reinigungsmittel verwenden. Neutrale und idealerweise mit Wasser verdünnte Reinigungsmittel verwenden.

## DEN UNSACHGEMÄSSEN GEBRAUCH

Wie z.B.:

- Sitzmöbel nicht als Hocker, Leiter, Tischbock, Turmgerät oder ähnliches zweckentfremden;
- Nicht auf den Stuhlbeinen gaukeln. Nicht auf die Rücken- oder Armlehnen setzen. Die Sitzmöbel nicht mit Gewicht über 120 kg belasten;
- Kinder bei der Benutzung der Sitzmöbel überwachen. Die Sitzmöbel aus dem Verkehr ziehen, falls Beschädigungen bemerkt werden, um Verletzungen der Benutzer zu vermeiden. Die Sitzmöbel dürfen nicht umgewandelt oder abgeändert werden, denn dies könnte ihre Funktionstüchtigkeit beeinträchtigen und führt in jedem Fall zum Erlöschen der Garantie;
- Tische nicht als Leiter oder Stützbock verwenden. Nicht auf Tische steigen. Tisch nicht mit einem Gewicht über 40 kg belasten;
- Die Produkte nicht mit nicht-atmungsaktiven Materialien abdecken (z.B. Planen oder Tischdecken aus PVC, Nylon usw.). Mangelnde Atmung kann irreversible Schädigungen der Oberflächenbeschaffenheit des Produkts verursachen.

## WICHTIGE HINWEISE

Glas, Keramik, Metall oder harten Materialien in direktem

Kontakt mit der Lackbeschichtung kann diese irreparabel beschädigen/zerkratzen. Es wird empfohlen, die Tischplatten mit einem Baumwolltuch oder einem anderen Material zu schützen. Das Möbelstück, wenn es nicht mehr gebraucht wird, umweltfreundlich entsorgen, d.h. von einem Entsorgungsbetrieb für Wertstoffe und Abfälle zur Müllhalde oder zur Wiederverwertungstelle bringen lassen. Um das Produkt lange in gutem Zustand zu erhalten, raten wir, es im Winter in geschlossenen, trockenen Räumen aufzubewahren, damit Kondenswasserbildung vermieden wird. Um das Produkt lange in gutem Zustand zu erhalten, raten wir, es im Winter in geschlossenen, trockenen Räumen aufzubewahren, damit Kondenswasserbildung vermieden wird. Beim Einlagern und Stapeln die in den offiziellen Broschüren von EMU angegebene maximale Anzahl aufeinander stapelbarer Einheiten nicht überschreiten. Zu hohe Stapel können eine Sicherheitsgefahr darstellen und außerdem die Wahrscheinlichkeit von Abrieb und Verschleiß der Rahmenlackierung erhöhen. Genauere

Angaben zur maximalen Stapelhöhe sind auf der Website [www.emu.it](http://www.emu.it) einsehbar.

Um die Wasserstagnation auf Tische mit Vollplatte aus Stahl, Aluminium, HPL und Steinzeug bei Regen zu vermeiden, empfehlen wir die Wasseransammlung sofort trocknen oder den Tisch neigen, um den Wasserabfluss zu gewährleisten.

#### **Sitzmöbel**

Falls an den Sitzmöbeln ungleich lange Beine vorhanden sind, weil diese auf unebenen Flächen aufgestellt waren, genügt es zum Wiederherstellen der ebenen Ausrichtung das längere Bein einzuklopfen.

#### **Tischplatten Blech - Eisen**

Die Platten sind mit einer Geradheitsabweichung nach unten gefertigt, um zu verhindern, dass sich während des Gebrauchs ein „Federeffekt“ einstellt. Diese Eigenschaft ist ein Qualitätsmerkmal für das Produkt. Die Plattenoberfläche ist konkav.

#### **Tischplatten aus Holz und HPL-Laminat**

Die Platten aus diesen Materialien können sich bei wechselnden Wetterverhältnissen verformen, weshalb sich Unterschiede in der Ausrichtung der Produktkomponenten ergeben können.

#### **ERSATZTEILE**

Falls Sie abgenutzte Fußkappenabdeckungen oder andere Kunststoffteile ersetzen müssen, wenden Sie sich bitte an einen EMU-Händler.

## Bezugsrichtlinien

Unsere Gartenmöbel werden unter Einhaltung der mechanischen und allgemeinen sicherheitstechnischen Anforderungen entworfen und getestet, die von den geltenden europäischen Rechtsvorschriften für diesen Sektor vorgesehen sind.

Alle getesteten Produkte erreichen die Contract-Stufe, d.h. die höchste in den geltenden Rechtsvorschriften festgelegte Stufe. Sie eignen sich deshalb nicht nur für den Privatgebrauch (niedrigere Stufen Camping und Hausgebrauch), sondern auch für die gewerbliche Contract-Nutzung (Kollektivnutzung an öffentlichen Orten wie Restaurants, Hotels, Swimmingpools). Die Typenprüfung unserer Produkte wird vom Institut CATAS vorgenommen.

#### **RICHTLINIEN UNI EN 581-2**

#### **MECHANISCHE UND SICHERHEITSTECHNISCHE ANFORDERUNGEN FÜR SITZMÖBEL**

##### **Statische Belastung Sitz- und Rückenlehne**

Sitz: Anwendung einer Belastung von 600 N auf der Sitzfläche für 10 Zyklen je 10 Sekunden und für 1 Zyklus von 30 Minuten.  
Rückenlehne: Anwendung einer Belastung von 560 N auf der Rückenlehne für 10 Zyklen je 10 Sekunden und für 1 Zyklus von 30 Minuten.

##### **Dauerfestigkeit der Rückenlehne**

Für 50.000 Zyklen wird die Sitzfläche mit 1000 N und die Rückenlehne mit einer alternierenden Kraft von max. 100 N belastet.

##### **Belastung der vorderen Sitzfläche**

Für 10 Zyklen wird die vordere Sitzflächenkante für 10 Sekunden mit 130 N belastet und für 1 Zyklus von 30 Minuten.

##### **Stossfestigkeit des Sitzes**

Ein spezieller seat impactor wird 10 Mal aus einer Höhe von 180mm fallen gelassen.

##### **Vertikale Belastung der Armlehnen**

Die Armlehnen werden vertikal mit 900 N belastet.

##### **Dauerfestigkeit der Armlehnen**

Die Armlehnen werden für 30.000 Zyklen einer Kraft von 400 N ausgesetzt.

##### **Statische Belastung der Vorderbeine**

Bei einer Gleichgewichtsmasse von 100 kg auf die Sitzfläche wird eine vordere Horizontalkraft von 400 N ausgeübt.

##### **Statische Belastung der seitlichen Beine**

Bei einer Gleichgewichtsmasse von 100 kg wird eine vordere Horizontalkraft von 300 N ausgeübt.

##### **Dauerschwingfestigkeit bei Klappstühlen und / oder verstellbaren Stühlen**

Für 20.000 Zyklen wird die Sitzfläche mit 100 kg und die beiden oberen Enden der Rückenlehne mit 250 N sowie das Zentrum der Rückenlehne mit einer alternierenden Kraft von 100 N belastet.

#### **EN-NORM 581-3**

#### **MECHANISCHE UND SICHERHEITSTECHNISCHE ANFORDERUNGEN FÜR TISCHE**

##### **Stabilität**

An gem. der Norm festgelegten Punkten werden Kräfte ausgeübt, deren Werte von den Massen der Tischplatte und von der vorgesehenen Stufe der mechanischen Anforderungen abhängt.

##### **Widerstand**

An gem. der Norm festgelegten Punkten auf der Tischplatte und der Verlängerungen, falls vorhanden, werden Kräfte von 1000 N e 350 N für 10 Zyklen mit einer Dauer von 10 Sekunden und für 1 Zyklus für die Dauer von 30 Minuten ausgeübt.

##### **Horizontale Dauerfestigkeit**

An 4 je nach geometrischer Typologie (rund, oval, rechteckig, quadratisch) gem. der Norm festgelegten Punkten am Tischplattenrand werden Kräfte von 150 N für 20.000 Zyklen ausgeübt.

Die mit einer Bohrung für die Einführung eines Schirmstamms ausgestatteten Tische dienen nicht als Schirmständer; es muss daher ein separater Schirmfuß vorgesehen werden.

# Materiales y mantenimiento

Los productos de la línea EMU, realizados con materiales con los más altos niveles de calidad y con procesos productivos respetuosos del medio ambiente, se han concebido para durar mucho tiempo. Los productos EMU son ideales para porches y terrazas cubiertas y semicubiertas. **Para ver las fichas de mantenimiento de los materiales, consulte el sitio web [www.emu.it](http://www.emu.it)**

## ABS

El ABS es un tecnopolímero termoplástico que, una vez estabilizado, resiste bien a las radiaciones UV y por lo tanto se puede emplear en el exterior. Presenta buenas características mecánicas también a bajas temperaturas y posee una elevada dureza, resistencia al choque y al rayado. Dichas características lo hacen ideal para usos en diferentes sectores, entre ellos el de la decoración.

**Mantenimiento:** limpiar el producto con un paño suave y mojado. Utilizar detergentes neutros, mejor si son diluidos en agua. No utilice detergentes que contengan alcohol, tricloroetileno, amoníaco y solventes en general, aunque sea en pequeñas cantidades.

## ACERO

Aleación de hierro y carbono, con porcentaje de carbono inferior al 2%, tratada para resistir a los agentes atmosféricos con el exclusivo proceso antioxidante EMU-Coat.

**Mantenimiento:** para mantener el producto en buenas condiciones durante mucho tiempo, recomendamos conservarlo durante el invierno, en un lugar cerrado y seco, para evitar la formación de condensación. Si los productos se conservan en proximidad del mar, antes de la estación invernal y con cadencia trimestral, se recomienda limpiar las superficies de metal con un paño suave, utilizando agua o detergentes y protegerlos con aceite de vaselina o cera para coches. Enjuague bien. Evite el uso de limpiadores y cepillos abrasivos. Para los acabados pintados, recomendamos encerar periódicamente el chasis con cera líquida para automóviles de alta calidad o un protector disponible en el mercado para ayudar a mantener y/o restaurar el brillo del acabado. Los protectores se pueden comprar en ferreterías o tiendas similares. Cuidado con el mar: Durante el uso en el mar, la sal puede acumularse en las "grietas" del producto, lo que provoca un rápido deterioro de la pintura. En áreas con piscina, el cloro puede acumularse en el acabado, causando un rápido deterioro del mismo. En ambos ambientes, los ciclos repetidos de condensación seguidos de evaporación pueden causar la acumulación de estos productos corrosivos y agresivos, especialmente en las grietas del producto. La limpieza regular con agua y jabón líquido suave y biodegradable eliminará los depósitos concentrados y ayudará a proteger el acabado de los muebles según las instrucciones anteriores. Intervalos de mantenimiento:

- ambientes agresivos (áreas marinas, áreas industriales, piscinas) : cada 3 meses;
- ambientes medio-agresivos (zonas urbanas) : cada 6 meses;
- entornos de baja agresión (áreas naturales) : cada 12 meses.

En el caso de las mesas, se recomienda no almacenarlas colocando las tapas en contacto directo entre sí y almacenar los productos en lugares secos y ventilados para evitar la formación de condensación.

## ACERO INOXIDABLE

Acero INOXIDABLE aisi 136 brillante.

**Mantenimiento:** ¡Atención!

- a) NO UTILICE los productos siguientes en partes de acero:
  - lejía o detergentes que contienen lejía (pueden corroer el acero inoxidable);
  - ácido clorhídrico o productos que contienen cloruro (pueden corroer el acero inoxidable).
- b) La sal, la cal o el ácido (de café, vino, zumo de naranja, zumo de tomate, limón, etc.) pueden decolorar las partes de acero inoxidable, sino se limpian inmediatamente.
- c) Los productos o partes de acero inoxidable que se utilizan cerca del mar o en la decoración de interior de piscinas, necesitan limpiezas más frecuentes para eliminar los depósitos de cloruro y prevenir la corrosión y el ataque químico de la superficie externa.

d) Las manchas o herrumbre que se presentan en la superficie de acero inoxidable deben limpiarse inmediatamente.

e) Las manchas que se dejan durante mucho tiempo pueden hacerse permanentes.

f) La herrumbre puede atacar químicamente o excavar el acero inoxidable.

Eliminación de manchas o herrumbre:

- aplique un detergente/polish no abrasivo específico para el acero inoxidable;
- pruebe primero en una mancha poco llamativa para asegurarse de que el acabado superficial original no se altera;
- acuérdesse de frotar en sentido lineal (no de manera circular);
- no utilice tampones abrasivos;
- aclare abundantemente con agua limpia;
- al final, seque bien para prevenir rayas, frotando en el sentido de las fibras.

## ALUMINIO

Aleaciones de aluminio especialmente idóneas para el trabajo en frío y para el moldeado a presión, tratadas convenientemente para resistir a los agentes atmosféricos, pintura en polvo.

**Mantenimiento:** para mantener el producto en buenas condiciones durante mucho tiempo recomendamos realizar periódicamente una limpieza correcta, especialmente frecuente en lugares caracterizados por una humedad elevada y clima marino. Se recomienda limpiar las superficies con un paño suave, utilizando agua o detergentes neutros. La exposición prolongada e ininterrumpida a radiaciones intensas de UV o a temperaturas muy rígidas puede alterar las características iniciales del revestimiento estético de color, que es de poliéster. Recomendamos limpiar y conservar los productos en un lugar resguardado durante los períodos que no se utilice e invernales.

## BAMBU

El bambú es un material de rápido crecimiento que se cosecha sin causar deforestación. Después de la cosecha, se retira la capa más externa y se modifican las láminas de bambú con un proceso especial de termotratamiento de 200°, que aumenta la estabilidad del material, asegura la protección del material contra los hongos y garantiza la clase de durabilidad más alta posible. Después del proceso de compresión de calor, las fibras de bambú son más fuertes y duras que cualquier otra especie de madera existente. Este proceso especial da como resultado un tablero macizo de alta densidad y resistente a la intemperie.

**Mantenimiento:** al ser un material natural no tratado, puede mancharse y expuesto al exterior, se oxida y por lo tanto tiende al color gris. Para reducir los dos efectos mencionados anteriormente, recomendamos aplicar aceite al menos una vez al año. Precisamente porque es un producto natural, la eliminación de las manchas una vez que éstas hayan penetrado no es factible; el tratamiento de la superficie antes de la utilización de los materiales aumentaría un mínimo la posibilidad de intervención para la eliminación antes de la absorción. Mientras que para la limpieza ordinaria y el saneamiento de las superficies es suficiente utilizar agua y detergentes neutros.

## CORREA ELÁSTICA

Obtenida mediante el tejido de materiales sintéticos como fibras de propileno (71%) e hilos de goma sintética (29%), hace que pueda utilizarse para exteriores.

**Mantenimiento:** evite el contacto prolongado con sustancias grasas y/o colorantes que podría absorber el material de recubrimiento de las correas dando lugar a manchas permanentes, además de deteriorar la estructura del tejido. No use disolventes ni detergentes a base de solventes (evitar la acetona). Utilice agua y detergentes líquidos no abrasivos con pH neutro e incoloros. En caso de ser necesario, deje actuar el detergente durante algunos minutos. Aclare con agua abundante a una temperatura no superior a 30 °C. En caso de utilizar aparatos a presión, mantenga el extremo del difusor a una distancia de al menos 60 / 70 cm de la superficie del producto. Si fuese necesario, repita la operación.

## CRISTAL TEMPLADO

Cristal temperado de conformidad con las normativas internacionales BS 6206 y fabricado respetando la normativa BS 7376.

**Mantenimiento:** las superficies de cristal se limpian con facilidad y no necesitan intervenciones especiales de mantenimiento. Recomendamos el uso de un paño humedecido con agua y detergente neutro, aclarar a continuación y secar con un paño seco. Preste atención en no provocar abrasiones en las superficies pintadas, donde estén presentes. Si el agua utilizada tiene una cantidad excesiva de cal u otras sales minerales que dejan halos o rayas resistentes a la fase de secado, pueden utilizarse productos comerciales específicos para el pulido del vidrio en lugar del detergente neutro, excepto en las superficies pintadas.

## CUERDA SINTÉTICA

Doble trenza construida con núcleo de poliéster o Nylon y revestimiento de propileno multifilamento. La fibra exterior de que está formada es impermeable y resistente a rayos UV.

**Mantenimiento:** se recomienda limpiar con productos neutros y un paño no abrasivo. Si la cuerda en el producto seleccionado se caracteriza por un tejido, limpie el tejido con un jabón neutro y una lavadora a presión.

## EMU MALLA SINTÉTICA

Material compuesto que consiste en PVC (45%), PP (40%) y PES (5%), y construido con un hilo doble en "Jacquard" de dos hilos, GG05, con características adecuadas para uso en exteriores e interiores. La unión de los dos hilos crea una "malla sintética" suave al tacto, con altas cualidades técnicas contra los microorganismos.

**Mantenimiento:** lave a mano el producto a una temperatura entre 30 y 40 ° C con detergente neutro. Después del lavado, se recomienda secar la tela al aire libre, no en la secadora.

## EMU-TEX

Es un tejido técnico para exteriores realizado con hilo de policloruro de vinilo. Es excepcionalmente sólido, lo que asegura su larga duración: máxima resistencia a los rayos ultravioletas, a los agentes atmosféricos, a la humedad y a los cambios bruscos de temperatura.

**Mantenimiento:** evite el contacto prolongado con sustancias grasas y/o colorantes, ya que podrían ser absorbidas por el material de revestimiento y dejar manchas permanentes, además de deteriorar la estructura del tejido. Lavados frecuentes: utilice agua y detergentes líquidos no abrasivos con pH neutro e incoloros. De ser necesario, deje actuar el detergente durante algunos minutos. Enjuague con agua abundante a una temperatura no superior a 30 °C. Si se utilizan aparatos a presión, mantenga la punta del difusor a al menos 60 / 70 cm de distancia de la superficie del producto. Si fuese necesario, repita la operación. Lavados periódicos y/o extraordinarios: utilice un quitamanchas regenerante para PVC, con el procedimiento siguiente.

Operaciones a realizar:

- aplicar el quitamanchas en el tejido sucio;
- dejar actuar el producto durante 15-30 minutos;
- frotar las zonas manchadas con un cepillo normal de lavar la ropa con cerdas duras (es necesario, ya que la suciedad se encuentra dentro del tejido);
- enjuagar con agua corriente (si es posible utilizar una limpiadora a presión, manteniendo una distancia de unos 60 cm para que el tejido no se estropee con la alta presión);
- si fuese necesario, repetir las operaciones.

Nota: cuando aplique el quitamanchas, tenga cuidado con no aplicarlo en las partes pintadas del producto.

## GRES PORCELÁNICO

El gres porcelánico, gracias a sus excelentes propiedades físicas y mecánicas, es ideal para exteriores, ya que es inatacable por los agentes atmosféricos e inalterable a los rayos UV. Gracias a sus cualidades es hidrorrepelente y oleorrepelente. El gres porcelánico se obtiene mediante un proceso de síntesis de arcillas cerámicas, feldespatos, caolines y arena. Estas materias primas son trituradas y atomizadas para obtener una granulometría homogénea adecuada para el prensado. La cocción se realiza a 1150-

1250 °C durante 25-30 minutos para que se produzca la ceramización de la mezcla y la consiguiente adquisición de la resistencia a la abrasión característica de este material.

**Mantenimiento:** las superficies de gres se limpian fácilmente y no requieren un mantenimiento especial. Para limpiar el producto recomendamos utilizar un paño humedecido con agua y detergente neutro, y después enjuagarlo y secarlo con un paño seco. Tenga mucho cuidado durante el aclarado para evitar que se acumule la cal y la suciedad.

#### HPL

Material autoportante apto para ser colocado en exterior. Está formado por capas de papel Kraft impregnadas con resinas fenólicas y por una capa superficial decorativa impregnada con resinas termo-endurecedoras. Estas capas están prensadas a 9 Mp y a una temperatura de 150 grados centígrados.

**Mantenimiento:** el laminado HPL es fácil de limpiar y no necesita un mantenimiento especial. La mayor parte de las manchas se puede lavar solo con agua y se puede secar con un paño suave y limpio. Para manchas resistentes use una esponja y un detergente específico para laminados, o bien detergentes para vidrios. Elimine los restos de estos productos con un paño seco para evitar rayas u opacidades. Se aconseja probar siempre cualquier producto en un ángulo poco visible. Evite usar esponjas de acero, productos con cremas abrasivas, detergentes en polvo o acetona.

#### MICROFIBRA

Multilamento 100% PES particularmente resistente al uso diario, en aspecto nubuck, para componentes de alta calidad y larga duración, caracterizados por el tejido de fibras de poliéster que tienen un título igual o inferior a 1 dtex.

**Mantenimiento:** lave a mano el producto a una temperatura entre 30 y 40 ° C con detergente neutro. Después del lavado, se recomienda secar la tela al aire libre, no en la secadora.

#### POLIPIEL

La polipiel está realizada con microfibra de nylon compactada en baño de poliuretano. Después se le aplica poliuretano de color en la superficie.

**Mantenimiento:** para una correcta limpieza se recomienda utilizar un paño suave embebido en agua. Si fuera necesario, aplicar productos neutros sobre un paño suave y limpiar; al terminar la operación, quitar los posibles residuos siempre con un paño suave embebido en agua. Además, se recomienda no aplicar productos de limpieza directamente en el revestimiento y no secar con fuentes de calor artificial (secadores de pelo, radiadores, etc.). La polipiel es un material que, con el paso del tiempo, puede adquirir pequeñas marcas que son testimonio de su uso y que caracterizan el encanto y el aspecto estético del producto en su utilización normal.

#### TECA

Madera tradicional utilizada para la decoración de exteriores, fascinante, exótica, duradera, la teca es una madera dura con alto contenido en aceite e idónea para el uso en exteriores sin necesidad de tratamiento con barnices. Si no recibe ningún tratamiento de protección, en la superficie se crea una fina película de color gris plata, que sirve de protección natural de la parte interna de la madera y que se considera un elemento esencial de su atractivo. La teca utilizada para los productos EMU posee el certificado FSC®.

**Mantenimiento:** tratándose de un material natural, se podrían observar variaciones de color entre un producto y otro o entre los componentes de un mismo producto. En caso de bruscos cambios de temperatura y humedad, además, podrían verificarse también grietas. Si no recibe ningún tratamiento de mantenimiento a través de la aplicación periódica de protectores comunes y específicos a base de aceite, la superficie adquirirá una pátina gris plata que puede ser eliminada incluso con un ligero lijado superficial y posterior pulido con paño de yute. Las pequeñas manchas superficiales de aceite, café, zumos, bebidas y otros productos alimenticios deben quitarse inmediatamente con agua y un paño suave, antes de que la madera pueda absorberlas en profundidad. En caso de manchas residuales, se recomienda proceder con el

lijado de la superficie afectada y pulir con un paño de yute. Cuando la madera se moja por primera vez es normal que la superficie se ponga un poco áspera cuando se seca y el pulido inicial puede recuperarse con un ligero lijado superficial y un posterior pulido con paño de yute. La teca es un material natural que absorbe el agua y es rico en aceites. Con el paso del tiempo, estos aceites, por un proceso natural, vuelven a salir a la superficie y pueden manchar los cojines que se haya utilizado. Las manchas en los cojines pueden eliminarse utilizando agua y jabón.

#### TEJIDOS SINTÉTICOS

**Tejido acrílico:** es una fibra cuyo elemento básico es una cadena de polímeros compuesta en un 85% por acrilonitrilo. La fibra acrílica aúna las cualidades estéticas de un tejido lujoso, que posee una corporeidad y un toque parecidos a los de la lana, con las cualidades funcionales de resistencia a los agentes atmosféricos: es resistente a los rayos UV, no se mancha y no se pudre con el agua, gracias a su velocidad de secado.

**Tejido olefina:** fibra sintética que procede de la poliolefina. La olefina tiene una textura suave y ligera pero al mismo tiempo es fuerte, duradera y apta para muchos empleos, especialmente para el utilizo al exterior. Los tejidos son tintados en masa garantizando la resistencia del color a los lavados. Los tratamientos hidrófugos aplicados también garantizan una baja absorción de líquidos.

**Tejido poliéster:** es una fibra formada por macromoléculas lineales constituidas principalmente por tereftalato de polietileno. Sus características mecánicas son excelentes: es resistente a la rotura, a la luz, a la abrasión, no se deforma de manera permanente, su recuperación elástica es muy elevada y es hidrorrepelente.

**Tejido polipropileno:** se trata de fibras en general sumamente finas con una elevada tensión superficial gracias a la que el agua consigue pasar a través de él y defluye rápidamente. Resistencia y duración se cuentan entre las principales ventajas que ofrece este material, que garantiza además un buen aislamiento térmico.

**Tejido 88% acrílico, 12% poliéster:** tejido mixto de las dos fibras mencionadas.

**Tejidos Exclusive:** para obtener información sobre la composición de los tejidos incluidos en esta gama y el mantenimiento específico, consulte el sitio web [www.emu.it](http://www.emu.it) o póngase en contacto con [info@emu.it](mailto:info@emu.it) o con la oficina de ventas correspondiente.

**Mantenimiento:** Todos los tejidos pueden mostrar tonos ligeramente diferentes ya que provienen de distintos lotes de producción o tienen una exposición diferente a la luz. Esto no debe considerarse un defecto sino una característica del producto. EMU utiliza las tecnologías más avanzadas de la industria textil para crear muebles de exteriores. Nuestros materiales son resistentes a las salpicaduras de agua, a los rayos UV, a la sal y al sudor sin perder sus características estructurales y de confort. Es aconsejable, después de la lluvia, secar los muebles con tela para evitar la formación de manchas de humedad y moho. Para mejorar la longevidad de los productos, EMU recomienda almacenarlos, en caso de períodos prolongados de no utilización (por ejemplo, otoño/invierno) o de lluvia incesante, en un lugar cerrado, ventilado y seco, cubriéndolos con paños para mantenerlos en condiciones óptimas y protegerlos del polvo y la suciedad. Antes de almacenarlos, asegúrese de que estén perfectamente secos. Se recomienda el uso de cubiertas/fundas en el exterior, pero no por períodos prolongados. Las cubiertas no deben considerarse como una alternativa al almacenamiento invernal de los productos. En caso de lluvia, compruebe siempre que no se cree humedad entre la cubierta y los productos para evitar posibles mohos, ya que, al estar hechos con tejidos, la presencia de humedad residual es posible y puede causar mohos. Todos los materiales cumplen las normas de calidad más estrictas para su uso en el exterior y los tejidos son de secado rápido y fáciles de mantener.

Evite el contacto prolongado con sustancias grasas y/o colorantes que el material de revestimiento podría absorber y dar lugar a manchas permanentes, así como deteriorar la estructura del hilado. Si utiliza el producto cerca del mar o al borde de piscinas se aconseja un lavado periódico. En caso de lavados frecuentes: siga

las instrucciones específicas para cada tipo de material que encontrará en la correspondiente etiqueta. Utilice agua y detergentes líquidos no abrasivos con PH neutro e incoloros. Eventualmente deje actuar el detergente durante algunos minutos. Enjuague con abundante agua a temperatura no superior a los 30°C. Si Ud. utiliza dispositivos a presión, mantenga la punta del difusor a una distancia de al menos 60/70 cm de la superficie del producto. Si fuera necesario repita la operación. No utilice esponjas abrasivas para desmanchar y no lo trate con lejía o cloro.

#### TERRACOTA

Se trata de una cerámica de pasta porosa con revestimiento blanco o de colores que tras el proceso de cocción adquiere estabilidad, resistencia al envejecimiento y ligereza.

**Mantenimiento:** la terracota se limpia fácilmente y no requiere un mantenimiento especial. Para limpiar el producto recomendamos utilizar un paño humedecido con agua y detergente neutro, y después enjuagarlo y secarlo con un paño seco. Tenga mucho cuidado durante el aclarado para evitar que se acumule la cal y la suciedad.

#### WPC

El WPC es un material compuesto por fibras de madera y HDPE. Los productos semiacabados se obtienen extruyendo el compuesto. Es un material resistente a los rayos UV, a los agentes atmosféricos y a la humedad. El WPC no se astilla y los insectos o bacterias no lo dañan.

**Mantenimiento:** para conservar el producto al aire libre en forma óptima se aconseja limpiarlo periódicamente:

- en caso de polvo y detritos: use una aspiradora para remover suciedad y detritos;
- en caso de manchas de suciedad: limpie con un cepillo de colada usando jabón neutro y agua tibia;
- en caso de manchas de aceite: tempestivamente, con un tapón de papel absorbente páselo sobre la mancha y luego limpie la zona con agua tibia y jabón neutro.

Se recomienda no usar hidrolimpiadoras porque podrían dañar el producto. Se recomienda no usar lejía o detergentes a base de cloro. No use detergentes con alto índice de acidez o de alcalinidad. Utilice detergentes neutros, mejor todavía si los disuelve en el agua.

#### EVITAR LOS USOS INAPROPIADOS

Como por ejemplo:

- no use los asientos como taburete, escalera, caballete, aparato de gimnasia o similares;
  - no se balancee sobre las patas. No se siente en el respaldo. No se siente en los apoyabrazos. No cargue los asientos con más de 120 kg de peso.
  - tenga cuidado con los niños cuando usen los asientos. Deje de utilizar los asientos cuando se observen daños, para evitar lesiones y chichones al usuario.
- Los asientos no deben ser transformados o modificados. Esto puede perjudicar su funcionalidad e invalidar los derechos de garantía.
- no use las mesas como escalera o caballete. No se suba a las mesas. No cargue las mesas con más de 40 kg de peso.
  - no cubra los productos con lonas no transpirables (por ejemplo, manteles de PVC, nylon, etc.). La falta de transpiración causa daños irreparables al acabado del producto.

#### ADVERTENCIAS

El uso de vidrio, cerámica, metal o materiales duros en contacto directo con la pintura puede dañarla / rayarla irreparablemente. Se recomienda proteger las tapas con un paño de algodón u otro material en el uso diario. Al final de su uso, no abandonar el mueble en el medio ambiente, sino contactar a las empresas de recogida de residuos sólidos y urbanos para su transporte al vertedero o reciclaje.

Para mantener el producto en buenas condiciones durante mucho tiempo, recomendamos conservarlo durante el invierno, en un lugar cerrado y seco, para evitar la formación de condensación. Al almacenar y apilar, no exceda el número de unidades apilables indicado por los materiales oficiales de EMU. Las alturas excesivas pueden ser un peligro para la seguridad y pueden aumentar el potencial de roce y el consiguiente desgaste del acabado

del cuadro. Para aclarar el número máximo de unidades apilables, por favor visite el sitio web [www.emu.it](http://www.emu.it). Para evitar el estancamiento del agua en caso de lluvia, en todo tipo de mesas con superficie del sobre llena (metal, aluminio, HPL y gres) es recomendable eliminar prontamente la acumulación secándola o inclinando la mesa para facilitar el flujo.

#### Sillas y butacas

Si aparecen en la superficie de los asientos de uso superficies irregulares, sencillamente golpee delicadamente la pata más larga para restaurar el plano.

#### Tapas de mesa de chapa - hierro

Las tapas están realizadas con un ligero desplazamiento del sobre hacia abajo para evitar que durante el uso se cree un efecto «resorte». Dicha característica se deberá considerar como un valor agregado del producto. La superficie de la tapa resulta cóncava.

#### Tapas de mesas de madera y laminado HPL

Las tapas que utilizan estos materiales están sujetas a deformarse con el cambio de las condiciones climáticas, para lo tanto es posible que se creen diferencias de alineación entre los diferentes componentes que conforman el producto.

#### PIEZAS DE REPUESTO

En caso de que necesite reemplazar las patas gastadas de mesa ó silla ó cualquier otro componente de plástico, comuníquese con un distribuidor de EMU.

## Normativa de referencia

Nuestros muebles para exterior se proyectan y someten a tests según los requisitos mecánicos y generales de seguridad y los métodos de prueba previstos por la normativa europea vigente para el sector.

El nivel de prestación adoptado es el "Contract", es decir, el más alto previsto para la actual normativa que habilita nuestros muebles para uso, no sólo privado, sino también profesional en lugares de acceso público como bares, restaurantes, hoteles y piscinas.

La homologación de las pruebas realizadas en nuestros productos se efectúan en el instituto CATAS.

#### NORMAS UNI EN 581-2

##### REQUISITOS MECÁNICOS DE SEGURIDAD Y MÉTODOS DE PRUEBA PARA ASIENTOS

##### Carga estática en asiento y respaldo

Asiento: se aplica una fuerza de 2000 N en el asiento en 10 ciclos mantenida durante 10 segundos y 1 ciclo mantenida 30 minutos.

Respaldo: se aplica una fuerza de 560 N en el respaldo en 10 ciclos mantenida durante 10 segundos y 1 ciclo mantenida 30 minutos.

##### Resistencia a la fatiga del asiento-respaldo

Se aplica una fuerza en el asiento de 1000 N y alternativamente una fuerza de vuelco en el respaldo de máx 100 N por un total de 50000 ciclos.

##### Carga estática en el borde frontal del asiento

Se aplica una fuerza de 130 N en el borde frontal en 10 ciclos mantenida durante 10 segundos y 1 ciclo mantenida 30 minutos.

##### Resistencia al impacto del asiento

Un seat impactor especial se hace caer 10 veces desde una altura de 180 mm.

##### Carga estática vertical en los brazos

Se aplica plano el brazo una fuerza vertical de 900 N.

##### Resistencia a la fatiga de los brazos

Se aplica plano los brazos una fuerza de 400 N por un total de 30000 ciclos.

##### Carga estática en las patas delanteras

Aplicando una masa de equilibrio de 100 KG se aplica una fuerza horizontal delantera de 400 N.

##### Carga estática en las patas laterales

Aplicando una masa de equilibrio de 100 KG se aplica una fuerza horizontal delantera de 300 N.

##### Resistencia a la fatiga alterna para asientos plegables y/o reclinables

Se aplica plano el asiento una masa de 100 KG, plano los dos extremos del respaldo una fuerza alternada de 250 N y alternativamente un momento de vuelco en el centro del respaldo de 100 Nm por un total de 20000 ciclos.

#### NORMAS UNI EN 581-3

##### REQUISITOS MECÁNICOS DE SEGURIDAD Y MÉTODOS DE PRUEBA PARA MESAS

##### Estabilidad

Se aplican fuerzas en puntos preestablecidos y con valores que dependen de las medidas del plano y del nivel de requisitos mecánicos previsto.

##### Carga estática vertical plano la mesa y plano las extensiones

Se aplican fuerzas en puntos preestablecidos del plano y de las extensiones, si las hubiera, de 1000 N e 350 N respectivamente en 10 ciclos mantenidas durante 10 segundos y 1 ciclo mantenidas 30 minutos.

##### Fatiga horizontal

Se aplican 4 fuerzas alternas de 150 N en 20000 ciclos en puntos plano el borde del plano preestablecidos en función del tipo geométrico.

Nuestras mesas que permiten la inserción de un parasol no pueden sostenerlo, por lo que éste debe usarse con una base propia separada.

# Condizioni di vendita

## 1. Definizioni

Nelle presenti condizioni generali di vendita ("Condizioni Generali"), il termine "Venditore" indica EMU Group S.p.A., "Cliente" indica l'acquirente dei Prodotti indicato nella relativa fattura di vendita, "Prodotti" indica i prodotti descritti nel suddetto documento e "Territorio" indica lo Stato nel quale i prodotti verranno consegnati dal Venditore.

## 2. Ordini e perfezionamento del contratto

a) Con la sottoscrizione dell'ordine, il Cliente dichiara che gli articoli commissionati sono conformi a quelli di cui ha preso visione sia nel catalogo che presso i punti vendita aziendali, senza possibilità quindi di contestare successivamente eventuali difformità di articoli tra quanto commissionato e quanto ricevuto.

b) Ciascun contratto per la vendita di Prodotti tra le parti si intenderà perfezionato nel momento in cui il Cliente riceverà una conferma d'ordine del Venditore ("Conferma d'Ordine"). Qualsiasi offerta o preventivo inviato dal Venditore al Cliente in relazione ai Prodotti (in qualsiasi forma gli stessi siano comunicati) deve intendersi comunque soggetto alle Condizioni Generali.

c) Le Condizioni Generali sono le uniche condizioni applicabili in relazione alla vendita dei Prodotti e, ferme restando le eventuali disposizioni inderogabili di legge, si applicano con esclusione di ogni altra condizione implicita o esplicita.

d) Le Condizioni Generali (congiuntamente "Contratto") costituiscono l'intero accordo tra le parti in relazione alla vendita dei Prodotti e sostituiscono ogni precedente promessa, dichiarazione o obbligazione tra le stesse. Le Condizioni Generali potranno essere derogate o modificate solo a seguito di accordo scritto tra Cliente e Venditore.

## 3. Variazione di prezzo

Il Venditore si riserva il diritto di modificare, mediante semplice comunicazione scritta al Cliente in qualsiasi momento precedente la ricezione, da parte del Cliente stesso, della Conferma d'Ordine, il prezzo di vendita dei Prodotti ("Prezzo di Vendita") per includere nello stesso ogni incremento dei costi delle materie prime, della produzione, delle confezioni, del trasporto o della manodopera.

## 4. Pagamento

a) Salvo ove diversamente stabilito dal Venditore, il pagamento integrale del Prezzo di Vendita deve essere effettuato entro la data indicata nella rispettiva fattura.

b) Nel caso di pagamento dilazionato nel tempo il mancato rispetto anche di una sola delle rate alla scadenza pattuita comporterà la decadenza del Cliente da beneficio del termine, con conseguente diritto di EMU Group S.p.A. di sospendere le eventuali forniture in corso e chiedere il pagamento dell'intero prezzo. In tal caso gli importi già versati saranno trattenuti da EMU Group S.p.A. a titolo di rimborso spese e risarcimento danni per l'inadempimento contrattuale.

c) Tutti i pagamenti dovranno essere effettuati nel rispetto dei termini e delle modalità previsti nel Contratto. In caso di ritardato pagamento delle fatture matureranno a carico del Cliente, senza necessità di costituzione di mora, interessi in misura pari al tasso di interesse del principale strumento di finanziamento della Banca Centrale Europea applicato alla sua più recente operazione di rifinanziamento, maggiorato di 7 punti percentuali ai sensi del D.Lgs. N.231/2002.

d) Fermo restando quanto sopra, nel caso in cui i pagamenti non venissero effettuati nel rispetto dei termini previsti nelle Condizioni Generali, il Venditore avrà il diritto di sospendere la consegna dei Prodotti ordinati dal Cliente, fintantoché non venga effettuato dal Cliente il pagamento dello scaduto.

e) Nel caso in cui il pagamento dei Prodotti non venisse effettuato dal Cliente nel rispetto dei termini previsti nelle Condizioni Generali, e in assenza di rimedio entro il termine di sette (7) giorni dal ricevimento di una diffida ad adempiere, il Contratto sarà risolto, senza pregiudizio del diritto di EMU Group S.p.A. al rimborso di tutti i costi sostenuti per il recupero degli importi scaduti, incluse eventuali spese legali e giudiziali e il risarcimento del danno subito.

## 5. Consegna

a) I prezzi sono in Euro, comprensivi di IVA e trasporto. Il

listino prezzi è valido per tutti i Paesi dell'Unione Europea ad eccezione di Estonia, Lituania, Lettonia, Cipro, Malta, Romania, Ungheria, Polonia, Croazia, Repubblica Ceca e Repubblica Slovacca. Ogni ordine deve rispettare l'unità di imballo come indicato nel listino prezzi.

## CONDIZIONI DI TRASPORTO

Per ordini inferiori a 1.000,00 Euro netto un contributo per il trasporto verrà addebitato al cliente, (ad eccezione dei Paesi in cui diversamente specificato). Per Norvegia, Svezia, Finlandia e Danimarca i termini di consegna saranno specificati separatamente. Per la Svizzera verrà applicata la resa DDP IVA esclusa, che sarà a carico del Cliente. Per le isole i costi di trasporto saranno definiti in fase di conferma dell'ordine.

b) I termini di consegna sono indicativi e il Venditore non sarà responsabile per eventuali perdite o danni subiti a causa del mancato rispetto degli stessi.

c) In caso di ricezione di imballi danneggiati è necessario:

1) indicare nel documento di trasporto il numero di imballi danneggiati e la nota "Accettato con riserva per collo danneggiato";

2) comunicare l'elenco degli imballi e di eventuali prodotti danneggiati a EMU Group S.p.A. entro 48 ore con relativa documentazione fotografica.

Non si accettano reclami per danni dovuti al trasporto se non segnalati con la riserva dettagliata sopra menzionata.

## 6. Riserva di proprietà e rischio

a) Indipendentemente dalla consegna, il Venditore manterrà la proprietà dei Prodotti fino a quando il Venditore stesso non avrà ricevuto l'integrale pagamento del Prezzo di Vendita da parte del Cliente.

b) Il Cliente riconosce ed accetta che fino al momento in cui non verrà effettuato il pagamento integrale del Prezzo di Vendita, il Cliente sarà possessore dei Prodotti esclusivamente in qualità di depositario del Venditore e provvederà a conservare i Prodotti separatamente da altri prodotti e in maniera tale che gli stessi siano prontamente identificabili dal Venditore.

c) Nel caso in cui i Prodotti vengono consegnati ad un particolare indirizzo del Cliente, il Venditore potrà in qualsiasi momento antecedente alla vendita dei Prodotti e previa comunicazione al Cliente con congruo preavviso avere accesso ai luoghi in cui sono stati consegnati i Prodotti stessi per poter riprendere il possesso dei Prodotti in relazione ai quali il Venditore sia ancora proprietario. Il Cliente si impegna sin d'ora a fare quanto necessario per consentire al Venditore l'esercizio di tale diritto.

d) Le disposizioni di cui al presente articolo non possono essere interpretate nel senso di attribuire al Cliente il diritto di restituire i Prodotti o di rifiutare, rinviare o sospendere il pagamento degli stessi, salvo che non sia stato altrimenti stabilito tra le parti.

## 7. Garanzie

a) Il Venditore garantisce che al momento della consegna i Prodotti saranno esenti da vizi e risponderanno alle specifiche indicate dal Venditore stesso, purché tali Prodotti siano utilizzati dal Cliente per finalità conformi a quelle per cui tale tipologia di prodotti viene normalmente utilizzata. Nel caso in cui il Venditore non abbia comunicato alcuna particolare specifica in relazione ad un determinato prodotto, lo stesso, al momento della consegna, si intenderà rispondente agli ordinari standard qualitativi di mercato per prodotti industriali simili. Fermo restando quanto previsto all'articolo 7 (B) e, nel caso in cui un Prodotto non dovesse essere conforme alla garanzia di cui sopra, il Venditore, avrà diritto a propria discrezione, di:

1) sostituire i Prodotti o parti di essi non conformi, o

2) modificare i Prodotti per renderli conformi alle specifiche indicate dal Venditore o (a seconda del caso) a standard qualitativi di mercato per prodotti simili, o

3) ritirare i Prodotti non conformi e rimborsare totalmente il relativo Prezzo di Vendita.

b) La garanzia di cui sopra opererà a condizione che:

1) il Cliente abbia osservato le disposizioni del successivo articolo 9, per quanto applicabili;

2) il Cliente abbia comunicato per iscritto e documentato tramite foto su supporto tradizionale o digitale al Venditore

i vizi entro (i) 14 (quattordici) giorni dalla consegna dei Prodotti nel caso di vizi facilmente riconoscibili e entro (i) 14 (quattordici) giorni dalla scoperta di vizi occulti. L'azione del Cliente si prescriverà in ogni caso entro 2 (due) anni dalla consegna dei Prodotti;

3) il Cliente conceda al Venditore la possibilità di ispezionare, con modalità ragionevoli, i Prodotti;

4) il Cliente abbia cessato l'utilizzo di Prodotti non conformi dal momento della scoperta dei difetti dallo stesso dichiarati.

c) Fermo restando quanto previsto all'articolo 7 (A) che precede e fatte salve le eventuali disposizioni inderogabili di legge:

1) è espressamente esclusa qualsiasi altra garanzia, esplicita o implicita, in merito alle qualità, alla commerciabilità o all'idoneità dei Prodotti per fini specifici; e

2) il Venditore non sarà ritenuto responsabile per eventuali perdite o danni subiti dal Cliente a causa del difetto o del non funzionamento del prodotto non coperto dalla presente garanzia.

d) Il Venditore farà quanto ragionevolmente possibile per fornire al Cliente eventuali istruzioni, raccomandazioni e consigli per la conservazione, l'utilizzo dei Prodotti e le relative condizioni di impiego. Resta inteso che sarà responsabilità del Cliente assicurare che i Prodotti vengano utilizzati in conformità alle relative specifiche e modalità d'uso.

e) EMU Group S.p.A. non risponderà per difetti o danni ai propri prodotti derivanti da un uso e/o da una destinazione impropri degli stessi.

f) EMU Group S.p.A. si riserva di modificare le caratteristiche tecnico-costruttive dei propri prodotti, in funzione della evoluzione tecnologica dei sistemi di produzione e delle eventuali prescrizioni normative di riferimento.

## 8. Quantità

Il Cliente dovrà comunicare per iscritto al Venditore l'eventuale consegna di un quantitativo di Prodotti difforme (sia esso superiore o inferiore rispetto a quello originariamente ordinato dal Cliente stesso) entro e non oltre 8 (otto) giorni decorrenti dalla data di ricevimento della merce.

a) Nel caso in cui la quantità di Prodotti consegnata al Cliente dovesse essere inferiore alla quantità dallo stesso ordinata, il Cliente avrà il solo diritto di ottenere:

1) un quantitativo aggiuntivo di Prodotti; o

2) una riduzione del Prezzo di Vendita.

b) Nel caso in cui la quantità di Prodotti consegnata al Cliente dovesse essere superiore alla quantità dallo stesso ordinata, il Cliente

1) dovrà restituire il quantitativo di Prodotti consegnati in eccesso o

2) potrà trattenere l'intero quantitativo di Prodotti consegnato corrispondente all'intero Prezzo di Vendita degli stessi.

c) Resta comunque inteso che l'eventuale consegna di un quantitativo di Prodotti diverso rispetto a quello ordinato (sia esso superiore o inferiore) non darà diritto al Cliente di rifiutare la fornitura e che qualsiasi restituzione di Prodotti dovrà comunque essere preventivamente concordata ai sensi dell'articolo 10.

## 9. Comunicazione di vizi o mancata consegna

a) Eventuali reclami per vizi e/o difetti dei prodotti riscontrati dopo l'apertura degli imballi dovranno essere immediatamente comunicati via fax o via mail alla EMU Group S.p.A., nonché a mezzo raccomandata A.R. da inviare entro e non oltre 8 giorni dal ricevimento allegando, a pena di decadenza, gli estremi della bolla di consegna e della fattura di riferimento nonché foto su supporto digitale indicante la difettosità riscontrata.

b) Il Cliente dovrà comunicare per iscritto al Venditore ogni evento ritenuto coperto dalla garanzia di cui all'articolo 7 (A) entro e non oltre i termini di cui all'articolo 7 (B) (2), a pena di decadenza.

c) Il Cliente dovrà altresì comunicare per iscritto al Venditore l'eventuale consegna di un quantitativo di Prodotti difforme entro e non oltre i termini di cui all'articolo 8 a pena di decadenza ed ai fini dell'esercizio dei diritti.

d) Decorso il termine di cui all'articolo 9 (B) che precede, il quantitativo di Prodotti effettivamente consegnati al Cliente

si considererà dallo stesso definitivamente accettato. In tale circostanza il Cliente sarà pertanto obbligato a pagare integralmente il Prezzo di Vendita indicato nella fattura relativa ai Prodotti effettivamente consegnati.

## 10. Restituzione dei Prodotti

- In nessun caso un Prodotto potrà essere restituito al Venditore senza il preventivo consenso scritto di quest'ultimo.
- Il Prodotto deve essere restituito nel suo imballo originale. Resi non autorizzati saranno restituiti al mittente con addebito dei relativi costi di trasporto.

## 11. Diritti di proprietà intellettuale - Utilizzo Marchio e Immagini

11.1 In relazione alla proprietà intellettuale, il Venditore garantisce esclusivamente che la consegna e l'utilizzo dei Prodotti non violano alcun brevetto, disegno o modello industriale, diritto d'autore, marchio registrato o segreto aziendale di terzi esistenti nel Territorio alla data di consegna dei "Prodotti" (i "Diritti di Proprietà Intellettuale"). Il Venditore risarcirà al Cliente gli eventuali danni che lo stesso dovesse subire per effetto della violazione di tale garanzia. La garanzia non si applica, e pertanto il Cliente non avrà diritto a risarcimento alcuno, qualora si verifichi anche una sola delle seguenti ipotesi:

- il Venditore abbia adottato e seguito, per la fornitura dei Prodotti, istruzioni specifiche del Cliente che abbiano determinato una violazione dei Diritti di Proprietà intellettuale;
- la violazione dei Diritti di proprietà Intellettuale sia causata dall'utilizzo dei Prodotti con modalità, ovvero per finalità e in luoghi, non previamente specificati o altrimenti indicati per iscritto al Venditore;
- il Cliente non abbia tempestivamente informato il Venditore per iscritto dell'esistenza di contestazioni, reclami o azioni giudiziali (intraprese o minacciate) nei confronti del Cliente stesso e relativi ai Diritti di Proprietà Intellettuale; o
- il Cliente, pur avendo osservato quanto previsto al precedente punto 11.1 (C) non consenta al Venditore di assumere - a proprie spese - la gestione della lite o di partecipare ad eventuali transazioni.

11.2 Il Cliente garantisce che qualsiasi indicazione o specifica istruzione relativa alla fornitura dei Prodotti eventualmente fornita al Venditore, non causerà una violazione, da parte del Venditore, di Diritti di Proprietà Intellettuale di terzi, e si obbliga a risarcire tutti i danni che il Venditore dovesse subire nel caso tale violazione dovesse verificarsi.

11.3 Al fine di uniformare sul territorio nazionale l'immagine commerciale di EMU Group S.p.A., nonché la peculiarità del design e delle caratteristiche costruttive dei propri prodotti, mantenere la notorietà e il prestigio del marchio, il Cliente si impegna ad osservare quanto segue:

- l'utilizzazione, anche a scopo pubblicitario, sotto qualsiasi forma e con qualsiasi mezzo, del logo EMU e dell'immagine dei Prodotti, potrà essere effettuata solo previo consenso scritto di EMU Group S.p.A. ed alle condizioni vincolanti che saranno dalla stessa indicate; in caso contrario, EMU Group S.p.A. sarà autorizzata a sospendere senza preavviso le eventuali forniture in corso e a richiedere l'integrale pagamento del prezzo della fornitura anche per la parte non scaduta, salvo il risarcimento dei danni;
- eventuali vendite promozionali e sconti rispetto ai prezzi consigliati indicati nel listino dovranno essere preventivamente comunicati a EMU Group S.p.A.; il Cliente non potrà effettuare alcuna pubblicità o promozione dei Prodotti che possa essere pregiudizievole all'immagine di lusso e di alta qualità del marchio EMU [tra cui a titolo esemplificativo l'esposizione di (a) cartelli di sconti percentuali presentati in modo non coerente con il prestigio e l'immagine del marchio, (b) cartelli di confronto dei prezzi con prezzi barrati, salvo che siano prescritti dalla normativa sulla pubblicità nel Territorio; (c) pubblicità abbinata in cui i Prodotti sono mostrati con riduzioni di prezzo insieme ad altri prodotti con il marchio a prezzo pieno, il che può implicare che quei Prodotti sono di qualità inferiore o meno popolari];

11.4 Il Cliente è tenuto a comunicare altresì immediatamente ad EMU Group S.p.A. qualsiasi fatto o atto posto in essere da propri acquirenti di Prodotti che possano pregiudicare i

diritti di EMU Group S.p.A. collegati all'uso delle immagini a proprio marchio o del logo EMU. In mancanza di tempestiva notifica, il Cliente sarà tenuto personalmente responsabile di siffatta violazione e del danno subito da EMU Group S.p.A.

11.5 EMU Group S.p.A. per la commercializzazione dei Prodotti, al fine dichiarato di mantenere la notorietà e il prestigio del marchio, nonché, in ragione della qualità del Prodotto e dell'immagine aziendale della produttrice, e di garantire all'utilizzatore finale l'identità di origine del Prodotto contrassegnato dal marchio e un utilizzo corretto, nonché, tra l'altro, un elevato standard di professionalità nei soggetti distributori di detti prodotti che garantisca l'esperienza nel settore, si avvale di un sistema di distribuzione selettiva costituito da distributori/rivenditori autorizzati, negozi in franchising e Flag Store. Pertanto il Cliente si obbliga - anche in conformità a quanto previsto al riguardo dal Regolamento UE N. 2022/720 nonché negli Orientamenti sulle restrizioni verticali 2022/C 248/01 della Commissione Europea a (i) non vendere i Prodotti fuori dal Territorio e a rivenditori e/o distributori non autorizzati, in particolare, a non effettuare vendite a grossisti, collettività, rivenditori di partite in saldo, società di vendita per corrispondenza o che operano con il sistema di vendita porta a porta o domiciliare, salvo previo consenso scritto del concedente EMU Group S.p.A., nonché (ii) a garantire con opportuni provvedimenti il rispetto di tale disposizione da parte dei propri acquirenti.

11.6 In caso di violazione da parte del Cliente e/o dei propri acquirenti di uno dei suddetti obblighi o nel caso di ripetute violazioni che, nel loro insieme, costituiscono una violazione sostanziale del Contratto e in mancanza di rimedio entro sette (7) giorni lavorativi dal ricevimento di una diffida ad adempiere, EMU Group S.p.A. potrà cessare la fornitura e risolvere il Contratto con effetto immediato, dandone comunicazione al Cliente, senza pregiudizio del diritto al risarcimento del danno.

## 12. Vendita on-line

12.1 [Oltre ai locali dove il Cliente esercita la sua attività] la promozione e la vendita dei Prodotti potranno essere effettuate on-line, esclusivamente sul proprio sito e nel rispetto delle seguenti condizioni.

- È vietata qualsiasi (i) vendita su qualunque piattaforma terza o "marketplace" e (ii) vendita attiva fuori dal Territorio, vale a dire qualsiasi vendita on-line derivante da un approccio attivo effettuato tramite internet rivolto a utenti situati al di fuori del Territorio, come, ad esempio:
  - invio di e-mail rivolte a utenti o gruppi di utenti situati al di fuori del Territorio;
  - pubblicità on-line specificamente rivolta a utenti o gruppi di utenti situati al di fuori del Territorio;
  - banner pubblicitari inseriti in siti web di terzi, rivolti a utenti o gruppi di utenti situati al di fuori del Territorio;
  - inserzioni pubblicitarie nei motori di ricerca o attraverso un fornitore di pubblicità on-line rivolte a utenti o gruppi di utenti situati al di fuori del Territorio.

12.3. L'attività di promozione e vendita dei Prodotti on-line deve sempre essere coerente con la qualità, lo stile e il prestigio dei Prodotti e del marchio EMU Group S.p.A. ai sensi dell'articolo 11.

12.4. Il sito internet del Cliente deve sempre:

- offrire la possibilità all'utente di ottenere ogni informazione e/o consulenza riguardante le qualità, le specifiche e le modalità d'uso/installazione dei Prodotti,
- comunicare all'utente le sole informazioni e il solo materiale promozionale riguardanti i Prodotti forniti da EMU Group S.p.A.,
- offrire la migliore qualità di presentazione dei Prodotti, promuovere e pubblicare solo immagini e materiale riguardanti i Prodotti forniti da EMU Group S.p.A.

12.5 L'uso del marchio e del materiale protetto dai diritti di proprietà industriale e intellettuale di pertinenza di EMU Group S.p.A. è consentito al solo scopo di promuovere i Prodotti e il Cliente non può inserire il marchio nella denominazione del proprio sito web, salvo previa autorizzazione scritta di EMU Group S.p.A.

12.6 Il trattamento dei dati personali relativi agli utenti situati nell'Unione Europea deve avvenire nel rigoroso rispetto dei requisiti del Regolamento UE "GDPR" n.2016/679 del 27.4.2016.

12.7 In caso di violazione da parte del Cliente e/o dai propri acquirenti di uno dei suddetti obblighi o di ripetute violazioni che, nel loro insieme, costituiscono una violazione sostanziale del Contratto, e in mancanza di rimedio entro sette (7) giorni lavorativi dal ricevimento di una diffida ad adempiere, EMU Group S.p.A. potrà cessare la fornitura e risolvere il Contratto con effetto immediato dandone comunicazione al Cliente, senza pregiudizio del diritto al risarcimento del danno.

## 13. Forza maggiore

Il Venditore non sarà responsabile per eventuali perdite o danni causati dal ritardo nell'adempimento o dall'inadempimento delle proprie obbligazioni ai sensi del Contratto nel caso in cui gli stessi siano dovuti ad una qualsiasi causa che sia fuori dal proprio controllo, inclusi, a titolo esemplificativo e non esaustivo, pandemie, guerre, sommosse civili, ordine o divieto sopravvenuto imposto dalla normativa o da pubbliche autorità, regolamenti relativi alle importazioni o alle esportazioni, scioperi o agitazioni sindacali (relativi ai propri dipendenti o ai dipendenti di altri soggetti), difficoltà nel rintracciare personale o materiali, guasti di macchinari, incendi o incidenti. Nel caso in cui si verifichi uno qualsiasi di tali eventi, il Venditore ne informerà il Cliente quanto prima e le parti concorderanno nuove modalità contrattuali. Al termine di 30 giorni, senza modifica delle circostanze che hanno impedito l'adempimento dei suoi obblighi, EMU Group S.p.A. potrà risolvere il Contratto senza incorrere in alcuna responsabilità per qualsiasi perdita o danno derivanti da tale azione.

## 14. Cessazione del rapporto

Ove cessi il Contratto per qualsivoglia motivo:

14.1. il Cliente cesserà immediatamente:

- promuovere e vendere i Prodotti;
  - ogni e qualsiasi uso del marchio e dei diritti di proprietà intellettuale di EMU Group S.p.A.;
  - di presentarsi come rivenditore dei Prodotti nel Territorio;
- 14.2 Su richiesta di EMU Group S.p.A., il Cliente consegnerà immediatamente a EMU Group S.p.A. o a qualsiasi terza parte designata dal Venditore o distruggerà qualsiasi materiale promozionale in suo possesso o controllo.

## 15. Tasse

Il Prezzo di Vendita ed ogni altra somma dovuta al Venditore per la vendita dei Prodotti sono soggetti all'applicazione dell'Imposta sul Valore Aggiunto (qualsiasi nuova imposta applicabile alla vendita, produzione o trasporto dei Prodotti diversa da un'imposta sul reddito del Venditore) all'aliquota di volta in volta applicabile.

## 16. Cessione

I diritti e obblighi di cui al Contratto potranno essere ceduti in tutto o in parte dal Cliente solo con il preventivo consenso scritto del Venditore.

## 17. Legge applicabile - Foro competente

Il Contratto è governato a tutti gli effetti dalla legge italiana. Qualsiasi controversia comunque connessa al Contratto sarà soggetta alla competenza esclusiva del Foro di Perugia.

## 18. Forma delle comunicazioni

Tutte le comunicazioni dovranno essere effettuate unicamente a EMU Group S.p.A. al solo indirizzo della sede legale a mezzo lettera raccomandata a/r ovvero all'indirizzo pec della stessa: info@pec.emu.it

## 19. Codice etico e dati personali

Il codice etico e le modalità di trattamento dei dati personali sono specificati nel sito [www.emu.it](http://www.emu.it) al quale si rinvia.

Agosto 2024

# General conditions of sale

## 1. Definitions

In these general conditions of sale (the "General Conditions"), the term "Seller" indicates EMU Group S.p.A., "Customer" indicates the purchaser of the Products described in the relevant sales invoice, "Products" indicates the products described in the aforementioned document, and "Area" indicates the country where the products will be delivered by the Seller.

## 2. Orders and execution of the contract

- a) By signing the order, the Customer represents that the ordered items are consistent with the goods that were previously viewed both in the brochure and at the company's stores, thereby waiving any later complaints regarding inconsistencies between the goods ordered and delivered.
- b) Each contract for the sale of Products between the parties will be understood to take effect when the Customer receives an order confirmation from the Seller (the "Order Confirmation"). Any offer or estimate sent by the Seller to the Customer in connection with the Products (in whatever form they may be sent) must in any case be understood to be subject to the General Conditions.
- c) The General Conditions are the only conditions applicable in connection with the sale of the Products and, subject to any mandatory provisions of law, apply to the exclusion of any other implicit or explicit conditions.
- d) The General Conditions (collectively, the "Contract") constitute the entire agreement between the parties in connection with the sale of the Products and replace any previous promise, statement or obligation between them. The General Conditions may be waived or amended only following written agreement in this respect between the Customer and the Seller.

## 3. Price changes

The Seller reserves the right to change the sale price of the Products (the "Sale Price") simply by means of a written notice to the Customer at any time before the Customer receives the Order Confirmation, in order to include therein any increases in the costs of the raw materials, production, packaging, transport or labour.

## 4. Payment

- a) Except as otherwise established by the Seller, full payment of the Sale Price must be made by the date indicated in the relevant invoice.
- b) In the case of deferred payment, any failure to pay even a single instalment by the deadline agreed upon shall result in the Customer's forfeiture of said benefit, and EMU Group S.p.A. shall therefore be entitled to withhold any pending supplies and to request payment in full of the price. In such a case, any amounts already paid shall be retained by EMU Group S.p.A. as reimbursement for expenses and compensation of damages arising from the default of the contract.
- c) All payments shall be made in accordance with the terms and procedures set out in the Contract. In the event of late payment of the invoices, interest will accrue on the Customer's account with no need to give any notice in this respect, at the European Central Bank's main refinancing operations rate as applied to its most recent refinancing operation, increased by 7 percentage points pursuant to Italian Legislative Decree 231/2002.
- d) Without prejudice to the above, in the event that payments are not made in accordance with the terms set out in the General Conditions, the Seller will be entitled to withhold delivery of the Products ordered by the Customer until the missed payment is made.
- e) In the event that the Customer does not make payment for the Products in accordance with the terms set out in the General Conditions, and in the absence of a resolution within seven (7) days of receiving a notice of default, the Contract shall be terminated, without prejudice to the EMU Group S.p.A.'s right to have all costs it may have incurred in collecting the overdue amounts reimbursed, including any legal expenses or fees and compensation for any damages.

## 5. Delivery

- a) Prices are in Euros, including VAT and transport. The

Price list is valid for all Countries within the European Union except Estonia, Lithuania, Latvia, Cyprus, Malta, Romania, Hungary, Poland, Croatia, Czech Republic and Slovak Republic. Each order must respect the packing unit as stated in the price list.

### FREIGHT TERMS

For orders below 1.000,00 Euros, a freight contribution will be added on the invoice (except for the Countries where differently specified). For Norway, Sweden, Finland and Denmark the delivery terms will be specified separately. For Swiss will be applied the Incoterm DDP excl. VAT, which is at customer's charge. For the islands, the freight costs will be defined at the order confirmation.

- b) Delivery times are indicative and the Seller cannot be held liable for any losses or damage incurred due to failure to meet such conditions.
- c) If packages are received that are damaged, the following must be done:

- 1) indicate in the shipping document the number of damaged packages and the note "Accepted with reserve for damaged cartons";
  - 2) send the list of the packages and of any damaged products to EMU Group S.p.A. within 48 hours with related photographic documentation.
- Claims for damage due to shipping will not be accepted unless they are reported with the detailed reserve mentioned above.

## 6. Property rights and related risks

- a) Regardless of delivery, the Seller will retain ownership of the Products until the Seller has received full payment of the Sale Price from the Customer.
- b) The Customer acknowledges and accepts that, until such time as full payment of the Sale Price has been made, the Customer will hold the Products solely as a consignee for the Seller, and will arrange to keep the Products separately from any other products, in such a way that they can be promptly identified by the Seller.
- c) In the event that the Products are delivered to a specific address pertaining to the Customer, the Seller may at any time prior to the sale of the Products, with adequate prior notice given to the Customer, access the places to which the Products in question have been delivered, in order to re-take possession of the Products, of which the Seller is still the owner. The Customer undertakes here and now to do whatever is necessary in order to enable the Seller to exercise this right.
- d) Unless otherwise agreed between the Parties, the provisions of this clause may not be interpreted as attributing to the Customer the right to return the Products or to refuse, defer or withhold payment for them.

## 7. Warranties

- a) The Seller warrants that, at the time of delivery, the Products shall be free from flaws and meet the specifications indicated by the Seller, provided that the Products are used by the Customer for purposes conforming with those for which the type of Product in question is normally used. In the event that the Seller has not communicated any particular specifications with regard to a given Product, at the time of its delivery, it shall be understood to meet the ordinary market quality standards for similar industrial products. Without prejudice to the provisions of Article 7 (B), in the event that a Product fails to comply with the above warranty, the Seller will be entitled, at its own discretion, to:
  - 1) replace the Products or parts of them that fail to comply; or
  - 2) alter the Products so that they comply with the specifications indicated by the Seller or (as the case may be) with market quality standards for similar products; or
  - 3) withdraw the Products that do not comply and refund in full their Sale Price.
- b) The warranty referred to above will apply subject to the following conditions:
  - 1) that the Customer has complied with the provisions of Article 9 below, to the extent that they are applicable;
  - 2) that the Customer has informed the Seller in writing of the flaws and documented them by means of photographs on traditional or digital media, within (i) 14 (fourteen) days from

delivery of the Products in the event of easily recognisable flaws, and within (i) 14 (fourteen) days from the discovery of any hidden flaws. The Customer's right to take action will be time-barred in any case to 2 (two) years after delivery of the Products;

- 3) that the Customer grants the Seller the opportunity to inspect the Products, according to a reasonable procedure; and

- 4) that the Customer has ceased to use the Products that fail to comply starting from the time of discovery of the defects claimed by the Customer.

c) Subject to the provisions of Article 7 (A) above, and without prejudice to any mandatory provisions of law:

- 1) any other explicit or implicit warranty with regard to the quality, the saleability or the suitability of the Products for specific purposes is expressly excluded; and
- 2) the Seller will not be held liable for any losses or damages incurred by the Customer due to flaws or to the non-functioning of the Product if not covered by this warranty.

d) The Seller will do whatever is reasonably possible to provide the Customer with any instructions, recommendations and advice for preserving and using the Products and their conditions of use. It is understood that the Customer will be responsible for ensuring that the Products are used in accordance with the relevant specifications and instructions for use.

e) EMU Group S.p.A. shall not be held liable for any defects or damages caused to its own products from the improper use and/or application thereof.

f) EMU Group S.p.A. reserves the right to modify any of its products' technical-construction characteristics, in line with the technological evolution of the production systems and of the reference legal requirements, if any.

## 8. Quantities

The Customer shall inform the Seller in writing in the event of delivery of a quantity of Products differing from that originally ordered by the Customer (either larger or smaller), within 8 (eight) days at the latest from the date of receipt of the goods.

a) In the event that the quantity of Products delivered to the Customer is smaller than the quantity ordered by the Customer, the Customer will simply be entitled to receive:

- 1) an additional quantity of Products; or
- 2) a reduction of the Sale Price.

b) In the event that the quantity of Products delivered to the Customer is greater than the quantity ordered by the Customer, the Customer:

- 1) must return the quantity of Products delivered in excess; or
- 2) may retain the whole quantity of the Products delivered, subject to payment of the full Sale Price for same.

c) It is in any case understood that, in the event of the delivery of a quantity of Products differing from that ordered (larger or smaller), this will not entitle the Customer to refuse the delivery, and that if any Products are returned, this must in any case be agreed to beforehand in accordance with Article 10 below.

## 9. Notification of flaws or failure to deliver

a) Any complaint regarding flaws and/or defects in the products discovered after the packages are opened shall be immediately communicated to EMU Group S.p.A. by fax or email, as well as by registered letter with return receipt, to be sent within no more than 8 days from the delivery in question, attaching thereto, under pain of forfeiture, the details of the delivery note and of the relevant invoice as well as photographs saved on digital media showing the fault discovered.

b) The Customer shall inform the Seller in writing of any and all events deemed to be covered by the warranty in Article 7 (A) within the deadline according to Article 7 (B) (2) at the latest, under penalty of forfeiture of their rights.

c) The Customer shall also inform the Seller in writing of any delivery of an incorrect quantity of Products within the deadline according to Article 8 above at the latest, under penalty of forfeiture and for the purpose of exercising the relevant rights.

d) Once the deadline according to Article 9 (B) above has

elapsed, the quantity of Products actually delivered to the Customer will be considered accepted on a final basis. Under these circumstances, the Customer will therefore be obliged to pay the Sale Price indicated in the invoice for the Products actually delivered in full.

## 10. Return of the Products

a) Products may be returned to the Seller only with the latter's written authorisation.  
b) The Product must be returned in its original packaging. Unauthorised returns will be returned to the sender, charging the relative freight costs.

## 11. Intellectual property rights - Use of Brand and Images

11.1 With regard to intellectual property, the Seller guarantees solely that delivery and use of the Products do not breach any patents, designs or industrial models, copyrights, registered trademarks or business secrets of third parties existing in the Area as of the date of delivery of the "Products" (the "Intellectual Property Rights"). The Seller will indemnify the Customer for any damages incurred by the latter due to any breach of said guarantee. The guarantee does not apply, and therefore the Customer will not be entitled to any indemnification, in the presence of even a single one of the following criteria:

a. if the Seller has adopted and followed specific instructions from the Customer in supplying the Products, which have caused a breach of the Intellectual Property Rights;  
b. if the breach of the Intellectual Property Rights is caused by use of the Products in a manner or for purposes or in places not previously specified or otherwise indicated in writing to the Seller;  
c. if the Customer has not promptly informed the Seller in writing of the existence of objections, complaints or legal action (whether undertaken or threatened) against the Customer in connection with the Intellectual Property Rights; or  
d. if the Customer, in spite of having observed the provisions of point 11 (C) above, does not allow the Seller to take over — at its own expense — the management of the dispute or to take part in any transactions.

11.2 The Customer guarantees that any indication or specific instruction in connection with the supply of the Products that may have been provided to the Seller shall not cause the Seller to breach the Intellectual Property Rights of third parties, and undertakes to indemnify the Seller for any damages that the latter may incur in the event of such a breach.

11.3 In order to keep EMU Group S.p.A.'s corporate image consistent throughout the national area, as well as for the consistency of the design and construction characteristics of its products, and to preserve the reputation and prestige of the brand, the Customer undertakes to comply with the following:

a. the use of the EMU logo and of images of the Products, including for advertising purposes and in any form or through any medium, shall be subject to the written consent of EMU Group S.p.A. and any binding conditions set forth by the latter; in default thereof, EMU Group S.p.A. shall be entitled to withhold any pending supply without further notice and to request full payment of the price of the supply, including for any portion which is not yet overdue, without prejudice to its right to compensation for damages;  
b. any promotional sale or discounts on the recommended prices indicated on the price list must be communicated in advance to EMU Group S.p.A.; the Customer may not carry out any advertising or promotion of the Products which could be prejudicial to the luxury, high-quality image of the EMU brand (including, by way of example, displaying (a) posters showing a percentage discount presented in a way which is not compatible with the brand's prestige and image; (b) price-comparison posters with crossed-out prices, unless these are required by advertising legislation in the Area; (c) combined advertisements, in which the Products are displayed with price reductions along with other products featuring the brand at full price, which might imply that these Products are of lesser quality or less popular).

11.4 The Customer shall also notify EMU Group S.p.A.

immediately of any fact or action taken by its own purchasers of the Products which may compromise any rights belonging to EMU Group S.p.A., connected to the use of branded images or of the EMU logo. If prompt notification is not given, the Customer shall be held personally liable for the breach and for any damages incurred by EMU Group S.p.A.

11.5 EMU Group S.p.A. relies on a selective distribution system consisting of authorised retailers/distributors, franchised stores and Flag Stores for marketing the Products. This is for the express purpose of preserving the reputation and prestige of the brand, and of guaranteeing the final user the identity of origin of the Product distinguished by the trademark and its correct use, in consideration of the quality of the Product and of the producer's corporate image, as well as a high standard of professionalism among the distributors of said Products, guaranteeing experience in the sector, among other things. Therefore, the Customer undertakes — also in compliance with the relevant provisions of EU Regulation No. 2022/720 as well as the European Commission's Guidelines on vertical restraints (2022/C 248/01) — (i) not to sell the Products outside of the Area or to unauthorised retailers and/or distributors, and specifically, not to sell to wholesalers, buyers' collectives, discount stores, mail-order companies or door-to-door sales companies without prior written consent from the licensor EMU Group S.p.A., and (ii) to ensure, with the appropriate measures, its purchasers' compliance with said provision.

11.6 In the event of a breach by the Customer and/or by its purchasers of one of the above obligations, or in the event of repeated breaches which, as a whole, constitute a substantial breach of the Contract, and in the absence of a resolution within seven (7) working days of receiving a notice of default, EMU Group S.p.A. may suspend the supply and terminate the Contract with immediate effect, notifying the Customer thereof, without prejudice to its right to compensation for damages.

## 12. Online sales

12.1 [In addition to the sites where the Customer carries out its business,] the Products may be promoted and sold online, exclusively on the Customer's website and in accordance with the following conditions.

12.2 Prohibitions apply to: (i) sales on any third-party platform or marketplace; and (ii) active sales outside of the Area, i.e. any online sales resulting from an active approach taken through the internet and aimed at users located outside of the Area, such as, for example:

- sending emails targeted at users or groups of users located outside of the Area;
- online advertising targeted specifically at users or groups of users located outside of the Area;
- advertising banners placed on third-party websites, targeted at users or groups of users located outside of the Area;
- advertisements placed with search engines or through a supplier of online advertising, targeted at users or groups of users located outside of the Area.

12.3 Activities for the online promotion and sale of the Products must always be consistent with the quality, style and prestige of the Products and of the EMU Group S.p.A. brand, pursuant to Article 11.

12.4 The Customer's website must always:

- offer users complete information and/or advice regarding the quality, the specifications and the instructions for use/ installation of the Products;
- communicate to users only the information and promotional material regarding the Products which has been supplied by EMU Group S.p.A.;

- present the Products to the highest quality, promoting and publishing only the images and material regarding the Products which has been supplied by EMU Group S.p.A.

12.5 Use of the brand and of the material covered by the industrial and intellectual property rights belonging to EMU Group S.p.A. is permitted for the sole purpose of promoting the products, and the Customer may not include the brand in the title of its own website without the prior written authorisation of EMU Group S.p.A.

12.6 Processing of the personal data of users located within

the European Union must comply fully with the requirements of Regulation (EU) No. 2016/679 of 27/04/2016 (the "GDPR").

12.7 In the event of a breach by the Customer and/or by its purchasers of one of the above obligations, or in the event of repeated breaches which, as a whole, constitute a substantial breach of the Contract, and in the absence of a resolution within seven (7) working days of receiving a notice of default, EMU Group S.p.A. may suspend the supply and terminate the Contract with immediate effect, notifying the Customer thereof, without prejudice to its right to compensation for damages.

## 13. Force majeure

The Seller shall not be liable for any losses or damages caused by a delay in meeting, or by a failure to meet, its obligations under the Contract in the event that this is due to any causes beyond its control, including but not limited to the following examples: pandemic, war, civil unrest, orders or bans imposed by regulations or by public authorities, regulations concerning imports or exports, strikes or industrial action (involving its own personnel or personnel employed by other parties), difficulties in tracing personnel or materials, failure of machinery, fire or accidents. Should any one of the above events occur, the Seller shall promptly inform the Customer thereof and the parties shall agree upon new contractual terms. After 30 days, if there has been no change in the circumstances which prevented the fulfilment of its obligations, EMU Group S.p.A. may terminate the Contract without incurring any liability for any losses or damages arising out of such action.

## 14. Termination of the relationship

Should the Contract come to an end, for any reason:

14.1. the Customer must immediately cease:

- (i) promoting and selling the Products;
- (ii) any and all use of the brand and of the intellectual property rights of EMU Group S.p.A.;
- (iii) presenting itself as a retailer of the Products in the Area.

14.2 At the request of EMU Group S.p.A., the Customer shall immediately destroy, or send to EMU Group S.p.A. or to any third party designated by the Seller, any promotional material in its possession or under its control.

## 15. Taxes

The Sale Price and any other sums due to the Seller for the sale of the Products are subject to the application of Value Added Tax (any new duty applicable to the sale, production or transport of the Products other than a tax on the Seller's income) at the rate applicable at that time.

## 16. Transfer

The rights and obligations conferred by the Contract may be transferred by the Customer in whole or in part only with the prior written consent of the Seller.

## 17. Applicable law - court of competent jurisdiction

The Contract is regulated for all effects and purposes by Italian law. Any disputes connected in any way with the Contract will be subject to the sole competence of the Court of Perugia.

## 18. Form of communications

All communications shall be sent exclusively to EMU Group S.p.A., to the address of its registered offices only, by means of registered letter with return receipt, or to its certified email address: info@pec.emu.it

## 19. Code of Ethics and personal data

The code of ethics and the personal data processing methods are indicated on the website [www.emu.it](http://www.emu.it), which you are invited to consult.

August 2024

# Conditions générales de vente

## 1. Définitions

Dans ces Conditions Générales de vente ("Conditions Générales"), le terme "Vendeur" indique EMU Group S.p.A., le terme "Client" indique l'acquéreur des Produits indiqué dans la facture de vente y relative, le terme "Produits" indique les produits décrits dans le document susdit et le terme "Territoire" indique l'État dans lequel les Produits seront livrés par le Vendeur.

## 2. Commandes et perfectionnement du contrat

a) En souscrivant la commande, le Client déclare que les articles commandés sont conformes à ceux qu'il a vus tant dans le catalogue que dans les points de vente de l'entreprise, sans donc possibilité de contester ultérieurement d'éventuelles divergences dans les articles entre ce qui a été commandé et ce qui a été reçu.

b) Chaque contrat de vente de Produits entre les parties sera considéré comme conclu lorsque le Client recevra une confirmation de commande du Vendeur ("Confirmation de commande"). Les offres ou devis envoyés par le Vendeur au Client en relation aux Produits (quelle que soit la forme sous laquelle ils sont communiqués) seront soumis à ces Conditions Générales.

c) Les Conditions Générales sont les seules conditions applicables relativement à la vente des Produits et, sans préjudice des éventuelles dispositions indérogeables prévues par la loi, excluent toute autre condition implicite ou explicite.

d) Les Conditions Générales (conjointement le "Contrat") constituent l'intégralité de l'accord entre les parties en relation à la vente des Produits et remplacent toute promesse, déclaration ou obligation précédente liant celles-ci. Les Conditions Générales ne peuvent être dérogees ou modifiées qu'après accord écrit entre le Client et le Vendeur.

## 3. Variation de prix

Le Vendeur se réserve le droit de modifier, par simple communication écrite envoyée au Client à tout moment avant que ce dernier ne reçoive la Confirmation de commande, le prix de vente des produits ("Prix de vente"), pour y inclure toute augmentation des coûts des matières premières, de la production, du conditionnement, du transport ou de la main-d'œuvre.

## 4. Paiement

a) Sauf éventuelles dispositions contraires du Vendeur, le paiement intégral du Prix de vente doit être effectué au plus tard à la date indiquée dans la facture.

b) En cas de paiement échelonné, le non-respect même d'un seul des versements à l'échéance convenue comportera pour le Client la déchéance du bénéfice du terme avec par conséquent le droit d'EMU Group S.p.A., de suspendre les éventuelles fournitures en cours et de demander le paiement de la totalité du prix. Dans ce cas, les montants déjà versés seront conservés par EMU Group S.p.A. à titre de remboursement des frais et indemnisation des dommages pour l'inexécution contractuelle.

c) Tous les paiements devront être effectués dans le respect des délais et des modalités prévus dans le Contrat. Tout retard dans le paiement des factures donnera lieu, à la charge du Client, sans nécessité de mise en demeure, à l'application d'intérêts équivalant au taux d'intérêt du principal instrument de financement de la Banque centrale européenne appliqué à sa plus récente opération de refinancement, majoré de 7 points de pourcentage au sens du Décret législatif n° 231/2002.

d) Sous réserve des dispositions susdites, au cas où les paiements ne seraient pas effectués dans le respect des délais prévus dans les Conditions Générales, le Vendeur aura le droit de suspendre la livraison des Produits commandés par le Client jusqu'au paiement du montant échu par le Client.

e) Si le paiement des Produits n'est pas effectué par le Client dans le respect des modalités prévues aux Conditions Générales et en l'absence de solution dans un délai de sept (7) jours à compter de la réception d'une sommation de s'y conformer, le Contrat sera résilié, sans préjudice du droit d'EMU Group S.p.A. au remboursement de tous les frais engagés pour le recouvrement des sommes échues, y compris les éventuels dépens et frais de justice, ainsi que la réparation du préjudice subi.

## 5. Livraison

a) Les prix sont en Euros, incluant la TVA et le transport. La liste des prix est valable pour tous les pays de l'Union européenne, sauf pour l'Estonie, la Lituanie, la Lettonie, Chypre, Malte, la Roumanie, la Hongrie, la Pologne, la Croatie, la République tchèque et la République slovaque. Chaque commande doit respecter l'unité d'emballage comme indiqué dans la liste des prix.

CONDITIONS DE TRANSPORT

Pour les commandes inférieures à € 1.000, une contribution pour les frais de transport sera ajoutée sur la facture (à l'exception des pays où il est indiqué différemment). Pour la Norvège, la Suède, la Finlande et le Danemark, les modalités de livraison seront spécifiées séparément. Pour la Suisse les incoterms DDP HT seront appliqués à la charge du client. Pour les îles, les frais de transport seront définis à la confirmation de commande.

b) Les délais de livraison sont donnés à titre indicatif et le Vendeur ne sera pas tenu pour responsable des éventuelles pertes ou dommages subis à cause de leur non-respect.

c) En cas de réception d'emballages endommagés, il est nécessaire :

1) d'indiquer sur le document de transport le nombre d'emballages endommagés, avec la note : « Acceptation avec réserve pour colis endommagé » ;

2) de communiquer à EMU Group S.p.A., dans les 48 heures, la liste des emballages (et, le cas échéant, des produits) endommagés, en y joignant une documentation photographique.

Les réclamations pour dommages dus au transport ne seront acceptées que si le destinataire a émis, pour les dommages en question, la réserve détaillée mentionnée plus haut.

## 6. Réserve de propriété et risque

a) Indépendamment de la livraison, le Vendeur conservera la propriété des Produits jusqu'à ce qu'il reçoive du Client le paiement intégral du Prix de vente.

b) Le Client reconnaît et accepte le fait que, tant que le Prix de Vente n'aura pas été payé intégralement, le Client sera propriétaire des Produits exclusivement en qualité de dépositaire du Vendeur ; il veillera à garder les Produits séparément d'autres produits et de manière à ce qu'ils soient rapidement identifiables par le Vendeur.

c) Au cas où les Produits seraient livrés à une adresse particulière du Client, le Vendeur pourra à tout moment, avant leur vente et après communication au Client avec un préavis adéquat, avoir accès aux lieux où ils ont été livrés pour pouvoir reprendre possession des Produits dont il serait encore propriétaire. Le Client s'engage d'ores et déjà à faire le nécessaire pour permettre au Vendeur d'exercer ce droit.

d) Les dispositions visées à cet article ne sauraient être interprétées comme attribuant au Client le droit de restituer les Produits ou d'en refuser, reporter ou suspendre le paiement, à moins d'un accord différent entre les parties.

## 7. Garanties

a) Le Vendeur garantit qu'au moment de la livraison, les Produits seront exempts de vices et répondront aux spécifications indiquées par ses soins, à condition qu'ils soient utilisés par le Client dans des buts conformes à ceux pour lesquels ce type de produit est normalement utilisé. Si le Vendeur n'a pas communiqué de spécifications particulières concernant un produit donné, celui-ci, au moment de la livraison, sera considéré comme correspondant aux standards de qualité courants du marché pour des produits industriels similaires. Sous réserve de ce qui est prévu à l'article 7 (B), et au cas où un Produit ne serait pas conforme à la garantie visée ci-dessus, le Vendeur aura droit, à sa discrétion, de :

1) remplacer les Produits en tout ou partie non conformes, ou

2) modifier les Produits pour les rendre conformes aux spécifications indiquées par le Vendeur (selon le cas) à des standards de qualité du marché pour des produits similaires, ou

3) retirer les Produits non conformes et rembourser intégralement leur Prix de vente.

b) La garantie mentionnée ci-dessus entrera en jeu à condition que :

1) le Client ait observé les dispositions de l'article 9 suivant, si elles sont applicables ;

2) le Client ait signalé par écrit les vices au Vendeur et les ait documentés au moyen de photos sur support traditionnel ou numérique dans les (i) 14 (quatorze) jours suivant la livraison des Produits dans le cas de vices facilement reconnaissables et dans les (i) 14 (quatorze) jours suivant la découverte de vices cachés ; Quoi qu'il en soit, l'action du Client arrivera à prescription dans les 2 (deux) ans suivant la livraison des Produits ;

3) le Client accorde au Vendeur la possibilité d'inspecter les Produits dans des conditions convenables ;

4) le Client ait cessé d'utiliser les Produits non conformes à partir du moment où il a découvert les défauts qu'il a lui-même déclarés.

c) Sans préjudice de ce qu'édicté l'article 7 (A) qui précède et sous réserve des éventuelles dispositions indérogeables prévues par la loi :

1) toute autre garantie, explicite ou implicite, quant aux qualités, à la commerciabilité ou à l'aptitude des Produits à être utilisés pour des fins spécifiques est expressément exclue ; et

2) le Vendeur ne sera pas tenu pour responsable d'éventuelles pertes ou dommages subis par le Client à cause du défaut ou du non-fonctionnement du Produit non couvert par la présente garantie.

d) Le Vendeur fera tout ce qu'il est raisonnablement possible de faire pour fournir au Client d'éventuels instructions, recommandations et conseils pour la conservation, l'utilisation et les conditions d'emploi des Produits. Il reste entendu que le Client sera tenu d'assurer que les Produits soient utilisés conformément à leurs spécifications et mode d'emploi.

e) EMU Group S.p.A. ne répondra pas des défauts ou dommages à ses Produits découlant de leur utilisation et/ou affectation impropre.

f) EMU Group S.p.A. se réserve de modifier les caractéristiques techniques et de construction de ses Produits, en fonction de l'évolution technologique des systèmes de production et des éventuelles prescriptions réglementaires de référence.

## 8. Quantités

Le Client devra communiquer par écrit au Vendeur l'éventuelle livraison d'une quantité de Produits non conforme (qu'elle soit supérieure ou inférieure à ce qui avait été commandé par le Client à l'origine) dans les 8 (huit) jours au plus tard à compter de la date de réception de la marchandise.

a) Au cas où la quantité de Produits remise au Client serait inférieure à la quantité commandée par celui-ci, le Client aura uniquement le droit d'obtenir :

1) une quantité supplémentaire de Produits ; ou

2) une réduction du Prix de vente.

b) Au cas où la quantité de Produits remise au Client serait supérieure à la quantité commandée par celui-ci, le Client

1) devra retourner la quantité de Produits livrés en excès ou

2) pourra conserver la totalité de la quantité de Produits livrés correspondant à l'intégralité de leur Prix de Vente.

c) En tout état de cause, il reste entendu que l'éventuelle livraison d'une quantité de Produits différente de la quantité commandée (qu'elle soit supérieure ou inférieure) ne donnera pas au Client le droit de refuser la fourniture, et que tout retour de Produits devra quoi qu'il en soit être préalablement convenu aux termes de l'article 10.

## 9. Communication de vices ou absence de livraison

a) Les éventuelles réclamations pour vices et/ou défauts des Produits constatés après l'ouverture des emballages devront être immédiatement communiquées par fax ou courrier électronique à EMU Group S.p.A. ainsi que par lettre recommandée avec accusé de réception, à envoyer dans un délai maximum de 8 jours à compter de la réception en indiquant, sous peine de déchéance, les données du bon de livraison et de la facture de référence et en joignant des photos sur support numérique indiquant le défaut constaté.

b) Le Client devra communiquer par écrit au Vendeur tout événement estimé couvert par la garantie visée à l'article 7 (A) au plus tard dans les délais visés à l'article 7 (B) (2), sous peine de déchéance.

c) Le Client devra également communiquer par écrit au Vendeur toute livraison d'une quantité de Produits non conforme au plus tard dans les délais visés à l'article 8 sous peine de déchéance et aux fins de l'exercice des droits.

d) Une fois le délai visé à l'article 9 (B) susdit écoulé, la quantité

de Produits effectivement livrés au Client sera considérée comme définitivement acceptée par le Client. Dans cette circonstance, le Client sera donc tenu de payer intégralement le Prix de Vente indiqué dans la facture correspondant aux Produits effectivement livrés.

## 10. Retour des Produits

a) En aucun cas un Produit ne pourra être retourné au Vendeur sans son autorisation préalable par écrit.  
b) Le produit doit être rendu dans son emballage original. Les retours non autorisés seront restitués à l'expéditeur en lui débitant les frais de transport.

## 11. Droits de propriété intellectuelle - Utilisation de la marque et des images

11.1 Concernant la propriété intellectuelle, le Vendeur garantit explicitement que la livraison et l'utilisation des Produits ne violent aucun brevet, dessin ou modèle industriel, droit d'auteur, marque déposée ou secret d'entreprise de tiers existant sur le Territoire à la date de livraison des "Produits" (les "Droits de Propriété Intellectuelle"). Le Vendeur indemniserait le Client pour les éventuels dommages que celui-ci serait amené à subir du fait de la violation de cette garantie. La garantie ne s'applique pas, et par conséquent le Client n'aura droit à aucun dédommagement, en cas de survenance ne serait-ce que d'une seule des hypothèses suivantes :

a. le Vendeur a adopté et suivi, pour la fourniture des Produits, des instructions spécifiques du Client ayant déterminé une violation des Droits de Propriété Intellectuelle ;  
b. la violation des Droits de Propriété Intellectuelle est déterminée par l'utilisation des Produits selon des modalités, ou à des fins et dans des lieux, qui n'auraient pas été précédemment précisés ou quoi qu'il en soit indiqués par écrit au Vendeur ;  
c) le Client n'a pas informé le Vendeur par écrit, dans les temps voulus, de l'existence de contestations, réclamations ou actions en justice engagées contre le Client ou dont il aurait été menacé, concernant les Droits de Propriété Intellectuelle ; ou  
d. le Client, bien qu'ayant observé les dispositions du point 11 (C) précédent, ne permet pas au Vendeur d'assumer - à ses frais - la gestion du litige ni de participer à d'éventuelles transactions.

11.2 Le Client garantit que toute indication ou instruction spécifique relative à la fourniture des Produits fournis au Vendeur n'entraînera pas de violation par le Vendeur des Droits de Propriété Intellectuelle de tiers, et s'engage à réparer tous les dommages que le Vendeur pourrait subir si une telle violation devait se produire.

11.3 Dans le but d'uniformiser sur le territoire national l'image commerciale d'EMU Group S.p.A., ainsi que la particularité de conception et les caractéristiques de construction de ses produits, de maintenir la notoriété et le prestige de la marque, le Client s'engage à respecter ce qui suit :

a. l'utilisation, même à des fins publicitaires, sous quelque forme et par quelque moyen que ce soit, du logo EMU et de l'image des Produits, ne peut être effectuée qu'avec l'accord écrit préalable d'EMU Group S.p.A. et dans les conditions contraignantes qui seront indiquées par la même ; autrement, EMU Group S.p.A. sera autorisé à suspendre sans préavis toute livraison en cours et à exiger le paiement intégral du prix de la fourniture même pour la partie non expirée, sans préjudice d'une réparation des dommages ;  
b. les éventuelles ventes promotionnelles et remises par rapport aux prix conseillés indiqués dans les tarifs doivent être communiquées au préalable à EMU Group S.p.A. ; le Client ne peut effectuer aucune publicité ou promotion des Produits qui pourrait être préjudiciable à l'image de luxe et de haute qualité de la marque EMU [y compris, à titre d'exemple, l'exposition (a) de panneaux de remise en pourcentage présentés de manière incohérente avec le prestige et l'image de la marque, (b) des panneaux de comparaison de prix avec des prix barrés, sauf si la législation en matière de publicité sur le Territoire l'exige ; (c) la publicité groupée dans laquelle les produits sont présentés à prix réduit aux côtés d'autres produits de marque à plein prix, ce qui peut impliquer que ces produits sont de qualité inférieure ou moins populaires].

11.4 Le Client est également tenu de communiquer immédiatement à EMU Group S.p.A. tout fait ou acte adopté par les acquéreurs de Produits susceptibles de porter atteinte

aux droits d'EMU Group S.p.A., liés à l'utilisation des images de la marque ou du logo EMU. À défaut de notification dans les délais, le Client sera tenu personnellement responsable de cette violation et du dommage subi par EMU Group S.p.A.

11.5 EMU Group S.p.A., pour la commercialisation des Produits, dans le but déclaré de maintenir la notoriété et le prestige de la marque, et en raison de la qualité du Produit et de l'image de l'entreprise du fabricant, de garantir au consommateur ou à l'utilisateur final l'identité d'origine du Produit référencé par la marque et une bonne utilisation, ainsi que, notamment, des critères de professionnalisme élevés des sujets distributeurs desdits produits qui garantissent leur expérience dans le secteur, utilise un système de distribution sélective, composé de distributeurs/revendeurs autorisés, de magasins franchisés et de Flag Store. Par conséquent, le Client s'engage - également dans le respect des dispositions en la matière du Règlement UE n° 2022/720 ainsi que des Lignes directrices sur les restrictions verticales 2022/C 248/01 de la Commission Européenne à (i) ne pas vendre les Produits en dehors du Territoire et aux revendeurs et/ou distributeurs non autorisés, notamment à ne pas vendre aux grossistes, aux collectivités, aux revendeurs d'articles soldés, aux sociétés de vente par correspondance ou à ceux opérant avec le système de vente à domicile, sauf accord préalable écrit du concédant EMU Group S.p.A., ainsi que (ii) garantir le respect de cette disposition par ses acquéreurs avec des mesures appropriées.

11.6 En cas de violation de la part du Client et/ou de ses acquéreurs à l'une des obligations susvisées ou en cas de manquements réitérés qui, pris ensemble, constituent une violation substantielle du Contrat et à défaut de solution dans un délai de sept (7) jours ouvrables à compter de la réception d'une sommation de se conformer, EMU Group S.p.A. peut cesser la fourniture et résilier le Contrat avec effet immédiat, en informant le Client, sans préjudice du droit à la réparation des dommages.

## 12. Vente en ligne

12.1 [Outre les locaux où le Client exerce son activité] la promotion et la vente des Produits peuvent être effectuées en ligne, exclusivement sur son propre site Internet et dans le respect des conditions suivantes.

12. 2. Toute (i) vente sur toute plateforme tierce ou "marketplace" et (ii) vente active en dehors du Territoire est interdite, en d'autres termes toute vente en ligne résultant d'une démarche active réalisée via Internet à destination des utilisateurs situés en dehors du Territoire, par exemple :

- l'envoi de courriers électroniques adressés à des utilisateurs ou groupes d'utilisateurs situés en dehors du Territoire ;
- la publicité en ligne spécifiquement adressée à des utilisateurs ou groupes d'utilisateurs situés en dehors du Territoire ;
- des bannières publicitaires insérées sur des sites Internet de tiers, destinées aux utilisateurs ou groupes d'utilisateurs situés en dehors du Territoire ;
- des annonces publicitaires dans les moteurs de recherche ou par l'intermédiaire d'un prestataire de publicité en ligne destinées aux utilisateurs ou groupes d'utilisateurs situés en dehors du Territoire.

12.3. La promotion et la vente des Produits en ligne doivent toujours être cohérentes avec la qualité, le style et le prestige des Produits et de la marque EMU Group S.p.A. conformément à l'article 11.

12. 4. Le site Internet du Client doit toujours :

- offrir à l'utilisateur la possibilité d'obtenir toute information et/ou conseil concernant les qualités, spécifications et modalités d'utilisation/installation des Produits ;
- communiquer à l'utilisateur uniquement des informations et du matériel promotionnel concernant les Produits fournis par EMU Group S.p.A. ;
- offrir la meilleure qualité de présentation des Produits, promouvoir et publier uniquement des images et du matériel relatifs aux Produits fournis par EMU Group S.p.A.

12.5 L'utilisation de la marque et du matériel protégé par les droits de propriété industrielle et intellectuelle appartenant à EMU Group S.p.A. est autorisée dans le seul but de promouvoir les Produits et le Client ne peut pas inclure la marque dans le nom de son site Internet sans l'autorisation écrite préalable d'EMU Group S.p.A.

12.6 Le traitement des données à caractère personnel

relatives aux utilisateurs situés dans l'Union Européenne doit s'effectuer dans le plein respect des exigences du Règlement UE RGPD n° 2016/679 du 27.4.2016.

12.7 En cas de violation de la part du Client et/ou de ses acquéreurs à l'une des obligations susvisées ou en cas de manquements réitérés qui, pris ensemble, constituent une violation substantielle du Contrat et à défaut de solution dans un délai de sept (7) jours ouvrables à compter de la réception d'une sommation de se conformer, EMU Group S.p.A. peut cesser la fourniture et résilier le Contrat avec effet immédiat, en informant le Client, sans préjudice du droit à la réparation des dommages.

## 13. Force majeure

Le Vendeur ne sera pas responsable des pertes éventuelles ou des dommages causés par le retard dans l'exécution ou l'inaccomplissement de ses obligations au sens du Contrat au cas de toute cause échappant à son contrôle, y compris, à titre d'exemple non exhaustif, de pandémies, de guerres, d'émeutes, de troubles civils ou d'interdiction survenue édictée par la loi ou les pouvoirs publics, les règlements relatifs aux importations ou aux exportations, les grèves ou agitations syndicales (relatifs à ses salariés ou à ceux d'autres sujets), les difficultés à recruter du personnel ou à trouver du matériel, les pannes de machine, les incendies ou les accidents. En cas de survenance de l'un de ces événements, le Vendeur en informera promptement le Client et les parties conviendront de nouvelles dispositions contractuelles. Au bout de 30 jours, sans modifier les circonstances ayant empêché l'exécution de ses obligations, EMU Group S.p.A. pourra résilier le Contrat sans encourir aucune responsabilité pour toute perte ou dommage résultant d'une telle action.

## 14. Cessation du rapport contractuel

En cas de cessation du rapport contractuel pour quelque raison que ce soit :

14.1. le Client cessera immédiatement :

- (i) de promouvoir et vendre les Produits ;
- (ii) toute utilisation de la marque et des droits de propriété intellectuelle d'EMU Group S.p.A. ;
- (iii) de se présenter comme revendeur des Produits sur le Territoire.

14.2 À la demande d'EMU Group S.p.A., le Client remettra immédiatement à EMU Group S.p.A. ou à tout tiers désigné par le Vendeur ou détruira tout le matériel promotionnel en sa possession ou sous son contrôle.

## 15. Taxes

Le Prix de vente et toute autre somme due au Vendeur pour la vente des Produits est assujéti à l'application de la Taxe sur la Valeur Ajoutée (ou toute nouvelle taxe applicable à la vente, à la production ou au transport des Produits autre que l'impôt sur le revenu du Vendeur) au taux courant applicable au cas par cas.

## 16. Cession

Les droits et obligations visés au Contrat pourront être cédés en tout ou partie par le Client uniquement avec l'accord préalable et écrit du Vendeur.

## 17. Droit applicable - tribunal compétent

Le Contrat est régi à tous les effets par la loi italienne. Tout différend lié de quelque manière que ce soit au Contrat est du ressort exclusif du Tribunal de Pérouse.

## 18. Forme des communications

Toutes les communications devront être adressées uniquement à EMU Group S.p.A. à la seule adresse du siège social par lettre recommandée avec accusé de réception ou à l'adresse PEC (poste électronique certifiée) de la société : info@pec.emu.it

## 19. Code d'éthique et données à caractère personnel

Le code d'éthique et les modalités de traitement des données à caractère personnel sont précisés sur le site [www.emu.it](http://www.emu.it) à consulter.

Août 2024

# Allgemeine Geschäftsbedingungen

## 1. Begriffsbestimmungen

In den vorliegenden allgemeinen Verkaufsbedingungen („Allgemeine Geschäftsbedingungen“) bezeichnet der Begriff „Verkäufer“ die EMU Group S.p.A., der Begriff „Kunde“ den in der jeweiligen Verkaufsrechnung angegebenen Käufer der Produkte, der Begriff „Produkte“ die in dem oben genannten Dokument beschriebenen Produkte und der Begriff „Gebiet“ das Land, in das die Produkte vom Verkäufer geliefert werden.

## 2. Bestellungen und Vertragsabschluss

a) Mit der Unterzeichnung der Bestellung erklärt der Kunde, dass die bestellten Artikel denen entsprechen, die er sowohl im Katalog als auch in den Verkaufsstellen des Unternehmens in Augenschein genommen hat. Somit besteht keine Möglichkeit, nachfolgend eventuelle Abweichungen zwischen bestellten und erhaltenen Artikeln zu beanstanden.

b) Jeder Vertrag über den Verkauf von Produkten zwischen den Parteien versteht sich in dem Moment als abgeschlossen, in welchem dem Kunden der Auftrag durch den Verkäufer bestätigt wird („Auftragsbestätigung“). Alle Angebote bzw. Kostenvoranschläge, die der Verkäufer dem Kunden im Zusammenhang mit den Produkten übermittelt (unabhängig von der Übermittlungsart) unterliegen in jedem Fall den Allgemeinen Geschäftsbedingungen.

c) Die Allgemeinen Geschäftsbedingungen sind die einzigen Bedingungen, die in Bezug auf den Verkauf der Produkte zur Anwendung kommen, und sie gelten, unbeschadet zwingender gesetzlicher Bestimmungen, unter Ausschluss aller anderen impliziten oder expliziten Bedingungen.

d) Die Allgemeinen Geschäftsbedingungen (als Gesamtwerk „Vertrag“) stellen die gesamte Vereinbarung zwischen den Parteien in Bezug auf den Verkauf der Produkte dar und ersetzen alle vorhergehenden Zusagen, Zusicherungen oder Verpflichtungen seitens des Kunden durch einfache schriftliche Mitteilung an den Kunden zu ändern, um etwaige Erhöhungen der Rohstoff-, Produktions-, Verpackungs-, Fracht- oder Lohnkosten miteinzubeziehen.

## 3. Preisänderungen

Der Verkäufer behält sich das Recht vor, den Verkaufspreis der Produkte („Verkaufspreis“) jederzeit vor Erhalt der Auftragsbestätigung seitens des Kunden durch einfache schriftliche Mitteilung an den Kunden zu ändern, um etwaige Erhöhungen der Rohstoff-, Produktions-, Verpackungs-, Fracht- oder Lohnkosten miteinzubeziehen.

## 4. Zahlung

a) Sofern vom Verkäufer nicht anders festgelegt, ist der Verkaufspreis innerhalb des in der jeweiligen Rechnung angegebenen Datums in voller Höhe zu zahlen.

b) Wird bei Ratenzahlung auch nur einmal der vereinbarte Fälligkeitstermin nicht eingehalten, hat dies den Verlust der Fristbegünstigung für den Kunden zur Folge, und EMU Group S.p.A. hat infolgedessen das Recht, eventuell ausstehende Lieferungen auszusetzen und die Zahlung des Gesamtpreises zu verlangen. In diesem Fall werden die bereits gezahlten Beträge von EMU Group S.p.A. als Aufwandsentschädigung und Schadenersatz wegen Nichterfüllung einbehalten.

c) Alle Zahlungen sind gemäß den im Vertrag festgelegten Bedingungen zu leisten. Bei verspäteter Zahlung der Rechnungen werden dem Kunden, ohne dass es einer Inverzugsetzung bedarf, Zinsen in Höhe des von der europäischen Zentralbank festgelegten Basiszinssatzes (Zinssatz für die jüngste Hauptrefinanzierungsoperation der Europäischen Zentralbank), erhöht um 7 Prozentpunkte gemäß ital. GvD Nr. 231/2002, berechnet.

d) Unbeschadet der obigen Ausführungen hat der Verkäufer im Falle der Nichtzahlung gemäß den in den Allgemeinen Geschäftsbedingungen festgelegten Bedingungen das Recht, die Lieferung der vom Kunden bestellten Produkte auszusetzen, bis der Kunde den ausstehenden Betrag beglichen hat.

e) Wenn der Kunde die Zahlung der Produkte nicht gemäß den in den Allgemeinen Geschäftsbedingungen festgelegten Bedingungen leistet und nicht innerhalb einer Frist von sieben (7) Tagen nach Erhalt einer Aufforderung zur Erfüllung nacherfüllt, wird der Vertrag gekündigt. Davon unberührt bleibt das Recht von EMU Group S.p.A. auf die Erstattung aller Kosten, die für die Einziehung der ausstehenden Beträge anfallen, einschließlich eventuell entstehender Anwalts- und Gerichtskosten, sowie das Anrecht auf Schadenersatz.

## 5. Allgemeine Frachtfreigrenze

a) Die Preise sind in Euro, inkl. VAT und Frachtkosten. Diese Preisliste ist gültig für all die EU Länder ausgeschlossen Estland, Litauen, Lettland, Zypern, Malta, Rumänien, Ungarn, Polen, Kroatien, Tschechien und Slowakei. Die Verpackungseinheit muss gehalten werden wie auf der Preisliste geschrieben.

### FRACHTBEDINGUNGEN

Für Bestellungen unter € 1.000, Frachtkosten sind zu berechnen (mit Ausnahme von denjenigen Ländern mit angegebenen Sonderkonditionen). Für Norwegen, Schweden, Finnland und Dänemark sind die Lieferkonditionen speziell angegeben. Für die Schweiz gilt Incoterm DDP exkl. MWST (Letztere zu Lasten des Käufers). Die Frachtkosten für Lieferungen nach Inseln werden bei der Auftragsbestätigung festgelegt sein.

b) Bei den genannten Lieferzeiten handelt es sich immer um ungefähre Angaben und EMU Group S.p.A. haftet nicht im Falle von entstehenden Verlusten oder Schäden erlitten aufgrund deren Nichteinhaltung.

c) Bitte beachten Sie bei Erhalt beschädigter Kolli Folgendes:

1) Geben Sie auf dem Lieferschein die Anzahl der beschädigten Frachtstücke an mit dem Vermerk “Akzeptiert mit Vorbehalt wegen beschädigter Verpackung”;

2) Informieren Sie EMU Group S.p.A. innerhalb von 48 Stunden, wobei eine Liste der beschädigten Frachtstücke und der eventuell beschädigten Waren mit entsprechendem Fotomaterial beigefügt werden muss.

Es werden keine Reklamationen aufgrund von Transportschäden entgegengenommen, wenn diese nicht wie oben detailliert aufgeführt vermerkt und mitgeteilt wurden.

## 6. Eigentumsvorbehalt und Gefahr

a) Unabhängig von der Lieferung behält sich der Verkäufer das Eigentum an den Produkten vor, bis er die vollständige Zahlung des Verkaufspreises seitens des Kunden erhalten hat.

b) Der Kunde erkennt an und akzeptiert, dass er bis zur vollständigen Zahlung des Verkaufspreises lediglich in seiner Eigenschaft als Verwahrer des Verkäufers Besitzer der Produkte ist und die Produkte getrennt von anderen Produkten und so aufbewahren muss, dass sie für den Verkäufer leicht erkennbar sind.

c) Sofern die Produkte an eine bestimmte Adresse des Kunden geliefert werden, kann der Verkäufer jederzeit vor dem Verkauf der Produkte und nach vorheriger Benachrichtigung des Kunden Zugang zu den Orten verlangen, an die die Produkte geliefert wurden, um die Produkte, die noch im Eigentum des Verkäufers stehen, wieder in Besitz zu nehmen. Der Kunde verpflichtet sich schon jetzt, alles Notwendige zu tun, um dem Verkäufer die Ausübung dieses Rechts zu ermöglichen.

d) Die Bestimmungen dieses Artikels geben dem Kunden nicht das Recht, die Produkte zurückzusenden bzw. Zahlungen zu verweigern, aufzuschieben oder auszusetzen, es sei denn, es wurde zwischen den Parteien entsprechend vereinbart.

## 7. Gewährleistung

a) Der Verkäufer gewährleistet, dass die Produkte zum Zeitpunkt der Lieferung frei von Mängeln sind und den vom Verkäufer angegebenen Spezifikationen entsprechen; Voraussetzung ist, dass eine sachgemäße Produktnutzung seitens des Kunden vorliegt. Hat der Verkäufer keine besonderen Spezifikationen in Bezug auf ein bestimmtes Produkt angegeben, so wird davon ausgegangen, dass das Produkt zum Zeitpunkt der Lieferung den marktüblichen Qualitätsstandards für ähnliche Industrieprodukte entspricht. Ungeachtet der Bestimmungen des Artikels 7 (B) und, wenn ein Produkt nicht im Einklang mit der vorstehenden Gewährleistung steht, obliegt dem Verkäufer nach eigenem Ermessen die Entscheidung über die Art der Nacherfüllung:

1) Neulieferung der Produkte oder von Teilen davon, die nicht konform sind, oder

2) Beseitigung der Mängel an den Produkten, so dass sie den vom Verkäufer angegebenen Spezifikationen oder (je nach Fall) den marktüblichen Qualitätsstandards für ähnliche Produkte entsprechen, oder

3) Rückholung der nicht konformen Produkte und vollständige Erstattung des entsprechenden Verkaufspreises.

b) Die Gewährleistungspflicht obliegt, wenn:

1) der Kunde die unter Artikel 9 bezeichneten Bestimmungen, soweit anwendbar, einhalten hat;

2) der Kunde schriftlich und mit Bildmaterial auf konventionellen oder digitalen Datenträgern dokumentiert im Falle von leicht erkennbaren Mängeln innerhalb von (f) 14 (vierzehn) Tagen nach

Lieferung der Produkte und im Falle von versteckten Mängeln innerhalb von (f) 14 (vierzehn) Tagen nach deren Entdeckung diese dem Verkäufer angezeigt hat. In jedem Fall hat eine Mängelanzeige innerhalb von 2 (zwei) Jahren ab Lieferung der Produkte zu erfolgen;

3) der Kunde den Verkäufer in die Lage versetzt, die Produkte in angemessener Weise zu untersuchen;

4) der Kunde nach Entdeckung der von ihm angezeigten Mängel von einer weiteren Nutzung der nicht konformen Produkte abgesehen hat.

c) Ungeachtet der Bestimmungen des Artikels 7 (A) und vorbehaltlich etwaiger zwingender gesetzlicher Vorschriften gilt:

1) Jede andere explizite oder implizite Garantie in Bezug auf die Eigenschaften, die Marktgängigkeit oder die Eignung der Produkte für bestimmte Zwecke wird ausdrücklich ausgeschlossen; und

2) der Verkäufer haftet nicht für etwaige Verluste oder Schäden, die dem Kunden infolge von Mängeln oder Ausfällen des Produkts entstehen, die nicht durch diese Gewährleistung abgedeckt sind.

d) Der Verkäufer wird sich nach besten Kräften bemühen, dem Kunden entsprechende Anweisungen, Empfehlungen und Ratschläge zur Lagerung und zum Gebrauch der Produkte sowie zu deren Nutzungsbedingungen zu geben. Die sachgemäße Nutzung der Produkte in Übereinstimmung mit ihren Spezifikationen und den Gebrauchsanweisungen obliegt der Verantwortung des Kunden.

e) EMU Group S.p.A. haftet nicht für Mängel oder Schäden an ihren Produkten, die Folge eines unsachgemäßen und/oder zweckfremden Gebrauchs derselben sind.

f) EMU Group S.p.A. behält sich das Recht vor, die technischen Eigenschaften und Konstruktionsmerkmale ihrer Produkte entsprechend der technologischen Entwicklung der Produktionssysteme und den etwaigen gesetzlichen Vorschriften zu ändern.

## 8. Lieferumfang

Der Kunde hat den Verkäufer innerhalb von 8 (acht) Tagen nach Erhalt der Ware schriftlich über eine Nichtkonformität der gelieferten Produktmenge (unabhängig davon, ob diese größer oder geringer ist als die ursprünglich vom Kunden bestellte Produktmenge) zu informieren.

a) Liegt die Menge der an den Kunden gelieferten Produkte unter der von dem Kunden bestellten Menge, so hat der Kunde das alleinige Recht auf:

1) kostenlose Nachsendung der Fehlmenge; oder

2) eine Kürzung des Verkaufspreises.

b) Liegt die Menge der an den Kunden gelieferten Produkte über der von dem Kunden bestellten Menge, so hat der Kunde die Wahl:

1) die zu viel gelieferten Produkte zurückzugeben oder

2) den gesamten Lieferumfang zu behalten und den gesamten Verkaufspreis der Produkte zu bezahlen.

c) Der Kunde ist in keinem Fall berechtigt, im Falle einer Nichtkonformität der gelieferten Produktmenge mit der bestellten Produktmenge (unabhängig davon, ob diese größer oder geringer ist), die Annahme zu verweigern und jede Warenrücksendung bedarf vorab der schriftlichen Zustimmung gemäß Artikel 10.

## 9. Mängelrügen oder Nichtlieferung

a) Etwaige Rügen in Bezug auf Mängel und/oder Fehler der Produkte, die nach dem Öffnen der Verpackung festgestellt werden, müssen unverzüglich per Fax oder E-Mail an EMU Group S.p.A. erfolgen sowie, spätestens 8 Tage nach Erhalt, per Einschreiben mit Rückschein, wobei, unter Androhung der Verwirkung, die Daten des Lieferscheins und der Rechnung sowie ein Datenträger mit Fotos, auf denen die festgestellten Mängel zu sehen sind, beizufügen sind.

b) Der Kunde hat dem Verkäufer unter Androhung der Verwirkung jedes Ereignis, das als unter die in Artikel 7 (A) genannte Gewährleistung fallend betrachtet wird, spätestens innerhalb der in Artikel 7 (B) (2) genannten Fristen schriftlich mitzuteilen.

c) Der Kunde hat den Verkäufer außerdem innerhalb der in Artikel 8 genannten Fristen unter Androhung der Verwirkung und zur Geltendmachung von Rechten schriftlich über die Nichtkonformität der gelieferten Produktmenge zu unterrichten.

d) Nach Ablauf der in Artikel 9 (B) genannten Frist gilt die tatsächlich an den Kunden gelieferte Produktmenge als von diesem endgültig angenommen. In diesem Fall ist der Kunde

demnach verpflichtet, den in der Rechnung angegebenen Verkaufspreis für die tatsächlich gelieferten Produkte in voller Höhe zu zahlen.

## 10. Rückgabe der Produkte

- Ein Produkt darf in keinem Fall ohne die vorherige schriftliche Zustimmung des Verkäufers an diesen zurückgeschickt werden.
- Das Produkt muss in seiner Originalverpackung zurückgeschickt werden. Nicht genehmigte Warenrückgaben werden an den Absender zurückgeschickt und die entsprechenden Frachtkosten in Rechnung gestellt.

## 11. Rechte auf geistiges Eigentum – Nutzung von Markenzeichen und Bildern

11.1. In Bezug auf geistiges Eigentum garantiert der Verkäufer ausschließlich, dass die Lieferung und Nutzung der Produkte keine Patente, Zeichnungen oder Geschmacksmuster, Urheberrechte, Warenzeichen oder Geschäftsgeheimnisse Dritter verletzt, die zum Zeitpunkt der Lieferung der „Produkte“ im Gebiet bestehen (die „Rechte auf geistiges Eigentum“). Der Verkäufer ersetzt dem Kunden eventuelle Schäden, die dieser infolge der Verletzung dieser Gewährleistung erleiden könnte. Die Gewährleistung gilt nicht, und es besteht demnach keinerlei Entschädigungsanspruch des Kunden, wenn einer der folgenden Fälle eintritt:

- Der Verkäufer hat bei der Lieferung der Produkte spezielle Anweisungen des Kunden befolgt, die zu einer Verletzung geistiger Eigentumsrechte geführt haben;
- Die Verletzung der Rechte auf geistiges Eigentum wurde durch die Verwendung der Produkte in einer Weise oder zu Zwecken und an Orten verursacht, die dem Verkäufer nicht im Vorfeld mitgeteilt oder anderweitig schriftlich angezeigt wurden;
- Der Kunde hat den Verkäufer nicht rechtzeitig schriftlich über das Vorliegen von Reklamationen, Beschwerden oder Rechtsstreitigkeiten (angedroht oder bereits eingeleitet) in Bezug auf den Kunden im Zusammenhang mit Rechten auf geistiges Eigentum informiert; oder
- der Kunde ermöglicht es dem Verkäufer trotz Einhaltung der Bestimmungen in Abschnitt 11.1 (C) nicht, auf eigene Kosten die Verwaltung des Rechtsstreits zu übernehmen oder an einer Beilegung mitzuwirken.

11.2. Der Kunde garantiert, dass keine der dem Verkäufer gegebenenfalls erteilten Angaben oder spezifischen Anweisungen bezüglich der Lieferung der Produkte zu einer Verletzung der Rechte auf geistiges Eigentum Dritter durch den Verkäufer führen, und verpflichtet sich, alle Schäden zu ersetzen, die dem Verkäufer im Falle einer solchen Verletzung entstehen könnten.

11.3. Um das kommerzielle Image von EMU Group S.p.A. auf dem gesamten Staatsgebiet zu vereinheitlichen und die Besonderheit der Design- und Konstruktionsmerkmale ihrer Produkte sowie den Bekanntheitsgrad und das Ansehen der Marke zu erhalten, verpflichtet sich der Kunde zur Einhaltung folgender Punkte:

- Die Nutzung des EMU-Logos und der Produktbilder, auch zu Werbezwecken, in jedweder Form und mit jedweden Mitteln, darf nur mit vorheriger schriftlicher Zustimmung von EMU Group S.p.A. und unter den von dieser vorgegebenen verbindlichen Bedingungen erfolgen; andernfalls ist EMU Group S.p.A. berechtigt, eventuell laufende Lieferungen ohne Vorankündigung auszusetzen und die Zahlung der gesamten Lieferung (inkl. der rückbehaltenen Ware) zuzüglich eventueller Schadensersatzzahlungen zu fordern;
- Eventuelle Sonderangebote und Nachlässe auf die empfohlenen Listenpreise müssen EMU Group S.p.A. im Voraus mitgeteilt werden; der Kunde darf keine Werbung oder Verkaufsförderung für die Produkte betreiben, die dem Luxus- und Qualitätsimage der Marke EMU abträglich sein könnte [darunter fallen beispielsweise (a) Rabattschilder mit prozentualer Preisersparnis, die in einer Weise präsentiert werden, die mit dem Ansehen und dem Image der Marke nicht vereinbar ist, (b) Preisvergleichsschilder mit durchgestrichenen Preisen, es sei denn, sie sind in den Regelungen zur Werbung im Gebiet vorgeschrieben (c) kombinierte Werbung, in der Produkte mit Preisnachlässen zusammen mit anderen Produkten der Marke zum vollen Preis gezeigt werden, was den Eindruck erwecken kann, dass diese Produkte von minderer Qualität oder weniger beliebt sind].

11.4. Der Kunde ist außerdem verpflichtet, EMU Group S.p.A. unverzüglich alle Fakten oder Handlungen in Bezug auf seine

Produktabnehmer mitzuteilen, welche die Rechte der EMU Group S.p.A. im Zusammenhang mit der Verwendung ihrer Markenzeichen oder des EMU-Logos beeinträchtigen könnten. Erfolgt keine rechtzeitige Mitteilung, haftet der Kunde persönlich für diese Verletzung und für den Schaden, welcher EMU Group S.p.A. entsteht.

11.5. EMU Group S.p.A. erklärt im Zusammenhang mit der Vermarktung der firmeneigenen Produkte, den Bekanntheitsgrad und das Ansehen der Marke aufrechtzuerhalten. Hinsichtlich der Qualität des Produkts und des Firmenimages des Herstellers garantiert EMU Group S.p.A. den Endkunden bzw. den Verwendern Produkte, deren Herkunft durch die Marke garantiert wird, einen korrekten Gebrauch und des Weiteren ein hohes Maß an Professionalität und Branchenerfahrung der Vertriebspartner; in diesem Zusammenhang erklärt EMU Group S.p.A., sich eines streng selektierten Vertriebsnetzes mit autorisierten Vertriebsfirmen/ Händlern, Franchisenehmern und Flag Stores zu bedienen. Der Kunde verpflichtet sich daher – auch in Übereinstimmung mit den einschlägigen Bestimmungen der Verordnung (EU) Nr. 2022/720 sowie den Leitlinien für vertikale Beschränkungen 2022/C 248/01 der Europäischen Kommission – (i) die Produkte nicht außerhalb des Gebiets und nicht an nicht autorisierte Händler und/oder Vertriebsfirmen zu verkaufen, insbesondere nicht an Großhändler, Gemeinschaftshändler, Händler von Ausverkaufsgütern und an im Versandhandel oder im Haustürgeschäft tätige Unternehmen, es sei denn, es liegt eine vorherige schriftliche Genehmigung von EMU Group S.p.A. vor, sowie (ii) durch geeignete Maßnahmen die Einhaltung dieser Bestimmung durch ihre Abnehmer zu gewährleisten.

11.6. Im Falle eines Verstoßes des Kunden und/oder seiner Abnehmer gegen eine der vorgenannten Verpflichtungen oder im Falle wiederholter Verstöße, die in ihrer Gesamtheit eine wesentliche Vertragsverletzung darstellen, und wenn nicht innerhalb von sieben (7) Werktagen nach Erhalt einer Aufforderung zur Erfüllung nacherfüllt wird, kann EMU Group S.p.A. die Lieferung einstellen und den Vertrag mit sofortiger Wirkung kündigen und den Kunden davon in Kenntnis setzen. Das Anrecht auf Schadensersatz bleibt hiervon unberührt.

## 12. Onlineverkauf

12.1. [Zusätzlich zu den Räumlichkeiten, in denen der Kunde seine Tätigkeit ausübt,] kann die Werbung und der Verkauf der Produkte auch online erfolgen, und zwar ausschließlich auf seiner eigenen Website und unter den folgenden Bedingungen.

12.2. Verboten ist jeder (i) Verkauf auf einer Plattform oder einem „Marketplace“ Dritter und (ii) aktive Verkauf außerhalb des Gebiets, d. h. jeder Onlineverkauf, der aus einer aktiven Ansprache über das Internet resultiert, die sich an Nutzer außerhalb des Gebiets richtet, wie z. B.:

- Versendung von E-Mails an Nutzer oder Gruppen von Nutzern, die sich außerhalb des Gebiets befinden;
- Onlinewerbung, die sich speziell an Nutzer oder Gruppen von Nutzern richtet, die sich außerhalb des Gebiets befinden;
- Bannerwerbung auf Websites Dritter, die sich an Nutzer oder Gruppen von Nutzern richtet, die sich außerhalb des Gebiets befinden;
- Werbung in Suchmaschinen oder über einen Online-Werbeanbieter, die sich an Nutzer oder Gruppen von Nutzern richtet, die sich außerhalb des Gebiets befinden.

12.3. Die Tätigkeit der Onlinewerbung und des Onlineverkaufs der Produkte muss stets mit der Qualität, dem Stil und dem Ansehen der Produkte und der Marke EMU Group S.p.A. gemäß Artikel 11 in Einklang stehen.

12.4. Die Website des Kunden:

- muss dem Nutzer stets die Möglichkeit bieten, Informationen und/oder Empfehlungen zu den Eigenschaften, Spezifikationen sowie zum Gebrauch/zu den Installationsmethoden der Produkte zu erhalten;
- darf dem Nutzer nur Informations- und Werbematerial über die von EMU Group S.p.A. gelieferten Produkte zur Verfügung stellen,
- muss immer die beste Qualität in Bezug auf die Präsentation der Produkte bieten und darf nur Bilder und Material über die von EMU Group S.p.A. gelieferten Produkte veröffentlichen.

12.5. Die Nutzung des Markenzeichens und des Materials, das durch die gewerblichen und geistigen Eigentumsrechte von EMU Group S.p.A. geschützt ist, ist nur zum Zwecke der Werbung für die Produkte gestattet, und der Kunde darf das Markenzeichen nur mit vorheriger schriftlicher Genehmigung der EMU Group S.p.A. in die Bezeichnung seiner Website

aufnehmen.

12.6. Die Verarbeitung der personenbezogenen Daten von in der Europäischen Union ansässigen Nutzern hat unter strikter Einhaltung der Anforderungen der Verordnung (EU) 2016/679 („DSGVO“) vom 27.4.2016 zu erfolgen.

12.7. Im Falle eines Verstoßes des Kunden und/oder seiner Abnehmer gegen eine der vorgenannten Verpflichtungen oder wiederholter Verstöße, die in ihrer Gesamtheit eine wesentliche Vertragsverletzung darstellen, und wenn nicht innerhalb von sieben (7) Werktagen nach Erhalt einer Aufforderung zur Erfüllung nacherfüllt wird, kann EMU Group S.p.A. die Lieferung einstellen und den Vertrag mit sofortiger Wirkung kündigen und den Kunden davon in Kenntnis setzen. Das Anrecht auf Schadensersatz bleibt hiervon unberührt.

## 13. Höhere Gewalt

Der Verkäufer haftet nicht für etwaige Verluste oder Schäden, die durch eine Verzögerung bei der Erfüllung oder eine Nichterfüllung seiner vertraglichen Verpflichtungen entstehen, wenn diese Verzögerung oder dieser Schaden auf eine Ursache zurückzuführen ist, die außerhalb seiner Kontrolle liegt, einschließlich, aber nicht beschränkt auf, Pandemien, Kriege, Aufstände, gesetzliche oder behördliche Anordnungen oder Verbote, Einfuhr- oder Ausfuhrbestimmungen, Streiks oder Arbeitsunruhen (in Bezug auf die eigenen Mitarbeiter oder die Mitarbeiter anderer Parteien), Schwierigkeiten bei der Beschaffung von Personal oder Material, Maschinenschäden, Brand oder Unfälle. Tritt irgendeines dieser Ereignisse ein, so informiert der Verkäufer den Kunden so schnell wie möglich, und die Parteien vereinbaren neue vertragliche Regelungen. Nach Ablauf von 30 Tagen ohne Änderung der Umstände, welche die Erfüllung ihrer Verpflichtungen verhindert haben, kann EMU Group S.p.A. den Vertrag kündigen, ohne für etwaige sich daraus ergebende Verluste oder Schäden zu haften.

## 14. Beendigung des Vertragsverhältnisses

Bei Beendigung des Vertrags aus beliebigem Rechtsgrund:

14.1. hat der Kunde Folgendes unverzüglich einzustellen:

- die Bewerbung und den Verkauf der Produkte;
  - jegliche Nutzung des Markenzeichens und der Rechte auf geistiges Eigentum von EMU Group S.p.A.;
  - die Präsentation als Händler der Produkte im Gebiet;
- 14.2. Auf Verlangen von EMU Group S.p.A. ist der Kunde verpflichtet, jegliches Werbematerial, das sich in seinem Besitz oder unter seiner Kontrolle befindet, unverzüglich an EMU Group S.p.A. oder an einen vom Verkäufer benannten Dritten zu übergeben oder zu vernichten.

## 15. Steuern

Der Verkaufspreis und alle anderen an den Verkäufer für den Verkauf der Produkte geschuldeten Beträge unterliegen der Mehrwertsteuer (jede neue Steuer, die auf den Verkauf, die Herstellung oder den Transport der Produkte anwendbar ist, mit Ausnahme der Einkommenssteuer des Verkäufers) in der jeweils geltenden Höhe.

## 16. Abtretung

Die Rechte und Pflichten aus dem Vertrag können vom Kunden nur mit vorheriger schriftlicher Zustimmung des Verkäufers ganz oder teilweise abgetreten werden.

## 17. Gerichtsstand – Anwendbares Recht

Der Vertrag unterliegt in jeder Hinsicht dem italienischen Recht. Ausschließlicher Gerichtsstand für alle Streitigkeiten im Zusammenhang mit dem Vertrag und seiner Durchführung ist Perugia.

## 18. Mitteilungsform

Alle Mitteilungen sind ausschließlich an EMU Group S.p.A. an die Adresse ihres eingetragenen Firmensitzes per Einschreiben mit Rückschein bzw. an die zertifizierte E-Mail-Adresse [info@pec.emu.it](mailto:info@pec.emu.it) zu richten.

## 19. Verhaltenskodex und personenbezogene Daten

Der Verhaltenskodex und die Methoden zur Verarbeitung personenbezogener Daten sind auf der Website [www.emu.it](http://www.emu.it) aufgeführt, auf die hier verwiesen wird.

# Condiciones de venta

## 1. Definiciones

En las presentes condiciones generales de venta ("Condiciones Generales") el término "Vendedor" indica EMU Group S.p.A., "Cliente" indica el adquirente de los Productos indicado en la correspondiente factura de venta, "Productos" designa los productos descritos en dicho documento y "Territorio" indica el país en el que los productos serán entregados por el Vendedor.

## 2. Pedidos y perfección del contrato

- a) Al firmar el pedido, el Cliente declara que los artículos pedidos son conformes a los que ha visto tanto en el catálogo como en los puntos de venta de la empresa, sin posibilidad de impugnar posteriormente las posibles discrepancias de los artículos entre lo pedido y lo recibido.
- b) Todo contrato de venta de Productos entre las partes se considerará suscrito cuando el Cliente reciba una confirmación de pedido del Vendedor ("Confirmación de pedido"). Cualquier oferta o presupuesto enviado por el Vendedor al Cliente en relación con los Productos (independientemente de la forma en que sean comunicados) deben considerarse sujetos a las Condiciones Generales.
- c) Las Condiciones Generales son las únicas condiciones aplicables en relación con la venta de los Productos y, salvo las eventuales disposiciones de ley inderogables, se aplican con la exclusión de cualquier otra condición implícita o explícita.
- d) Las Condiciones Generales (conjuntamente el "Contrato") constituyen el acuerdo completo entre las partes en relación con la venta de los Productos y sustituyen a cualquier promesa anterior, declaración u obligación entre las mismas. Las Condiciones Generales podrán ser derogadas o modificadas sólo tras acuerdo escrito entre Cliente y Vendedor.

## 3. Variación de precio

El Vendedor se reserva el derecho a modificar, mediante simple comunicación escrita al Cliente en cualquier momento anterior a la recepción por parte del mismo Cliente de la Confirmación de Pedido, el precio de venta de los Productos (el "Precio de Venta") para incluir en el mismo cualquier incremento de los costes de las materias primas, de la producción, de las confecciones, del transporte o de la mano de obra.

## 4. Pago

- a) Salvo cuando sea diversamente establecido por el Vendedor, el pago íntegro del Precio de Venta debe ser efectuado antes de la fecha indicada en la correspondiente factura.
- b) En caso de pago a plazos, el incumplimiento de la fecha pactada de uno solo de los plazos conllevará la anulación del beneficio de plazo para el Cliente, con el consecuente derecho para EMU Group S.p.A. de suspender posibles suministros en curso y pedir el pago del precio completo. En tal caso los importes ya pagados serán retenidos por EMU Group S.p.A. a título de reembolso de gastos e indemnización de daños por incumplimiento contractual.
- c) Todos los pagos deberán ser efectuados respetando los plazos y modalidades previstos en el Contrato. En el caso de retraso en el pago de las facturas, madurarán a cargo del Cliente, sin necesidad de constitución de demora, intereses iguales al tipo de interés del principal instrumento de financiación del Banco Central Europeo aplicado en su operación de refinanciación más reciente, aumentado en 7 puntos porcentuales, de conformidad con el Decreto Legislativo. nº 231/2002.
- d) No obstante lo dispuesto anteriormente, si los pagos no se efectúan respetando los plazos previstos en las Condiciones Generales, el Vendedor tendrá el derecho de suspender la entrega de los Productos solicitados por el Cliente, hasta que el este último no efectúe el pago de lo vencido.
- e) En caso de que el Cliente no efectúe el pago de los Productos en los términos establecidos en las Condiciones Generales, y a falta de subsanación en el plazo de siete (7) días desde la recepción de una intimación a cumplir, el Contrato quedará resuelto, sin perjuicio del derecho de EMU Group S.p.A. al reembolso de todos los gastos incurridos para el cobro de las cantidades vencidas, incluidos posibles gastos legales y judiciales y la indemnización por los daños sufridos.

## 5. Entrega

- a) Precios expresados en Euros, IVA y transporte incluidos.

La Lista de Precios se aplica en todos los Países de la Unión Europea excepto Estonia, Lituania, Letonia, Chipre, Malta, Rumanía, Hungría, Polonia, Croacia, República Checa y República Eslovaca. Cada pedido tiene que respetar la unidad de embalaje especificada en la tarifa a lado de cada producto.

## CONDICIONES DE TRANSPORTE

Para pedidos con importe inferior a 1.000 € netos hay una contribución a los gastos de transporte (excepto los Países por los cuales están especificadas condiciones diferentes).

Para Noruega, Suecia, Finlandia y Dinamarca las condiciones de transporte serán especificadas separadamente. Para Suiza se aplica el Incoterm "DDP - IVA no pagado", la IVA esta a cargo del comprador. Los gastos de porte para entregas directas a las islas serán definidos en fase de confirmación de pedido.

b) Los plazos de entrega son indicativos y el Vendedor no será responsable de posibles pérdidas o daños.

c) En caso de recibir embalajes dañados es necesario:

- 1) indicare en el albarán el número de bultos dañados y la nota "Aceptado con reservas por caja/s dañada/s";
- 2) comunicar a EMU Group S.p.A., en un plazo de 48 horas, la lista de los bultos y productos dañados con la documentación fotográfica correspondiente.

No se aceptarán reclamaciones por daños debidos al transporte si no se comunican con la reserva detallada mencionada anteriormente.

## 6. Reserva de propiedad y riesgo

- a) Independientemente de la entrega, el Vendedor mantendrá la propiedad de los Productos hasta que el mismo no haya recibido el pago íntegro del Precio de Venta por parte del Cliente.
- b) El Cliente reconoce y acepta que, hasta que no se realice el pago íntegro del Precio de Venta, el Cliente será poseedor de los Productos sólo en calidad de depositario del Vendedor y conservará los Productos objeto del contrato separados de otros Productos, de forma que puedan ser identificados inmediatamente por el Vendedor.
- c) En el caso en que los Productos sean entregados en una dirección particular del Cliente, el Vendedor podrá, en cualquier momento anterior a la venta de los Productos y previa comunicación al Cliente con preaviso adecuado, tener acceso al lugar donde se hayan entregado los Productos para poder entrar de nuevo en posesión de los Productos de los que el Vendedor sea aún propietario. El Cliente se compromete desde ahora a hacer lo necesario para permitir al Vendedor el ejercicio de dicho derecho.
- d) Las disposiciones de este artículo no pueden ser interpretadas en el sentido de atribuir al Cliente el derecho a devolver los Productos o de rechazar, retrasar o suspender el pago de los mismos, salvo que no haya sido establecido de otra forma entre las partes.

## 7. Garantías

a) El Vendedor garantiza que en el momento de la entrega los Productos no tendrán vicios y responderán a las características técnicas indicadas por el propio Vendedor, siempre que dichos Productos sean utilizados por el Cliente con los fines para los cuales ese tipo de Productos es utilizado normalmente. En el caso en que el Vendedor no haya comunicado particular característica alguna en relación con un determinado producto, éste se considerará, en el momento de la entrega, conforme según los estándares ordinarios de calidad de mercado para productos industriales similares. Manteniéndose cuanto previsto en el artículo 7 (B) y, en el caso en que el Producto no resultase conforme a la garantía indicada arriba, el Vendedor tendrá derecho, a discreción propia, de:

- 1) sustituir los Productos o partes de ellos no conformes, o
  - 2) modificar los Productos para que sean conformes con las características indicadas por el Vendedor o (según el caso) a estándares de calidad de mercado para productos similares, o
  - 3) retirar los Productos no conformes y devolver íntegramente el Precio de Venta correspondiente.
- b) La garantía indicada arriba operará siempre que:

- 1) el Cliente haya respetado las disposiciones del artículo 9, en la medida en que sea aplicable;
- 2) el Cliente haya comunicado por escrito y documentado mediante fotos en soporte tradicional o digital al Vendedor

los vicios en los (l) 14 (catorce) días desde la entrega de los Productos en caso de vicios fácilmente reconocibles y en los (l) 14 (catorce) días desde el descubrimiento de vicios ocultos. La acción del Cliente prescribirá en todo caso a los 2 (dos) años de la entrega de los Productos;

3) el Cliente conceda al Vendedor la posibilidad de inspeccionar, con modalidades razonables, los Productos;

4) el Cliente haya cesado en el uso de Productos no conformes desde el momento del descubrimiento de los defectos declarados por el mismo.

c) Manteniéndose cuanto previsto en el artículo 7 (A) anterior y con la salvedad de las eventuales disposiciones de ley inderogables:

1) queda excluida cualquier otra garantía, explícita o implícita, en relación con la calidad, comerciabilidad o idoneidad de los Productos para fines específicos; y

2) el Vendedor no será considerado responsable de eventuales pérdidas o daños sufridos por el Cliente a causa del defecto o de la falta de funcionamiento del producto no cubierto por la presente garantía.

d) El Vendedor hará todo lo razonablemente posible para suministrar al Cliente eventuales instrucciones, recomendaciones y consejos para la conservación y el uso de los Productos y las correspondientes condiciones de empleo. Queda entendido que será responsabilidad del Cliente el asegurar que los Productos sean utilizados conforme a las correspondientes características técnicas y modalidades de uso.

e) EMU Group S.p.A. no responderá por defectos o daños a sus productos causados por un uso y/o fin inadecuados de los mismos.

f) EMU Group S.p.A. se reserva el derecho de modificar las características técnicas de construcción de sus productos, en función de la evolución tecnológica de los sistemas de producción y de las posibles prescripciones legales en su marco de referencia.

## 8. Cantidad

El Cliente deberá comunicar por escrito al Vendedor la eventual entrega de una cantidad de Productos no conforme (sea el número superior o inferior respecto al originalmente pedido por el Cliente) antes de 8 (ocho) días desde la fecha de recepción de la mercancía.

a) En el caso en que la cantidad de Productos entregada al Cliente sea inferior a la pedida por el mismo, el Cliente tendrá derecho sólo a obtener:

- 1) una cantidad adicional de Productos; o
- 2) una reducción del precio de Venta.

b) En el caso en que la cantidad de Productos entregada al Cliente sea superior a la pedida por el mismo, el Cliente:

- 1) deberá devolver la cantidad de Productos entregada en exceso; o
- 2) quedarse con la cantidad de Productos entregada, pagando el Precio de Venta completo de los mismos.

c) Queda en todo caso entendido que la eventual entrega de una cantidad de Productos diferente de la pedida (sea ésta superior o inferior) no dará derecho al Cliente a rechazar el suministro y que cualquier devolución de Productos deberá ser acordada previamente según lo establecido en el artículo 10.

## 9. Comunicación de vicios o falta de entrega

a) Las posibles reclamaciones por vicios o defectos de los productos encontrados tras la apertura de los embalajes deberán ser comunicadas por fax o mail a EMU Group S.p.A., además de correo certificado con acuse de recibo, enviada antes de los 8 días posteriores a la recepción, adjuntando obligatoriamente los datos del albarán de entrega y de la factura de referencia, además de foto en soporte digital que indique el defecto encontrado.

b) El Cliente deberá comunicar por escrito al Vendedor todo evento considerado cubierto por la garantía según el artículo 7 (A) en los plazos indicados en el artículo 7 (B) (2), bajo pena de caducidad.

c) El Cliente además deberá notificar por escrito al Vendedor cualquier entrega de una cantidad diferente de Productos dentro y no más tarde de los plazos establecidos en el Artículo 8 bajo pena de caducidad y a efectos del ejercicio de derechos.

d) Una vez transcurrido el plazo mencionado en el Artículo 9 (B) anterior, la cantidad de Productos efectivamente entregados al

Cliente se considerará definitivamente aceptada por éste. En tal circunstancia, el Cliente quedará obligado a pagar el Precio de Venta completo, indicado en la factura correspondiente a los Productos realmente entregados.

## 10. Devolución de los Productos

- En ningún caso un Producto podrá ser devuelto al Vendedor sin el consentimiento previo por escrito de éste.
- El producto debe ser devuelto en su embalaje original. Devoluciones no autorizadas serán devueltas al remitente con adeudo de los relativos costes de transporte.

## 11. Derechos de propiedad intelectual - Uso de marca e imágenes

11.1 En relación a la propiedad intelectual, el Vendedor garantiza exclusivamente que la entrega y el uso de los Productos no violan ninguna patente, diseño o modelo industrial, derecho de autor, marca registrada o secreto empresarial de terceros existentes en el Territorio hasta la fecha de entrega de los "Productos" (los "Derechos de Propiedad Intelectual"). El Vendedor resarcirá al Cliente los posibles daños que éste sufriera como consecuencia de la violación de dicha garantía. La garantía no será aplicada, y por tanto el Cliente no tendrá derecho a ninguna indemnización, si se verificase alguna de las siguientes hipótesis:

- el Vendedor haya adoptado y seguido, para el suministro de los Productos, instrucciones específicas del Cliente que hayan determinado una violación de los Derechos de Propiedad Intelectual;
- la violación de los Derechos de Propiedad Intelectual esté causada por el uso de los Productos en modalidades, o con fines y en lugares no especificados previamente o indicados por escrito al Vendedor;
- el Cliente no haya informado inmediatamente al Vendedor por escrito de la existencia de impugnaciones, reclamaciones o acciones judiciales (emprendidas o amenazadas) contra el Cliente relacionadas con los Derechos de Propiedad Intelectual; o
- el Cliente, a pesar de haber cumplido con las disposiciones de la Sección 11 (C) anterior, no permite que el Vendedor asuma -a sus expensas- la gestión de la disputa o participe en cualquier acuerdo.

11.2 El Cliente garantiza que las indicaciones o instrucciones específicas relativas al suministro de los Productos que pueda dar al Vendedor no harán que el Vendedor infrinja ningún Derecho de Propiedad Intelectual de terceros, y se compromete a indemnizar todos los daños que el Vendedor pueda sufrir en caso de tal infracción ocurra.

11.3 Para uniformar en el territorio italiano la imagen comercial de EMU Group S.p.A., así como las peculiaridades del diseño y de las características de fabricación de sus productos, mantener la notoriedad y el prestigio de la marca, el Cliente se compromete a acatar lo siguiente:

- la utilización, incluso con fines publicitarios, en cualquier forma y por cualquier medio, del logotipo EMU y de la imagen de los Productos, podrá efectuarse sólo con el previo consentimiento escrito de EMU Group S.p.A. y en las condiciones vinculantes que serán indicadas por el mismo; de lo contrario, EMU Group S.p.A. estará autorizada a suspender, sin aviso previo, los eventuales suministros en curso y a requerir el pago integral del precio del suministro, incluso de la parte aún no vencida, salvo resarcimiento de daños;
- cualquier venta promocional y descuentos con respecto a los precios recomendados indicados en la lista de precios deberá comunicarse previamente a EMU Group S.p.A.; el Cliente no podrá realizar ninguna publicidad o promoción de los Productos que pueda ir en detrimento de la imagen de lujo y alta calidad de la marca EMU [incluyendo, a modo de ejemplo, la exhibición de (a) carteles de descuentos porcentuales presentados de forma no coherente con el prestigio y la imagen de la marca, (b) carteles de comparación de precios con precios tachados, salvo que estén prescritos por la normativa sobre publicidad en el Territorio, (c) la publicidad combinada en la que los Productos se muestran con reducciones de precio junto con otros productos con la marca a precio completo, lo que puede implicar que esos Productos son de calidad inferior o menos populares].
- Asimismo el Cliente deberá comunicar, inmediatamente, a EMU Group S.p.A. cualquier acto o actividad ejercida por

los compradores de los Productos que puedan perjudicar los derechos de EMU Group S.p.A. relacionados con el uso de las imágenes de su marca o del logo EMU. A falta de una notificación a tiempo, el Cliente será considerado personalmente responsable de dicho incumplimiento y de los daños sufridos por EMU Group S.p.A.

11.5 EMU Group S.p.A., para la comercialización de los Productos, y con el fin declarado de mantener la notoriedad y prestigio de la marca, así como en relación a la calidad del Producto y de la imagen empresarial de la casa productora, y de garantizar al usuario final la identidad de origen del Producto designado con la marca y un uso correcto, así como, además, un alto nivel de profesionalidad en los distribuidores de dichos productos que garantice la experiencia en el sector, utiliza un sistema de distribución selectiva compuesto por distribuidores/minoristas autorizados, tiendas franquiciadas y Flag Stores. Por lo tanto, el Cliente se compromete -también en cumplimiento de las disposiciones pertinentes del Reglamento de la UE nº 2022/720, así como de las Directrices relativas a las restricciones verticales 2022/C 248/01 de la Comisión Europea a - (i) no vender los Productos fuera del Territorio y a revendedores y/o distribuidores no autorizados, en particular, a no vender a mayoristas, comerciantes colectivos, minoristas de artículos en rebaja, empresas de venta por correo o empresas que operen con el sistema de venta puerta a puerta o a domicilio, salvo con el consentimiento previo por escrito del concedente EMU Group S.p.A., así como (ii) garantizar mediante medidas adecuadas el cumplimiento de esta disposición por parte de sus compradores.

11.6 En caso de incumplimiento por parte del Cliente y/o de sus compradores de cualquiera de las obligaciones anteriormente mencionadas, o en caso de incumplimientos reiterados que, en su conjunto, constituyan un incumplimiento sustancial del Contrato, y a falta de subsanación en el plazo de siete (7) días hábiles desde la recepción de una intimación a cumplir, EMU Group S.p.A. podrá rescindir el suministro y resolver el Contrato con efecto inmediato, notificándolo al Cliente, sin perjuicio del derecho a indemnización por daños.

## 12. Ventas en línea

12.1 [Además de los locales en los que el Cliente lleva a cabo su actividad] la promoción y venta de Productos podrá realizarse en línea, exclusivamente en el propio sitio y sujeto a las siguientes condiciones.

12.2. Se prohíbe cualquier (i) venta en cualquier plataforma de terceros o "marketplace" y (ii) venta activa fuera del Territorio, es decir, cualquier venta en línea resultante de actividades realizadas a través de Internet a usuarios ubicados fuera del Territorio, como, por ejemplo:

- envío de correos electrónicos dirigidos a usuarios o grupos de usuarios situados fuera del Territorio;
- publicidad en línea dirigida específicamente a usuarios o grupos de usuarios situados fuera del Territorio;
- banners publicitarios colocados en sitios web de terceros, dirigidos a usuarios o grupos de usuarios situados fuera del Territorio;
- anuncios en motores de búsqueda o a través de un proveedor de potencia en línea dirigidos a usuarios o grupos de usuarios situados fuera del Territorio.

12.3. La promoción y la venta de los Productos en línea deben ser siempre coherentes con la calidad, el estilo y el prestigio de los Productos y de la marca EMU Group S.p.A., de conformidad con el artículo 11.

12.4. El sitio web del cliente siempre debe:

- ofrecer al usuario la posibilidad de obtener cualquier información y/o asesoramiento relativo a las cualidades, especificaciones y métodos de uso/instalación de los Productos;
- comunicar al usuario únicamente la información y material promocional relativo a los Productos suministrados por EMU Group S.p.A.,
- ofrecer la mejor calidad de presentación de los Productos, promover y publicar únicamente imágenes y material relativo a los Productos suministrados por EMU Group S.p.A.

12.5 El uso de la marca y del material protegido por derechos de propiedad industrial e intelectual pertenecientes a EMU Group S.p.A. está permitido únicamente con el fin de promocionar los Productos; el Cliente no podrá incluir la marca en el nombre de su sitio web, salvo previa autorización por

escrito de EMU Group S.p.A.

12.6 El tratamiento de los datos personales relativos a usuarios ubicados en la Unión Europea debe realizarse en estricto cumplimiento de los requisitos del Reglamento UE "RGPD" n.º 2016/679 del 27.4.2016.

12.7 En caso de incumplimiento por parte del Cliente y/o de sus compradores de cualquiera de las obligaciones anteriormente mencionadas, o de incumplimientos reiterados que, en su conjunto, constituyan un incumplimiento sustancial del Contrato, y a falta de subsanación en el plazo de siete (7) días hábiles desde la recepción de una intimación a cumplir, EMU Group S.p.A. podrá rescindir el suministro y resolver el Contrato con efecto inmediato, notificándolo al Cliente, sin perjuicio del derecho a indemnización por daños.

## 13. Fuerza mayor

El Vendedor no será responsable de posibles pérdidas o daños causados por el retraso en el cumplimiento o el incumplimiento de sus obligaciones según el Contrato en el caso en que los mismos se deban a una causa fuera de su control, incluidos, a título de ejemplo y no exhaustivo, pandemias, guerras, revueltas civiles, órdenes o prohibiciones sobrevenidas impuestas por la ley o autoridades públicas, regulaciones de importaciones o exportaciones, huelgas o agitaciones sindicales (relacionadas con sus empleados o con empleados de otros sujetos), dificultades para localizar personal o materiales, daños en la maquinaria, incendios o accidentes. Si se produjera alguno de estos hechos, el Vendedor informará al Cliente lo antes posible y las partes acordarán nuevas modalidades contractuales. Transcurridos 30 días, sin que se modifiquen las circunstancias que impidieron el cumplimiento de sus obligaciones, EMU Group S.p.A. podrá resolver el Contrato sin incurrir en responsabilidad alguna por los daños derivados de dicha acción.

## 14. Fin de la relación

Si el Contrato se rescinde por cualquier motivo:

14.1. el Cliente deberá cesar inmediatamente:

- la promoción y venta de los Productos;
- cualquier uso de la marca y de los derechos de propiedad intelectual de EMU Group S.p.A.;
- el presentarse como revendedor de los Productos en el Territorio;

14.2 A petición de EMU Group S.p.A., el Cliente entregará inmediatamente a EMU Group S.p.A., o a cualquier tercero designado por el Vendedor, o destruirá cualquier material promocional que esté en su posesión o bajo su control.

## 15. Impuestos

El Precio de Venta y cualquier otra suma debida al Vendedor por la venta de los Productos están sujetos a la aplicación del Impuesto sobre el Valor Añadido (cualquier nuevo impuesto aplicable a la venta, producción o transporte de los Productos diferente de un impuesto plano la renta del Vendedor) con la correspondiente alícuota aplicable en el momento determinado.

## 16. Cesión

Los derechos y obligaciones derivados del Contrato sólo podrán ser cedidos total o parcialmente por el Cliente previo consentimiento por escrito del Vendedor.

## 17. Ley aplicable - Foro competente

El Contrato está regulado a todos los efectos por la ley italiana. Cualquier controversia relacionada con el Contrato estará sujeta a la competencia exclusiva del Foro de Perugia.

## 18. Forma de comunicación

Todas las comunicaciones deberán dirigirse exclusivamente a EMU Group S.p.A., a la única dirección de la sede legal mediante carta certificada, o bien a la casilla de correo electrónico certificada de la misma: info@pec.emu.it

## 19. Código ético y datos personales

El código ético y la forma en que se tratan los datos personales se especifican en el sitio [www.emu.it](http://www.emu.it), al que puede remitirse.
